Men and the Language of Emotions D. Galasinski,2016-01-07 Men and the Language of Emotions challenges the commonly held association of rationality with masculinity, involving distancing from the language of emotions. Drawing on a study of heterosexual men talking about their life and relationships, he demonstrates that men are capable of speaking of emotions, and in direct and uninhibited ways.

Wasting time and energy on unproductive complaints can take an emotional toll on our moods and well-being. Psychotherapist Guy Winch offers practical and psychologically grounded advice on how to determine what to complain about and how to convey our complaints in ways that encourage cooperation and remedies to our dissatisfactions. and work relationships.

How to Be the Best Third Wheel Loridee De Villa, 2022-05-03 It's the last year of highschool, and everything has changed . . . After a summer spent in the Philippines with her family, Lara de la Cruz is eager to start her senior year and, most importantly, reunite with her three besties, Carol, Jasmine, and Kiera. Of course summer is the season of change, and Lara knew she'd have to get caught up on the major updates, hot gossip, and other shenanigans she may have missed. But what she did not expect was to show up on the first day of school to all three of her friends now in relationships. The mushy public displays of affection and lunches spent gushing about their new "boyfries" has Lara quickly realizing her last year of high school is nothing like she imagined. Since she's been back,

Lara's long time frenemy, James, has become impossibly annoying. Sure, they are now both third wheels, but why is he asking her to tutor him in classes? And why, after they start spending more time together, does she begin to notice how cute he looks when he smiles . . . uh oh. Fighting for the attention of her best friends, catching some pretty new and confusing feelings for James, and wading through the pressures post-high-school plans all have Lara reeling. And to make matters worse, Lara's beautiful and untrustworthy cousin conveniently appears and wiggles her way right between her and James' budding relationship. Feeling like a third wheel in more ways than one, Lara must learn to accept that change is inevitable, love is complicated, and being the odd one out is sometimes where inner power is found.

Scherer, Cristina Soriano, 2013-08 When using emotion terms such as anger, sadness, fear, disgust, and contempt, it is assumed that the terms used in the native language of the researchers, and translated into English, are completely equivalent in meaning. This is often not the case. This book presents an extensive cross-cultural/linguistic review of the meaning of emotion words

In *A Memory of Light*, the fourteenth and concluding novel in Jordan's #1 New York Times bestselling epic fantasy series, the armies of Light gather to fight in Tarmon Gai'don, the Last Battle, to save the Westland nations from the shadow forces of the Dark One. Rand al'Thor, the Dragon Reborn, is ready to fulfill his destiny. Teaching Climate Change to Children Rebecca Woodard, Kristine M. Schutz, 2024-03-22

Teaching Climate Change to Children describes the journey of two literacy researchers to learn about climate change and support relevant literacy pedagogy for young children (pre-K–6). The authors argue that climate change and social justice are inextricable from each other; that children in the younger grades are capable of learning about climate change; and that reading, writing, and language study is well-suited to this work. Three anchoring themes are offered to support literacy climate pedagogy—interconnectivity, relationality, and action—with rich classroom examples and different entry points to engage with these themes, either by “starting small” or “going big.” The text includes chapters on the importance of taking an emotionally affirming stance and on the potential of incorporating arts-based methods. With love for the Earth and one another at its core, this accessible book takes a broad view of what it means to cultivate sustainable futures for our planet, for teachers, and for children in today’s schools. Book Features: A unique focus on teaching about climate change to young children, as opposed to adolescents. Insights drawn from a yearlong teacher inquiry group with classroom teachers and from literacy methods courses with preservice teachers. Explicit attention to the importance of humanizing and care-based practices in literacy climate pedagogy. Classroom examples collected across four urban public schools where teachers used the activities and resources discussed in the book. User-friendly textboxes with suggestions and questions to guide discussion, reflection, and

action.
