Build Your Own Fence Macy Nicanor,2011-07-31 Do you really need a fence? You may need to build a fence to meet local government (city, town, state) housing rules and regulations. For instance, if you have a pool or pets, most often your local housing laws will require you to fence in the animals and the area around the pool. Perhaps also you may just want to enclose your home or land area for privacy or aesthetic reasons. For whatever reason you need a fence, building one can be affordable if you make it a do it yourself job. You can save so much money on labor cost alone. Also, if you build your fence DIY, you can put it up fast as you won't have to wait for contract workers to schedule you within their timeframe. Design and installation will be the primary areas to learn when building your own home fence. Planning will need to include research on fence types and materials so that your fence design will look aesthetically beautiful as an accent to your entire landscape. In installing your fences, strong support is the key for building fences that will last for years to come. This book will provide you with a step by step framework for creating a home fence. The guide will begin with initial planning and guide you through to the end product and maintenance of your new fence. You will learn specific tips and instructions on: * What type of fence to install * Tools needed to get started * Installing the fence (the specs) Whether you are a beginner or expert do it yourself fence builder you can learn something new about fence building in this book to help you build your new home fence project quickly, easily and cheaply!

The Perfect Fence Lyn Ellen Bennett,Scott Abbott,2017-12-01 Barbed wire is made of two strands of galvanized steel wire twisted together for strength and to hold sharp barbs in place. As creative advertisers sought ways to make an inherently dangerous product attractive to customers concerned about the welfare of their livestock, and as barbed wire became commonplace on battlefields and in concentration camps, the fence accrued a fascinating and troubling range of meanings beyond the material facts of its construction. In *The Perfect Fence*, Lyn Ellen Bennett and Scott Abbott explore the multiple uses and meanings of barbed wire, a technological innovation that contributes to America's shift from a pastoral ideal to an industrial one. They survey the vigorous public debate over the benign or "infernal" fence, investigate legislative attempts to ban or regulate wire fences as a result of public outcry, and demonstrate how the industry responded to ameliorate the image of its barbed product. Because of the rich metaphorical possibilities suggested by a fence that controls through pain, barbed wire developed into an important motif in works of literature from the late nineteenth century to the present day. Early advertisements proclaimed that barbed wire was "the perfect fence," keeping "the ins from being outs, and the outs from being ins." Bennett and Abbott conclude that while barbed wire is not the perfect fence touted by manufacturers, it is indeed a meaningful thing that continues to influence American identities.
