Australia. Commonwealth Bureau of Census and Statistics

The Great Ferry Race James Whiley,2011 In this Ferry Tale, the First Fleet Class ferries - Terri, Morris, Brian and Nessy - share an unforgettable adventure and learn some important lessons as they race around Sydney Harbour on Australia Day. The four ferries are cheered on by all their friends: Fort Denison; Stanley and Myf, the Manly ferries; Roger Rivercat and Elly-copter; Joan and Bennelong, the Opera House sails; and hundreds of spectator boats. The race produces a surprising result in which all four ferries win in very different ways.

The Sydney Ferry Book Dale Budd, Randall Wilson, 2006 A colorful pictorial book about the ferries of Sydney Harbour, both past and present. It includes more than 150 photos with informative captions, as well as art works by some of Australia's most noted artists, such as Arthur Streeton, Margaret Preston and Harold Cazneaux. The photographs and paintings foreground the many aspects of Sydney's ferries: the vessels themselves, their passengers, and their crews.

Integrating Passenger Ferry Service with Mass Transit Timothy D. Payne, 2013 The purpose of this

synthesis was to document the state of the practice of integration between land- and water-based transit systems and to explore successful aspects of seamless integration. The report assembles and presents information in numerous locations around the United States, supplemented with examples from Canada, Australia, and Bermuda. To accomplish this effort a literature review was undertaken that received limited results. However, a selected survey of 46 respondents out of 57 transit and ferry agencies, as well as agencies and companies in Canada, Australia, and the United Kingdom, including Bermuda, received an 80% response rate. The respondents represent a geographically representative sample--varying in size and age of system, degree of coordination between ferry and transit, and type of community served. The synthesis summarizes findings from 60 different ferry-to-land-based transit interfaces. Case examples of key factors of land- and water-based integration are offered for Long Wharf in Boston, Massachusetts; TransLink's SeaBus in Vancouver, British Columbia; New York Waterway's Hoboken Terminal; and Washington State Ferries and Kitsap Transit in Bremerton, Washington. Tim Payne, Danielle Rose, and Hazel Scher, Nelson\Nygaard Consulting Associates, Inc.,

Seattle, Washington, collected and synthesized the information and wrote the report, under the guidance of a panel of experts in the subject area. The members of the topic panel are acknowledged on the preceding page. This synthesis is an immediately useful document that records the practices that were acceptable within the limitations of the knowledge available at the time of its preparation. As progress in research and practice continues, new knowledge will be added to that now at hand--

Whales in Sydney Harbour! James Whiley, 2011 Based on a true story, this book tells the magical tale of a mother whale and her calf who visit Sydney Harbour on their journey south to the Antarctic Ocean. Featuring all the characters who have made Stanley the Manly Ferry, the first 'Ferry Tale', so popular, as well as new characters such as Elly-Copter and Stephen Seagull, this story and its beautiful illustrations will delight children of all ages.

Fishing Stories from Australia David John Williams, 2014-05 An eclectic collection of fishing stories and related poetry from Australia. Adventurous stories about the great white shark of Seal Rocks

Victoria, to the cunning blackfish and prawns that live in the Davistown baths of New South Wales. All the stories have an associated poem, written as a response to the adventure. Real life stories of fun, drama and a few embarrassing moments. Most stories were the direct experience of the author. The associated poetic reflections have a strong spiritual connection with God and country. These reflections generally concentrate on the Author's boyhood experience. The Author's passion is to preserve the environment by campaigning for a closed season on snapper fishing. To be introduced when they are laying their eggs in the spring time to avoid extinction. The author hopes that the reader will be motivated to care for snapper and experience the bird song at dawn. Fishing is a great way of recharging the brain after a hard day's work. I believe all fishermen are destined to be great mates for life. So I hope you smile when reading this booklet. I have enjoyed recording my memoirs for the grandchildren. So Fish On Australia.

Ferry Boat Michael Garland, 2021-01-05 A blow-by-blow account of one of the most famous ferry rides in the world, this Level F book is perfect for kindergarteners and first graders to read on their own. Breathtaking scenes illustrate and illuminate a text that is just right for new readers: We go on the ferry. Let's go to the window. We see a fort. We see a long, long bridge. Realistic digital etchings of the Manhattan skyline, the escalator to a gangplank, New York City crowds, and landmarks such as the Statue of Liberty, Ellis Island and more give new readers an experience that builds skills, boosts confidence, and shows how reading is fun! This book has been officially leveled by using the Fountas & Pinnell Text Level Gradient(TM) Leveling System. Level F books, for early first graders, feature

longer, more varied sentences than Level E. Level F books encourage kids to decode new multi-syllable words in addition to recognizing sight words. Stories are more complex, and illustrations provide support and additional detail. When Level F is mastered, follow up with Level G. The award-winning I Like to Read series features guided reading levels A through G, based upon Fountas & Pinnell standards. Acclaimed author-illustrators—including winners of Caldecott, Theodor Seuss Geisel, and Coretta Scott King honors—create original, high-quality illustrations that support comprehension of simple text and are fun for kids to read again and again with their parents, teachers or on their own!
