The media has named the growing trend toward micro-entrepreneurship the Rise of the Creative Class, the Gig Life, or the freelance economy. All of those refer to the nearly 4 million workers who were self-employed this past year, and millions of others who currently supplement their income with freelance work. Micro-enterprise, using online platforms to sell products or services, is a proven way to earn extra money and supplement household income. In today's struggling economy, the importance of self-run businesses and small enterprise is growing as more people take lower-paying jobs and need a little extra spending money. Shows you how to sign up for and sell products online. *Micro-Entrepreneurship For Dummies* appeals to anyone looking to earn or supplement their income from home.
