Thomas Elsaesser

*The Mind-Game Film* Thomas Elsaesser, 2021-03-28 This book represents the culmination of Thomas Elsaesser's intense and passionate thinking about the Hollywood mind-game film from the previous two decades. In order to answer what the mind-game film is, why they exist, and how they function, Elsaesser maps the industrial-institutional challenges and constraints facing Hollywood, and the broader philosophic horizon within which American cinema thrives today. He demonstrates how the 'Persistence of Hollywood' continues as it has adapted to include new twists and turns, as well as revisions of past concerns, as film moves through the 21st century. Through examples such as *Minority Report*, *Mulholland Drive*, *Source Code*, and *Back to the Future*, Elsaesser explores how mind-game films challenge us and play games with our perception of reality, creating skepticism and (self-) doubt. He also highlights the mind-game film's tendency to intervene in a complex fashion in the political moment by questioning the dominant power's intent to program both body and mind alike. Prescient and compelling, *The Mind-Game Film* will appeal to students, scholars, and enthusiasts of media studies, film studies, philosophy, and politics.

**Whitey** Dick Lehr, Gerard O'Neill, 2013-02-19 From the bestselling authors of *Black Mass* comes the definitive biography of Whitey Bulger, the most brutal and sadistic crime boss since Al Capone. Drawing on a trove of sealed files and previously classified material, *Whitey* digs deep into the mind of James

J. "Whitey" Bulger, the crime boss and killer who brought the FBI to its knees. He is an American original --a psychopath who fostered a following with a frightening mix of terror, deadly intimidation and the deft touch of a politician who often helped a family in need meet their monthly rent. But the history shows that despite the early false myths portraying him as a Robin Hood figure, Whitey was a supreme narcissist, and everything--every interaction with family and his politician brother Bill Bulger, with underworld cohorts, with law enforcement, with his South Boston neighbors, and with his victims--was always about him. In an Irish-American neighborhood where loyalty has always been rule one, the Bulger brand was loyalty to oneself. Whitey deconstructs Bulger's insatiable hunger for power and control. Building on their years of reporting and uncovering new Bulger family records, letters and prison files, Dick Lehr and Gerard O'Neill examine and reveal the factors and forces that created the monster. It's a deeply rendered portrait of evil that spans nearly a century, taking Whitey from the streets of his boyhood Southie in the 1940s to his cell in Alcatraz in the 1950s to his cunning, corrupt pact with the FBI in the 1970s and, finally, to Santa Monica, California where for fifteen years he was hiding in plain sight as one of the FBI's Ten Most Wanted. In a lifetime of crime and murder that ended with his arrest in June 2011, Whitey Bulger became one of the most powerful and deadly crime bosses of the twentieth century. This is his story.

*Confronting the Challenges of Participatory Culture* Henry

Jenkins, 2009-06-05 Many teens today who use the Internet are actively involved in participatory cultures—joining online communities (Facebook, message boards, game clans), producing creative work in new forms (digital sampling, modding, fan videomaking, fan fiction), working in teams to complete tasks and develop new knowledge (as in Wikipedia), and shaping the flow of media (as in blogging or podcasting). A growing body of scholarship suggests potential benefits of these activities, including opportunities for peer-to-peer learning, development of skills useful in the modern workplace, and a more empowered conception of citizenship. Some argue that young people pick up these key skills and competencies on their own by interacting with popular culture; but the problems of unequal access, lack of media transparency, and the breakdown of traditional forms of socialization and professional training suggest a role for policy and pedagogical intervention. This report aims to shift the conversation about the digital divide from questions about access to technology to questions about access to opportunities for involvement in participatory culture and how to provide all young people with the chance to develop the cultural competencies and social skills needed. Fostering these skills, the authors argue, requires a systemic approach to media education; schools, afterschool programs, and parents all

have distinctive roles to play. The John D. and Catherine T. MacArthur Foundation Reports on Digital Media and Learning

*Guru English* Srinivas Aravamudan, 2011-06-27 *Guru English* is a bold reconceptualization of the scope and meaning of cosmopolitanism, examining the language of South Asian religiosity as it has flourished both inside and outside of its original context for the past two hundred years. The book surveys a specific set of religious vocabularies from South Asia that, Aravamudan argues, launches a different kind of cosmopolitanism into global use. Using *Guru English* as a tagline for the globalizing idiom that has grown up around these religions, Aravamudan traces the diffusion and transformation of South Asian religious discourses as they shuttled between East and West through English-language use. The book demonstrates that cosmopolitanism is not just a secular Western discourse that results from a disenchantment with religion, but something that can also be refashioned from South Asian religion when these materials are put into dialogue with contemporary social movements and literary texts. Aravamudan looks at religious forms of neoclassicism, nationalism, Romanticism, postmodernism, and nuclear millenarianism, bringing together figures such as Swami Vivekananda, Sri Aurobindo, Mahatma Gandhi, and Deepak Chopra with Rudyard Kipling, James Joyce, Robert Oppenheimer, and Salman Rushdie. *Guru English* analyzes writers and gurus, literary texts and religious movements, and the political uses of religion alongside the literary expressions of religious teachers, showing

the cosmopolitan interconnections between the Indian subcontinent, the British Empire, and the American New Age.

*Life, Once More* Sven Lütticken,2005 These days, the term reenactment usually refers to live reconstructions of historic events, often of a military nature, performed by hobbyists. Civil War reenactments are the most popular in the United States, while European enthusiasts most often engage in recreations from the Napoleonic era. Visual art has its own versions. Recent years have brought many reenactments of historic performances from the 1960s and 1970s, works which otherwise would exist only in photos, videos, and text descriptions. But what exactly is being reenacted, and what is the effect of the representation? What meaning is resurrected out of this doubling? In the exhibition *Life, Once More*, contemporary works and texts by Mike Bidlo, Bik Van der Pol, Rod Dickinson, Omer Fast, Andrea Fraser, Robert Longo, Eran Schaerf, Catherine Sullivan and Barbara Visser reflect on these timely (and timeless) questions.

*Fantasia of Color in Early Cinema* Tom Gunning,Joshua Yumibe,Giovanna Fossati,Jonathon Rosen,2015 Presents and discusses a treasure trove of early color film images from the archives of EYE Film Institute Netherlands, bringing to life their rich hues and forgotten splendor.

**Abdullah's Feet** Hafid Bouazza,2000 Based on the author's memories of a 'happy village with its own idiot and mosque' in Morocco, these surreal, interlinked stories depict a dreamlike world of spiritual and sexual awakening. The heady imagination of a young boy - peopled by veiled women, suggestive vegetables, malevolent djinns and dismembered war heroes - is set against his cosmopolitan adulthood in Amsterdam, where the prodigal son discovers he can never entirely leave his past behind him.

*Filming for the Future* Patricia Pisters, 2016 The first monograph of the work of one of the Netherlands' most prolific filmmakers spanning sixty years of cultural history ranging from the second world war to the rebellious sixties and eighties, from Dutch water management to modern architecture, and from Europe to global consciousness. This book presents a journey in the rich audio-visual and artistic sources of the world of a filmmaker who over the last sixty years, and long before we all had a mobile camera in our pockets, always had his camera on standby. This book proposes the most salient features of a wide-ranging and vital oeuvre that becomes more amazing and important as time goes by. Van Gasteren's work is an invaluable source of historical documentation and visionary cultural analysis made by a venturesome participating observer of the twentieth century that is worthwhile (re)discovering in and for the twenty-first century.

**Jean Desmet's Dream Factory** Marente Bloemheuvel, Jaap Guldemon, Mark-Paul Meyer, 2014 > Exhibition in EYE, Amsterdam, 14 December 2014 - 15 March 15 2015 > With great deal of unique visual footage, such as posters, correspondence, photographs, and film stills. Jean Desmet's Dream Factory: The Adventurous Years of Film (1907-1916) offers an inspiring picture of the early years of film. This new medium developed rapidly into a popular form of entertainment thanks to new technology, artistic ingenuity and creative entrepreneurship. The film industry could grow in part because of passionate businessmen like Jean Desmet (1875-1956), who rose from fairground showman to become one of the most important cinema exhibitors and film distributors in the Netherlands. This publication pays tribute to Jean Desmet the entrepreneur and pioneer, and especially to the films he screened. Films from the second decade of the last century surprise today's audiences with their original imaginative power, uninhibited vision and inventive use of film

techniques. The visual refinement of many of these films makes them both artistic and modern. Jean Desmet's estate is preserved and accessible by the EYE Film museum. The Desmet Collection consists of more than 900 films, but also includes many posters, photographs and documents. Among the films are masterpieces considered lost for decades. The Desmet Collection is inscribed on UNESCO's Memory of the World Register.--Publisher's description.
