More Than Bollywood Gregory D. Booth,Bradley Shope,2014 This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

Power of Bonding and Non-Western Soft Power Strategy in Iran Md. Nazmul Islam,2022-12-09 This book comparatively assesses the China and India's soft power strategy in Iran. By employing Joseph S. Nye's "Soft Power" theory and forming the new concept of "Power of Bonding", this book formulated China and India's soft power narratives and applied it through the empirical analysis in Iran. Based on this theory, this book seeks explanations for the question of "How China and India respectively, strategically and comparatively use the soft power strategy in Iran?". To reach the find-out, this book compares the understanding, resources, strategies, influences and uses of China and India's soft power in Iran under three thematic areas, including "power of bonding through cultural attractions, and attributions"; "political and diplomatic engagement" and "economic partnerships". By analysing China and India's soft power strategy in Iran, this book seeks to contribute to the soft power literature through a theoretical replication based on non-Western soft power strategy, the concept and its empirical application in China and India.

Authorship in Film Adaptation Jack Boozer,2009-06-03 Authoring a film adaptation of a literary source not only requires a media conversion but also a transformation as a result of the differing dramatic demands of cinema. The most critical central step in this transformation of a literary source to the screen is the writing of the screenplay. The screenplay usually serves to recruit producers, director, and actors; to attract capital investment; and to give focus to the conception and production of the film project. Often undergoing multiple revisions prior to production, the screenplay represents the crucial decisions of writer and director that will determine how and to what end the film will imitate or depart from its original source. Authorship in Film Adaptation is an accessible, provocative text that opens up new areas of discussion on the central process of adaptation surrounding the screenplay and screenwriter-director collaboration. In contrast to narrow binary comparisons of literary source text and film, the twelve essays in this collection also give attention to the underappreciated role of the screenplay and film pre-production that can signal the primary intention for a film. Divided into four parts, this collection looks first at the role of Hollywood's activist producers and major auteurs such as Hitchcock and Kubrick as they worked with screenwriters to formulate their audio-visual goals. The second part offers case studies of *Devil in a Blue Dress* and *The Sweet Hereafter*, for which the directors wrote their own adapted screenplays. Considering the variety of writer-director working relationships that are possible, Part III focuses on adaptations that alter genre, time, and place, and Part IV investigates adaptations that alter stories of romance, sexuality, and ethnicity.

Metacinema in Contemporary Chinese Film G. Andrew Stuckey,2018-08-17 Depictions within a movie of either filmmaking or film watching are hardly novel, but the dramatic expansion of the reach of the metacinematic into contemporary Chinese cinemas is nothing short of remarkable. To G. Andrew Stuckey, the prevalence of metacinematic features forms the basis of a discourse on film arising from the films themselves. Such a discourse, in turn, outlines the boundaries of the possible for film in China as aesthetic or sociopolitical practice. Metacinema also draws our attention to the presence of the audience, people actively responding to a film. In elucidating the affective responses elicited by the metacinematic

mode in the viewers, Stuckey argues that metacinema reflects ways of being in the world that audiences may take up for themselves. The films studied in this book are drawn across the full spectrum of Chinese films made in mainland China, Hong Kong, and Taiwan during the 1990s and 2000s, from award-winning conceptual art films to popular crowd pleasers, blockbusters to low-budget productions, and documentary-style social realist exposé projects to studio assembly-line investments. The recurrence of the metacinematic across this broad range of works is indicative of its relevance to Chinese films today, and the analysis of these diverse examples allows us to gauge the cultural, social, and aesthetic implications of Chinese cinemas as a whole. “Stuckey surveys a broad swath of contemporary Chinese cinema, from popular blockbusters to elite art films, around the theme of metacinema, yielding new insights into both previously neglected films and those already acknowledged as contemporary classics. The result is a fascinating dive into the growing and diversifying cinema culture of China today.” —Jason McGrath, University of Minnesota “Stuckey’s brilliant work, *Metacinema in Contemporary Chinese Film*, offers insightful close analyses of films by key directors from the PRC (Jiang Wen, Lou Ye, Jia Zhangke, and Li Yu), Hong Kong (Peter Chan), and Taiwan (Tsai Ming-liang). This clearly written book is essential reading for scholars and students of Chinese cinemas. Stuckey’s study of genre and metacinema makes it a must-read for anyone interested in cinema.” —Michelle Bloom, University of California, Riverside

This book examines the variety of meanings which it carries as a symbol of Indian femininity and tradition as well as a means of creative fashion expression for modern India. It discusses the semiotic interpretations of the sari today by understanding its significance for traditional weavers, designers and people who wear saris at home, work or for religious or cultural occasions. Film's Musical Moments Ian Conrich, 2006-07-14 The scope of this collection is indicative of the breadth and diversity of music's role in cinema, as is its emphasis on musical contributions to 'non-musical' films. By bringing together chapters that are concerned both with the relationship between performance, music and film and the specificity of national, historical, social, and cultural contexts, *Film's Musical Moments* will be of equal importance to students of film studies, cultural studies and music. The book is organised into four sections: Music, Film, Culture focuses on cinema representations of music forms; Stars, Performance and Reception explores stars, fan cultures and intertextuality; The Post-Classical Hollywood Musical considers the importance of popular music to contemporary cinema; and Beyond Hollywood looks to specific national contexts.

Hindi Film Songs and the Cinema Anna Morcom, 2017-07-05 Since their beginnings in the 1930s, Hindi films and film songs have dominated Indian public culture in India, and have also made their presence felt strongly in many global contexts. Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic. Anna Morcom addresses many of the paradoxes eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context. While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process, musical style, and commercial life, it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round. While they constitute India’s still foremost genre of popular music, film songs are also situational, dramatic sequences, inherently multi-media in style and conception. This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs, song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries. Its findings lead to highly novel ways of viewing Hindi film songs, their key role in Hindi cinema, and how this affects their wider life in India and across the globe. It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema. It also forms a major contribution to popular music, popular culture, film music studies and ethnomusicology, tackling pertinent issues of cultural production, (multi-)media, and the cross-cultural use of music in Hindi cinema. The book caters for both music specialists as well as a wider audience.

Twenty-First Century Bollywood Ajay Gehlawat, 2015-05-08 Key changes have emerged in Bollywood in the new millennium. *Twenty-First Century Bollywood* traces the emerging shifts in both the content and form of Bollywood cinema and examines these new tendencies in relation to the changing dynamics of Indian culture. The book historically situates these emerging trends in relation to previous norms, and develops new, innovative paradigms for conceptualizing Bollywood in the twenty-first century. The particular shifts in contemporary Bollywood cinema that the book examines include the changing nature of the song and dance sequence, the evolving representations of male and female sexuality, and the increasing presence of whiteness as a dominant trope in Bollywood cinema. It also focuses on the increasing presence of Bollywood in higher education courses in the West, as well as how Bollywood’s growing presence in such academic contexts illuminates the changing ways in which this cinema is consumed by Western audiences. Shifting the focus back on the cinematic elements of contemporary films themselves, the book analyses Bollywood films by considering the film dynamics on their own terms, and related to their narrative and aesthetic usage, rather than through an analysis of large-scale industrial practices. It will be of interest to students and scholars of South Asian Studies, Film Studies, and Cultural Studies.

Bollywood Kush Varia,2013-01-31 While we have become familiar with the idea of Bollywood here in the West, we know little about the industry's films beyond a certain celebration of kitsch. Bollywood, the latest in Wallflower Press's Short Cuts introductory series, surveys this style of filmmaking from its origins in colonial times to the present, tracing its impact on both the Indian and global imagination. Chapters explore the history and workings of the industry, the narratives and aesthetics of its films, varieties within the genre, the cultural connotations of specific characters, its larger-than-life stars, and its hybrid and surprising fan cultures. Readings of popular and widely available films illustrate the importance of the cinema's conventions, which range from romantic clichés to a constant negotiation between tradition and modernity.

Bollywood Travels Rajinder Dudrah,2012-05-23 Using an interdisciplinary framework, this book offers a fresh perspective on the issues of diaspora culture and border crossings in the films, popular cultures, and media and entertainment industries from the popular Hindi cinema of India. It analyses and discusses a range of key contemporary films in detail, such as Veer Zaara, Jhoom Barabar Jhoom, and Dostana. The book uses the notion of travel analytically in and through the cinema to comment on films that have dealt with Indo-Pak border crossings, representations of diaspora, and gender and sexuality in new ways. It engages with common sense assumptions about everyday South Asian and diasporic South Asian cultures and representations as expressed in Bollywood cinema in order to look at these issues further. Moving towards an innovative exploration beyond the films, this book charts the circuits and routes of Bollywood as South Asian club cultures in the diaspora, and Hindi cinema entertainment shows around the world, as well as its impact on social media websites. Bollywood Travels is an original and thought provoking contribution to studies on Asian Culture and Society, Sociology, World Cinema, and Film, Media and Cultural Studies.
