Business Plans for Filmmakers John W. Cones,2010-10-28 The practical and legal aspects of writing a business plan for a film venture can be daunting to navigate without a firm grasp of know-how. With this in mind, John W. Cones's *Business Plans for Filmmakers* arms independent movie-makers and students with everything they need to successfully tackle the confusing intersection of law, business, and art when creating a business plan for a movie. This pragmatic volume offers plenty of examples and strategies for success, sharing straightforward insight into some of the toughest challenges independent filmmakers face when encountering these documents. With simple yet thorough detail and clarity, Cones outlines the legal requirements affecting movie proposals, including ways to evaluate the necessity for a business plan or a securities disclosure document, as well as the legal definition of an active investor. Also addressed are the numerous subjects filmmakers and students must consider before a film offering, including the efficacy of a business plan to fund the development, production, and distribution phases of a film; common elements of fraud of which fledgling filmmakers should beware; the intricacies of revenue sharing; and how to render financial projections. Cones also imparts useful distinctions between such industry terms as company financing versus project financing, along with many others. This bookalso includes in-depth guidance through the murky paths of investor analysis and key strategies to find and attract parties interested in financing film. Drawing upon his many years as a securities and entertainment attorney, and his experiences advising independent film producers, Cones offers the tools necessary not only to understand investors' motivations but also to use that knowledge to the filmmaker's advantage. Also provided are perceptive studies of the investment vehicles commonly used in business plans seeking investors, with analysis of each method's pros and cons. Throughout the volume, Cones uses sample plans to offer a real-world grasp of the intricacies of the business. In the business of this art, knowledge is power. *Business Plans for Filmmakers* dispels the myths and misinformation circulating among filmmakers to provide accurate and useful advice.

The New Woman's Film Hilary Radner,2017-01-20 With the chick flick arguably in decline, film scholars may well ask: what has become of the woman's film? Little attention has been paid to the proliferation of films, often from the independent sector, that do not sit comfortably in either the category of popular culture or that of high art--films that are perhaps the corollary of the middle-brow novel, or smart-chick flicks. This book seeks to fill this void by focusing on the steady stream of films about and for women that emerge out of independent American and European cinema, and that are designed to address an international female audience. The new woman's film as a genre includes narratives with strong ties to the woman's film of classical Hollywood while constituting a new distinctive cycle of female-centered films that in many ways continue the project of second-wave feminism, albeit in a modified form. Topics addressed include: *The Bridges of Madison County* (Clint Eastwood, 1995); the feature-length films of Nicole Holofcener, 1996-2013; the film roles of Tilda Swinton; *Rachel Getting Married* (Jonathan Demme, 2008); *Blue Jasmine* (Woody Allen, 2013); *Frances Ha* (Noah Baumbach, 2012), *Belle* (Amma Asante, 2013), *Fifty Shades of Grey* (Sam Taylor-Johnson, 2015) and Jane Campion's *Top of the Lake* (Sundance Channel, 2013-).

Anti/Vax Bernice L. Hausman,2019-04-15 Antivaxxers are crazy. That is the perception we all gain from the media, the internet, celebrities, and beyond, writes Bernice Hausman in *Anti/Vax*, but we need to open our eyes and ears so that we can all have a better conversation about vaccine skepticism and its implications. Hausman argues that the heated debate about vaccinations and whether to get them or not is most often fueled by accusations and vilifications rather than careful attention to the real concerns of many Americans. She wants to set the record straight about vaccine skepticism and show how the issues and ideas that motivate it—like suspicion of pharmaceutical companies or the belief that some illness is necessary to good health—are commonplace in our society. Through *Anti/Vax*, Hausman wants to engage public health officials, the media, and each of us in a public dialogue about the relation of individual bodily autonomy to the state's responsibility to safeguard citizens' health. We need to know more about the position of each side in this important stand-off so that public decisions are made through understanding rather than stereotyped perceptions of scientifically illiterate antivaxxers or faceless bureaucrats. Hausman reveals that vaccine skepticism is, in part, a critique of medicalization and a warning about the dangers of modern medicine rather than a glib and gullible reaction to scaremongering and misunderstanding.

Mexico on Main Street Colin Gunckel,2015-04-01 In the early decades of the twentieth-century, Main Street was the heart of Los Angeles's Mexican immigrant community. It was also the hub for an extensive, largely forgotten film culture that thrived in L.A. during the early days of Hollywood. Drawing from rare archives, including the city's Spanish-language newspapers, Colin Gunckel vividly demonstrates how this immigrant community pioneered a practice of transnational media convergence, consuming films from Hollywood and Mexico, while also producing fan publications, fiction, criticism, music, and live theatrical events. *Mexico on Main Street* locates this film culture at the center of a series of key debates concerning national identity, ethnicity, class, and the role of Mexicans within Hollywood before World War II. As Gunckel shows, the immigrant community's cultural elite tried to rally the working-class population toward the cause of Mexican nationalism, while Hollywood sought to position them as part of a lucrative transnational Latin American market. Yet ironically, both Hollywood studios and Mexican American cultural elites used the media to present negative depictions of working-class Mexicans, portraying their behaviors as a threat to middle-class respectability. Rather than simply depicting working-class immigrants as pawns of these power players, however, Gunckel reveals their active participation in the era's film culture. Gunckel's innovative approach combines media studies, urban history, and ethnic studies to reconstruct a distinctive, richly layered immigrant film culture. *Mexico on Main Street* demonstrates how a site-specific study of cultural and ethnic issues challenges our existing conceptions of U.S. film history, Mexican cinema, and the history of Los Angeles.

Coming Back to a Theater Near You Brian Hannan,2016-06-05 In the Silent Era, film reissues were a battle between rival studios—every Mary Pickford new release in 1914 was met with a Pickford re-release. For 50 years after the Silent Era, reissues were a battle between the studios, who considered old movies “found money,” and cinema owners, who often saw audiences reject former box office hits. In the mid-1960s, the return of *The Bridge on the River Kwai* (1957)—the second biggest reissue of all time—altered industry perceptions, and James Bond double features pushed the revival market to new heights. In the digital age, reissues have continued to confound the critics. This is the untold hundred-year story of how old movies saved new Hollywood. Covering the booms and busts of a recycling business that became its own industry, the author

describes how the likes of Charlie Chaplin, Humphrey Bogart and Alfred Hitchcock won over new generations of audiences, and explores the lasting appeal of films like Napoléon (1927), Gone with the Wind (1939), The Rocky Horror Show (1975) and Blade Runner (1982).

Film Remakes NA NA,2016-10-03 This is the first book to provide a comprehensive and systematic account of the phenomenon of cinematic remaking. Drawing upon recent theories of genre and intertextuality, Film Remakes describes remaking as both an elastic concept and a complex situation, one enabled and limited by the interrelated roles and practices of industry, critics, and audiences. This approach to remaking is developed across three broad sections: the first deals with issues of production, including commerce and authors; the second considers genre, plots, and structures; and the third investigates issues of reception, including audiences and institutions.
