**Intellectual Property Law and Policy Volume 11** Hugh Hansen,2010-11-19 This is the 16th Annual volume in the series collecting the presentations and discussion from the Annual Fordham IP Conference. The contributions, by leading world experts, analyse the most pressing issues in copyright, trademark and patent law as seen from the perspectives of the USA, the EU, Asia and WIPO. This volume, in common with its predecessors makes a valuable and lasting contribution to the discourse in IP law. The contents, while always informative, are also critical and questioning of new developments and policy concerns. Praise for the series: This must be one of the most enjoyable and thought-provoking conferences in the IP field. The high quality of the speakers is matched by the intense, audience-led debates and challenges which follow. The Honourable Mr Justice Laddie, Royal Courts of Justice, London Faculty for this conference are always well-known 'names' \_ well respected leaders in their fields, speaking with a combination of candor and timeliness that is unrivaled by any other forum of its kind. Honorable Marybeth Peters, Register of Copyrights, United States Copyright Office.

*Human Resource Perspectives on Workplace Bullying in Higher Education* Leah P. Hollis,2021-05-12 This analytical volume uses qualitative data, quantitative data, and direct employee experiences to aid understanding of why workplace bullying occurs in universities throughout the US. To address higher education workplace bullying, this text offers data-driven interventions for human resource staff and departments to effectively tackle this destructive phenomenon. Drawing on Hollis' first-hand research which is supported by findings from a 2019 Human Resources data collection, this text identifies populations which are most vulnerable to discrimination within academia. The data shows how human resource departments, executive leadership, and faculty might proactively intervene to prevent workplace bullying. Divided into two parts, the book offers empirical analysis of structural interventions for human resource efforts to combat workplace bullying in higher education. Second, the book puts forth solutions based on empirical findings for organizations and human resources to combat workplace aggression and civility which hurts higher education. Further, the author examines the specific effect of workplace harassment and cyberbullying on women of color, junior faculty, women, and the LGBTQ community.

This text will benefit researchers, doctoral students, and conducting higher education research. Additionally, the book focusses on structural issues which interfere with multicultural education more broadly. Those interested in Human Resource Management, the sociology of education, and gender and sexuality studies and will also enjoy this volume.

The Lawyer Bubble Steven Harper,J Harper,2016-03-08 A noble profession is facing its defining moment. From law schools to the prestigious firms that represent the pinnacle of a legal career, a crisis is unfolding. News headlines tell part of the story—the growing oversupply of new lawyers, widespread career dissatisfaction, and spectacular implosions of pre-eminent law firms. Yet eager hordes of bright young people continue to step over each other as they seek jobs with high rates of depression, life-consuming hours, and little assurance of financial stability. The Great Recession has only worsened these trends, but correction is possible and, now, imperative. In *The Lawyer Bubble*, Steven J. Harper reveals how a culture of short-term thinking has blinded some of the nation's finest minds to the long-run implications of their actions. Law school deans have ceded independent judgment to flawed U.S. News & World Report rankings criteria in the quest to maximize immediate results. Senior partners in the nation's large law firms have focused on current profits to enhance American Lawyer rankings and individual wealth at great cost to their institutions. Yet, wiser decisions—being honest about the legal job market, revisiting the financial incentives currently driving bad behavior, eliminating the billable hour model, and more—can take the profession to a better place. A devastating indictment of the greed, shortsightedness, and dishonesty that now permeate the legal profession, this insider account is essential reading for anyone who wants to know how things went so wrong and how the profession can right itself once again.
