Thomas Spencer Baynes

World Maps for Finding the Direction and Distance of Mecca David A. King, 1999-01-01 The author describes how Muslims over the centuries have determined the sacred direction (qibla) towards Mecca and presents two highly sophisticated Mecca-centred world-maps for finding the qibla. These recently-discovered world-maps have forced a reevaluation of Muslim achievements in mathematics and cartography.

Finding Mecca in America Mucahit Bilici, 2012-12-18 By describing how Islam in America began as a strange cultural object and is gradually sinking into familiarity, this book illuminates the growing relationship between Islam and American culture as Muslims find a homeland in America.

Love from Mecca to Medina S. K. Ali, 2022-10-18 On the trip of a lifetime, Adam and Zayneb must find their way back to each other in this surprising and romantic sequel to the "bighearted, wildly charming" (Becky Albertalli, New York Times bestselling author) *Love from A to Z*. Adam and Zayneb. Perfectly matched. Painfully apart. Adam is in Doha, Qatar, making a map of the Hijra, a historic migration from Mecca to Medina, and worried about where his next paycheck will come from. Zayneb is in Chicago, where school and extracurricular stresses are piling on top of a terrible frenemy situation, making her miserable. Then a marvel occurs: Adam and Zayneb get the chance to spend Thanksgiving week on the Umrah, a pilgrimage to Mecca and Medina, in Saudi Arabia. Adam is thrilled; it's the reboot he needs and an opportunity to pray for a hijra in real life: to migrate to Zayneb in Chicago. Zayneb balks at the trip at first, having envisioned another kind of vacation, but then decides a spiritual reset is calling her name too. And they can't wait to see each other—surely, this is just what they both need. But the trip is nothing like what they expect, from the appearance of Adam's former love interest in their traveling group to the anxiety gripping Zayneb when she's supposed to be "spiritual." As one wedge after another drives them apart while they make their way through rites in the holy city, Adam and Zayneb start to wonder: was their meeting just an oddity after all? Or can their love transcend everything else like the greatest marvels of the world?

Mecca and Medina Charles River Charles River Editors, Jesse Harasta, 2018-01-11 *Includes pictures *Includes a history of the region and religion before Islam *Includes footnotes and a bibliography for further reading *Includes a table of contents There is no doubt in the sanctity of Mecca, but a donkey won't become a Hajj pilgrim by just going through the motions. - Rahman Baba Whenever the Prophet...returned from a journey and observed the walls of Madinah, he would make his Mount go fast, and if he was on an animal (i.e. a horse), he would make it gallop because of his love for Madinah. - Sahih Bukhari - Book 30: Hadith 110 The reason for the existence of most of the world's cities is obvious to the student of geography. New York and Shanghai control deep ports and straddle great rivers bringing trade from the interior; Paris and London are at the crossing points of major cross-country rivers; Johannesburg sits atop a great mountain of gold ore; and Moscow and Madrid are at the heart of their great nations, easily able to control even the more distant corners of the land. Mecca is quite different, as the city exists solely because it is holy. Even centuries before the birth of the Prophet Muhammad, the leaders of Mecca established that their city was the pre-eminent holy site in western Arabia and established a truce for pilgrims to the city. In the process, one effect of this was that Mecca

became a center for might today be described as tourism, as even ancient visitors needed places for food, water, and sleep. At the same time, they could make offerings in the temples and leave with mementos of their time in Mecca. Many also found it convenient to bring their trade goods to the markets of Mecca, where they could find visitors bringing interesting wares from across the region, and the city also enjoyed the status of a trade center. Of course, Mecca is now best known for being Islam's holiest city, revered as the birthplace of Muhammad and the site where Allah first revealed the Qu'ran to him. Within Mecca is the Ka'aba, a building housed within the Al-Masjid al-Haram (Great Mosque) that is considered the holiest site, and wherever they are in the world, Muslims face in the direction of the Ka'aba while praying. A pilgrimage to Mecca is considered a necessity for devout Muslims at some point in their lives, and the city itself is off limits to non-Muslims. Indeed, Mecca is so integral to Islam that the name of the city has entered the English lexicon and is a commonplace reference to any area closely associated with something (such as Paris often being called the mecca of fashion). Mecca has always been central to the faith, but it has had a somewhat turbulent geopolitical history, both because of conflicts within Islam and among neighboring nations in the Middle East. As a result, its history is often overlooked, even as most people are quite familiar with the city. Even centuries before the birth of the Prophet Muhammad, Jews settled in the area that became Medina to escape persecution at the hands of the Babylonians and Romans, meaning the area and its arid environment brought inhabitants precisely because it wasn't an attractive or resource rich area. In fact, the city fated to become the second holiest city in Islam earned that spot simply by straddling trade routes to the religious city of Mecca, which brought traders and pilgrims in large enough numbers to make it a trade center. While Mecca was Muhammad's birthplace, the Prophet spent a great deal of time in Medina, especially when he and his supporters found themselves in conflict with the Meccans. Using Medina as a base, Muhammad eventually took Mecca, and both cities became integral parts of the Caliphate that followed. This meant that even as history brought geopolitical changes, Medina remained a city of religious significance for all Muslims. Mecca and Medina: The History of Islam's Holiest Cities traces the history of the second most important cities in Islam.

World-maps for Finding the Direction and Distance to Mecca David King, 2021-09-06 Two remarkable Iranian world-maps were discovered in 1989 and 1995. Both are made of brass and date from 17th-century Iran. Mecca is at the centre and a highly sophisticated longitude and latitude grid enables the user to determine the direction and distance to Mecca for anywhere in the world between Andalusia and China. Prior to the discovery of these maps it was thought that such cartographic grids were conceived in Europe ca. 1910. This richly-illustrated book presents an overview of the ways in which Muslims over the centuries have determined the sacred direction towards Mecca (qibla) and then describes the two world-maps in detail. The author shows that the geographical data derives from a 15th-century Central Asian source and that the mathematics underlying the grid was developed in 9th-century Baghdad.

Muhammad, Mecca and the Qur'an H. Thomas Becket,2017-03-24 The traditional understanding of the origins of Islam teach that about 1400 years ago a poor caravan trader began receiving revelations that ultimately led to the creation of the Qur'an and the religion of Islam in the full light of history as famously asserted by 19th century philologist Ernest Renan. Thomas Becket explores the historical record in search of the original Qur'anic community that first heard Muhammad's recitations and carefully preserved his words in memory to be lovingly memorialized in writing shortly after their prophet's death in 632. In doing so, he asks some fundamental questions about the origin of Islam that seem ignored by the scholars: Why would anyone write the scriptures for a new religion in the Arabic of the 7th century? Why would a believing community create no exegetical literature for 200 years following the delivery of the literal word of Allah to that community? Why would that community fail to develop an adequate alphabet capable of rendering a stable Qur'anic text for 200 years after its revelation? Why would the Islamic conquerors create no written record of their conquests until the 9th century? Why would Christian sources throughout the conquered territories uniformly fail to mention Muslim conquerors, Muhammad, the Qur'an or Islam during the 200-year period? Why would the original founder of Mecca have created a city that required the importation of all food, water and forage over long distances from the very first day? Why did a city of Mecca's importance not leave historical tracks outside of the partisan Muslim literary material? In pursuing answers to these and other basic questions, Becket delves deeply into the scholarly literature in search of historical or archaeological evidence to support the traditional understanding of Muhammad, the original Qur'anic community and the origins of the Qur'an. Instead, he finds that Western scholars admit that no such evidence exists and that they must rely on the Islamic traditions written almost 200 years after the purported events they claim to describe. While the readily available Islamic traditions present extremely detailed transcripts of conversations and descriptions of the actions of Muhammed and his early followers, their historicity seems greatly in doubt. The author also finds that the available historical and archaeological evidence generally contradicts the traditional understanding of the Islamic traditions. For example, surviving evidence clearly supports the presence of Christianity throughout the Arabian Peninsula from the 4th century while the Islamic traditions describe this as being a time of ignorance and polytheism until the coming of Muhammad in the 7th century. Despite these recognized shortcomings of the Islamic traditions, most Western historians accept their historicity on a limited basis and assume that they preserve the memories of the original Qur'anic community of Muhammad and his followers in Mecca and Medina. The Qur'an itself also provides important insights into the nature of the audience needed to understand and accept it and the historical circumstances of its writing. Thus, in his search for the original Qur'anic community, Becket compares the characteristics of an audience needed to understand the Qur'an as described by Western scholars to that of Muhammad and his early followers as described in the Islamic traditions. To the extent that the Islamic traditions reflect historical

events of the origin of the Qur'an, the two Qur'anic communities should share the same characteristics. Becket's search for the original Qur'anic community provides important insights into the historicity of the Islamic traditions that provide the foundation for Western scholars' history of the origin of Islam and a fresh perspective on the historical events of the period of the origin of the Qur'an and Islam.
