You'lll Never Find My Body Don Lasserter,Ronald E. Bowers,2010-04-19 The author of Meet Me for Murder shares the true crime story of a LA prosecutor working to prove a man guilty of murder—without a body. No evidence . . . On April 22, 1991, three young children waited for their mother, Ann Racz, to return with a takeout dinner. Instead, their father showed up with a small bag of cold French fries and said their mother had gone away. Ann’s children didn't believe it. Neither did her friends. And neither did the police. But there was zero evidence that anything had happened to Ann. No body . . . Los Angeles detectives dug furiously into the case, grilling John Racz and searching for clues. But without a body, the investigation stalled, and three children grew up wondering what had happened to their loving mother—and if their father had killed her. And a killer in plain sight . . . Fourteen years later, a brilliant female prosecutor defied the legal establishment and delved into the cold case, uncovering shocking information about Ann and her relationship with John. Suddenly, a crusading prosecutor was up against the most difficult kind of murder case of all: to prove beyond a reasonable doubt that John Racz had murdered his wife—even though her body was never found . . . With sixteen pages of photos

**Love Will Find A Way** Juanita Tischendorf,2018-09-04 Is it ever too late to have a last chance at love? Who knows but the heartwarming book Love Will Find A Way may have the answer. This book carries itself with grace and class, despite its tough subject matter. And that's due largely to the persons of Parker and Trinity. Parker learns that he has inoperable cancer and not long to live. A stock broker by trade and use to overcoming obstacles and predicting outcomes, he finds himself at a loss on how to close the deal. It is by chance he runs into Trinity, a will o' the wisp free spirit who has hidden issues of her own, one of which is learning she has terminal cancer. But sometimes chemistry overshadows practicality, and the two are drawn together in ways both heartwarming and sad. Despite the subject matter, the book provides humor to soften the absurdities of life. Humor is splatter through the pages giving definition to the characters demonstrating what is important. Love Will Find A Way is entertaining with twists and a surprise conclusion.

*Find Your Path* Daniel Goodman,2019-12-03 Scientists offer personal accounts of the challenges, struggles, successes, U-turns, and satisfactions encountered in their careers in industry, academia, and government. This insightful book offers essential life and career lessons for newly minted STEM graduates and those seeking a career change. Thirty-six leading scientists and engineers (including two Nobel Prize winners) describe the challenges, struggles, successes, satisfactions, and U-turns encountered as they established their careers. Readers learn that there are professional possibilities beyond academia, as contributors describe the paths that took them into private industry and government as well as to college and university campuses. They discuss their varying preferences for solitary research or collaborative teamwork; their attempts to achieve work-life balance; and unplanned changes in direction that resulted in a more satisfying career. Women describe confronting overt sexism and institutional gender bias; scientists of color describe the experience of being outsiders in their field. One scientist moves from startup to startup, enjoying a career of serial challenges; another spends decades at one university; another has worked in academia, industry, and government. Some followed in the footsteps of parents; others were the first in their family to go to college. Many have changed fields, switched subjects, or left established organizations for something new. Taken together, these essays make it clear that there is not one path to a profession in science, but many. It details the journey she and her parents endured as they discovered the person he had become and uncovered his years of self-destructive, addictive behavior and the resulting tragic accidents. Growing up in an Italian American house, Maria and Angelo’s loving parents worked hard to provide many good opportunities for their children. Maria enjoyed the brighter opportunities that came her way; but struggled to understand why Angelo chose the darker path of life. Her fun loving, intelligent brother was lost to the world of drug addiction. Maria has worked for the past 40 years to help Angelo; trying to steer him toward a life with a brighter future.
