Fired Up about Capitalism Tom Malleson,2018-02-06

Biometric Security and Privacy Richard Jiang,Somaya Al-maadeed,Ahmed Bouridane,Prof. Danny Crookes,Azeddine Beghdadi,2016-12-21 This book highlights recent research advances on biometrics using new methods such as deep learning, nonlinear graph embedding, fuzzy approaches, and ensemble learning. Included are special biometric technologies related to privacy and security issues, such as cancellable biometrics and soft biometrics. The book also focuses on several emerging topics such as big data issues, internet of things, medical biometrics, healthcare, and robot-human interactions. The authors show how these new applications have triggered a number of new biometric approaches. They show, as an example, how fuzzy extractor has become a useful tool for key generation in biometric banking, and vein/heart rates from medical records can also be used to identify patients. The contributors cover the topics, their methods, and their applications in depth.

Little Shark: Finger Puppet Book Chronicle Books,ImageBooks,2013-02-19 A new title in the bestselling finger puppet series! Tiny tots can enjoy swimming among the fish with Little Shark in this simple, comforting story. The book features a permanently attached plush finger puppet and peek-a-boo holes in every page, giving parents and children a fun, interactive way to play and read together.

Baby Shark ,2020-10 Join Baby Shark as he sings with Mommy, Daddy, Grandma, and Grandpa Shark in this bright, ocean-themed finger puppet book. - back cover

Biometric Systems Loris Nanni,Sheryl Brahnam,2021-09-01 Because of the accelerating progress in biometrics research and the latest nation-state threats to security, this book's publication is not only timely but also much needed. This volume contains seventeen peer-reviewed chapters reporting the state of the art in biometrics research: security issues, signature verification, fingerprint

identification, wrist vascular biometrics, ear detection, face detection and identification (including a new survey of face recognition), person re-identification, electrocardiogram (ECT) recognition, and several multi-modal systems. This book will be a valuable resource for graduate students, engineers, and researchers interested in understanding and investigating this important field of study.

By the end of the story, little ones will be laughing, singing and dancing their way off to sleep with this charming and catchy read-aloud! Are you ready to help Baby Shark get ready for bedtime?

A Land Like None You Know Patrick Forsyth,2017-03-09 Burma (or Myanmar as it is now called) is in the news for all the wrong reasons. It has been ruled for many years by a ruthless, repressive junta, it suffers regular earthquakes and the cyclone of May 2008 left more than a hundred thousand people injured, homeless or dead. Yet this is a magical place: a country of contrasts with a rambunctious

history and a culture that is both awesome and fascinating. Largely on a whim, prompted by sitting next to the neighbour from hell on a long-haul flight, the author decides to visit Mandalay, the Golden City foreseen by ancient Buddhist prophecies. Despite controversy there are campaigns suggesting you do not travel to Burma on the grounds that doing so supports the government - he makes a trip, flying to Bangkok and on to Yangon (previously Rangoon) and makes much of the journey on the river cruiser Road to Mandalay sailing along the famous Ayeyarwady. Along the way he encounters taxis pulled by oxen; rings the largest bell in the world; learns how to wear a skirt, the difference between a stupa and a pagoda and why florescent pink tiles are used in temples. In this lively and light-hearted account of his journey he watches the best sunset in the world on the plains of Bagan, and as the sun sinks behind the towers of pagodas stretching in countless numbers to the horizon, concludes that this wonderful country is worthy of everyone's attention, and perhaps help too.

The English Dialect Dictionary: D-G Joseph Wright, 1900

The English Dialect Dictionary, Being the Complete Vocabulary of All Dialect Words Still in Use, Or Known to Have Been in Use During the Last Two Hundred Years: F-M Joseph Wright, 1900

Encyclopedia of Islands Rosemary Gillespie, David Clague, 2009-08-19 Islands have captured the imagination of scientists and the public for centuries—unique and rare environments, their isolation makes them natural laboratories for ecology and evolution. This authoritative, alphabetically arranged reference, featuring more than 200 succinct articles by leading scientists from around the world, provides broad coverage of all the island sciences. But what exactly is an island? The volume editors define it here as any discrete habitat isolated from other habitats by inhospitable surroundings. The Encyclopedia of Islands examines many such insular settings—oceanic and

continental islands as well as places such as caves, mountaintops, and whale falls at the bottom of the ocean. This essential, one-stop resource, extensively illustrated with color photographs, clear maps, and graphics will introduce island science to a wide audience and spur further research on some of the planet's most fascinating habitats.

The English dialect dictionary, being the complete vocabulary of all dialect words still in use, or known to have been in use during the last two hundred years Joseph Wright,1905

The Balkan's Angels II P. Ter Tarj Nyi,Rita Dosek,Peter Tarjanyi,2012-03 It is mere months after Tom's capture of the Serbian ex-president. He and his unit built a strong bond over the course of their mission, but it is time for them to part ways since the job is done. The reward money helps, and Tom is prepared to nally retire in style. But the Serbian under-world that assisted in the president's capture now feels a need for revenge. They want payback for the violence Tom's unit brought to their country. Suddenly, Tom's unit is on the chopping block. An international manhunt is launched to nd Tom and the rest of his team. The ma a doesn't want them in a court of law, however; they want them dead. Tom's own country is of no help, as he is now considered a war criminal of a di erent kind-a guilty bounty hunter. Now, the team must get back together in order to save their lives and clear their names. Things are quite di erent now for the whole unit. For the rst time in his long, proud career, Tom now nds himself on the wrong side of the law-and it will take a lot more than friendly conversation to get out of Europe alive.
