Lessons in Language Hiram Hadley,1871

**Item Interpretation of the Luria-Nebraska Neuropsychological Battery** ,1982-01-01 The Luria-Nebraska Neuropsychological Battery is a relatively new neurodiagnostic test, and there is a growing demand for material on the more advanced aspects of its interpretation. This book, organized around the theoretical meaning of items, the empirical correlations between items, and the factor structure of the individual scales, is a first response to that demand. It will serve to give greater understanding of the psychological skills that underlie each item on the Luria-Nebraska battery—an understanding prerequisite to the techniques of “syndrome analysis” described in the writings of A. R. Luria—and it will be particularly useful to those who have limited experience with actual case material. The major part of the book is an analysis of each Luria-Nebraska scale, either item by item or as a unit. For each scale the authors examine the theoretical intent of the items and the underlying skills according to Luria’s theory. They then present the results of item interrelations analysis to determine whether the items tap common skills. Finally they describe the factor structure of the various scales, exploring the interrelations of items within each scale. In addition to analyzing the behavioral scales of the Luria-Nebraska battery, the book reviews a number of other empirical scales that further aid interpretation—particularly the experimental localization scales that tap focal deficits in specific areas of the brain. Also included are case histories that illustrate the process of diagnosis in patients who receive a series of Luria-Nebraska batteries over the course of their treatment. Finally, the authors briefly discuss subcortical disorders—an issue often ignored in clinical neuropsychological testing.

*Rehabilitation of the Hand and Upper Extremity, E-Book* Terri M. Skirven,A. Lee Osterman,Jane Fedorczyk,Peter C. Amadio,Sheri Felder,Eon K Shin,2020-01-14 Long recognized as an essential reference for therapists and surgeons treating the hand and the upper extremity, *Rehabilitation of the Hand and Upper Extremity* helps you return your patients to optimal function of the hand, wrist, elbow, arm, and shoulder. Leading hand surgeons and hand therapists detail the pathophysiology, diagnosis, and management of virtually any disorder you’re likely to see, with a focus on evidence-based and efficient patient care. Extensively referenced and abundantly illustrated, the 7th Edition of this reference is a must read for surgeons interested in the upper extremity, hand therapists from physical therapy or occupational therapy backgrounds, anyone preparing for the CHT examination, and all hand therapy clinics. Offers comprehensive coverage of all aspects of hand and upper extremity disorders, forming a complete picture for all members of the hand team—surgeons and therapists alike. Provides multidisciplinary, global guidance from a Who’s Who list of hand surgery and hand therapy editors and contributors. Includes many features new to this edition: considerations for pediatric therapy; a surgical management focus on the most commonly used techniques; new timing of therapeutic interventions relative to healing characteristics; and in-print references wherever possible. Features more than a dozen new chapters covering Platelet-Rich Protein Injections, Restoration of Function After Adult Brachial Plexus Injury, Acute Management of Upper Extremity Amputation, Medical Management for Pain, Proprioception in Hand Rehabilitation, Graded Motor Imagery, and more. Provides access to an extensive video library that covers common nerve injuries, hand and upper extremity transplantation, surgical and therapy management, and much more. Helps you keep up with the latest advances in arthroscopy, imaging, vascular disorders, tendon transfers, fingertip injuries, mobilization techniques, traumatic brachial plexus injuries, and pain management—all clearly depicted with full-color illustrations and photographs.

*15 Etudes, Op. 72* Moritz Moszkowski,Maurice Hinson,2005-05-03 Polish composer Moritz Moszkowski (1854–1925) wrote brilliant piano music similar to the early-Romantic style of Chopin, Mendelssohn and Schumann. Written for advancing pianists, each etude is a study in drama, mood and expression as well as finger technique. Hinson's edition contains a biographical sketch of the composer, a discussion of his style, and a helpful performance analysis of each etude.

**Shared Secrets** Elizabeth Findley Shores,2021-02-26 For nearly a century, British expatriate Charles Joseph Finger (1867–1941) was best known as a Newberry-award-winning author of children’s literature. In *Shared Secrets*, Elizabeth Findley Shores relates Finger’s untold story, exploring the secrets that connected the author to an international community of twentieth-century queer literati. As a young man, Finger reveled in the easy homosociality of his London polytechnical school, where he launched a student literary society in the mold of the city’s private men’s clubs. Throughout his life, as he wandered from England to Patagonia to the United States, he tried to recreate similarly open spaces—such as Gayeta, his would-be art colony in Arkansas. But it was through his idiosyncratic magazine *All’s Well* that he constructed his most successful social network, writing articles filled with coded signals and winking asides for an inner circle of understanding readers. *Shared Secrets* is both the story of Finger’s remarkable, adventurous life and a rare look at a community of gay writers and artists who helped shaped twentieth-century American culture, even as they artfully concealed their own identities.
