**Wrong Number Text** Brill Harper, 2019-03-13 So wrong it's right... When grumpy firefighter Leo finally answers the wrong number text he's been getting for several days, he has no idea pixels on a screen could be so hot—or make him want things he's never wanted before. Dixie has always been quiet, shy, and reserved. Until she meets Leo. He's got the once shy librarian shedding her inhibitions and growing her confidence in their texts and calls—and it even starts spilling out into her everyday life. Part of her revels in her secret life—but part of her secretly wishes for more. They never share more than first names, but each texting encounter gets hotter and hotter—and more intimate than either of them ever imagined. But you can't trust a stranger on the phone. Not really. You can't ache for something you've never had. And you certainly can't fall in love with someone you've never even met, can you? Author Confession: Welcome to Brazen Bay, a small town I crafted just to explore that feeling of so wrong it's right. Just because something is forbidden or taboo doesn't make it wrong, does it? (You'd have to see the pictures on their phones to answer that.) Gruff Leo and sweet Dixie are perfect strangers and perfectly naughty when they let their guards down with someone for the first time. What starts as an innocent wrong number turns into something much more daring. Bonus points if you read this wrong number romance on your phone.

**Kindred** Octavia E. Butler, 2022-09-20 The New York Times best-selling author's time-travel classic that makes us feel the horrors of American slavery and indicts our country's lack of progress on racial reconciliation The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (Watchmen), executive producers also include Joe Weisberg and Joel Fields (The Americans, The Patient), and Darren Aronofsky (The Whale). Janicza Bravo (Zola) is director and an executive producer of the pilot. Kindred stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin. "I lost an arm on my last trip home. My left arm."

Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's *The Underground Railroad* and Ta-Nehisi Coates's *The Water Dancer*, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise" (New York Times).

*Home Fire* Kamila Shamsie, 2018-09-04 "Ingenious... Builds to one of the most memorable final scenes I've read in a novel this century." —The New York Times WINNER OF THE 2018 WOMEN'S PRIZE FOR FICTION FINALIST FOR THE 2019 INTERNATIONAL DUBLIN LITERARY AWARD LONGLISTED FOR THE MAN BOOKER PRIZE The suspenseful and heartbreaking story of an immigrant family driven to pit love against loyalty, with devastating consequences, from the author of *Best of Friends* Isma is free. After years of watching out for her younger siblings in the wake of their mother's death, she's accepted an invitation from a mentor in America that allows her to resume a dream long deferred. But she can't stop worrying about Aneeka, her beautiful, headstrong sister back in London, or their brother, Parvaiz, who's disappeared in pursuit of his own dream, to prove himself to the dark legacy of the jihadist father he never knew. When he resurfaces half a globe away, Isma's worst fears are

confirmed. Then Eamonn enters the sisters' lives. Son of a powerful political figure, he has his own birthright to live up to—or defy. Is he to be a chance at love? The means of Parvaiz's salvation? Suddenly, two families' fates are inextricably, devastatingly entwined, in this searing novel that asks: What sacrifices will we make in the name of love?

Pale Fire Vladimir Nabokov, 2024-02-18 The American poet John Shade is dead. His last poem, 'Pale Fire', is put into a book, together with a preface, a lengthy commentary and notes by Shade's editor, Charles Kinbote. Known on campus as the 'Great Beaver', Kinbote is haughty, inquisitive, intolerant, but is he also mad, bad - and even dangerous? As his wildly eccentric annotations slide into the personal and the fantastical, Kinbote reveals perhaps more than he should be. Nabokov's darkly witty, richly inventive masterpiece is a suspenseful whodunit, a story of one-upmanship and dubious penmanship, and a glorious literary conundrum.

**The Craft of Scientific Presentations** Michael Alley, 2006-05-17 This timely and hugely practical work provides a score of examples from contemporary and historical scientific presentations to show clearly what makes an oral presentation effective. It considers presentations made to persuade an audience to adopt some course of action (such as funding a proposal) as well as presentations made to communicate information, and it considers these from four perspectives: speech, structure, visual aids, and delivery. It also discusses computer-based projections and slide shows as well as overhead projections. In particular, it looks at ways of organizing graphics and text in projected images and of using layout and design to present the information efficiently and effectively.

**Escape Fire** Donald M. Berwick, 2010-12-17 Spanning a decade (1992-2002), these speeches echo the theme that our health care system needs fundamental change and a revolutionary new design. Throughout the book, Berwick identifies innovations and ideas from a number of surprising

sources—a girls' soccer team, a sinking ship, and the safety standards at NASA. *Escape Fire* takes its title from the 1949 Mann Gulch tragedy in which thirteen young firefighters were trapped in a wildfire on a Montana hillside. The firefighter's leader, Wag Dodge, devised a creative solution for avoiding the encroaching fire. He burned a patch of grass and lay down in the middle of the scorched earth. His team refused to join him, and most perished in the fire. Dodge survived. Berwick applies the lessons learned from the catastrophe to our ailing health care system—we must not let ingrained processes obstruct life-saving innovation. Not content to simply define the problems with our flawed system, Berwick outlines new designs and suggests practical tools for change: name the problem, build on success, take leaps of faith, look outside of the medical field, set aims, understand systems, make action lists, and—the most fundamental of all—never lose sight of the patient as the central figure.

tempestuous marriage and his relentless sexual exploits in New York. The other books are Plexus and Nexus.
