**A Fisherman's Guide to Selected Lakes of Northwest Montana** John E. Moore,2010-03 This book is a second volume, containing information on 100 additional lakes in Flathead, Lake, Lincoln, Missoula and Sanders counties of northwest Montana. They range from lowland lakes to alpine lakes. Many can be driven to, while many others require a hike. Most fishing guides offer very limited information on a large number of lakes, most of which their authors have never even been near. This book provides detailed information on the lake and surrounding area, as well as directions and fishing tips. All lakes included in this book have been personally visited, photographed, and in most cases fished by the author. The emphasis is on the fisherman's perspective, but trail and camping information is equally applicable to those who only wish to hike and camp. This volume covers many lakes in the Yaak area, as well as the Jewel Basin and additional waters in the Ten Lakes area near Eureka. Many lakes are found in the Lolo, Flathead, Kootenai and Kaniksu National Forests. Hikes into lakes in the Cabinet Mountains Wilderness and Mission Mountains Wilderness are also included. Photographic opportunities, for both scenery and wildlife, in the areas covered by this book are limitless. While researching this volume, bear (black and grizzly), cougar, wolves, mountain goats, moose, elk, countless deer, and even porcupine were encountered. The book is separated into chapters for each lake. A photograph of the lake is included at the beginning of each chapter. The author is a ten-time Washington State record holder, with certified weight records for five different species of fish. Catch data for several hundred lakes, dating back to 1981, has been provided to Washington State fish biologists. Data dating back to 1994 has also been provided to the State of Montana. Born and raised in northwest Washington and part of a very outdoor oriented family, the author has spent his entire life exploring new places and looking for new waters to fish. So far the search for fishing opportunities has ranged across the states of Washington, Idaho and Montana.

Culled from tying demonstrations presented at the Chicago Fly Fishers, a Chicago-area club, this collection features favourite patterns and variations, as well as originals created by club members, including many by the author. Each fly is illustrated, its origin and uses given, and its tying steps explained in detail. Patterns include wets, dries, streamers, nymphs, crustaceans, leeches, terrestrials, and lure-streamer combinations.

**A Fisherman's Guide to Selected High Lakes of Northeast Washington and Northern Idaho** John Moore,2007-07 Most fishing guides offer very limited information on a large number of lakes, most of which their authors have never even been near. This book provides detailed information on the lake and surrounding area, as well as directions and fishing tips. All lakes included in this book have been personally visited, photographed, and in most cases fished by the author. While the emphasis is on the fisherman's perspective, the detailed trail and camping information is equally applicable to those who only wish to hike and camp. The lakes selected for inclusion in this book are from Stevens and Pend Oreille counties of northeast Washington, and from Boundary, Bonner, Kootenai and Shoshone counties of northern Idaho. They range from lowland warm water lakes to alpine lakes. Many can be driven to, while others require a hike. The author is a ten-time Washington State record holder, with certified weight records for five different species of fish. Catch data for several hundred lakes, dating back to 1981, has been provided to Washington State fish biologists. Born and raised in northwest Washington and part of a very outdoor oriented family, the author has spent his entire life exploring new places and looking for new waters to fish. So far the search for fishing opportunities has ranged across the states of Washington, Idaho and Montana. Titles published include High Lakes of Northwest Washington, and Lakes of Northeast Washington and Northern Idaho.

**The Fly-Fisher's Companion** Darrel Martin,2014-11-18 This book grew from the author's desire to consolidate the many teachings that he uses in his popular fly-fishing classes. It is a textbook that includes concise and selective commentary on tackle, casting, tactics, flies and fly tying, and other related topics. The word companion derives from "one with whom we share our bread." After more than fifty years of fly fishing, the author would like to sit at the streamside and share these observations with readers. Here is the knowledge and understanding that he wished he had when he began fly fishing. While the handmade steel hooks, horsehair lines, and carefully crafted wooden loop-rods have long given way to nylon and fluorocarbon leaders, multipiece graphite rods, and synthetic lines, the fundamentals of the craft have remained basically the same. In The Fly-Fisher's Companion, the author carefully goes through all the basics, all within the context of modern fly-fishing situations. This companion may serve as a foundation or a supplement for fly-fishing instruction. It may also be a reminder or reference for the more experienced angler. As a retired educator, the author recognizes that instructors present material in different ways. Instructors may wish to select only those topics that fit their syllabus while omitting others. Over the years, these instructions and commentary have produced a host of competent fly fishers. We all learn by image, word, and action. Since the sepia days of Walton and Cotton, fly fishing has been an enthralling sport. And, as this companion hopefully makes clear, there is more to fishing than fish. There is an infinite amount of pleasure in learning a skill and doing it well. Skyhorse Publishing is proud to publish a broad range of books for fishermen. Our books for anglers include titles that focus on fly fishing, bait fishing, fly-casting, spin casting, deep sea fishing, and surf fishing. Our books offer both practical advice on tackle, techniques, knots, and more, as well as lyrical prose on fishing for bass, trout, salmon, crappie, baitfish, catfish, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise

find a home.
