Helleson shares interviews with fly-tying greats of years past, along with the fascinating history and background of some of the popular individual flies, making this a great read. His colorful recollections of people and events will intrigue and delight even the most serious fly tier. He also shares years of wisdom and knowledge on fly-tying colors; fly patterns; fly-tying tools, hooks, and materials; and fly-fishing and fly-tying methods. Helleson’ depicts hundreds of intricate patterns for dry flies, wet flies, and nymphs. Mayfly, stonefly, and caddisfly species are widely represented with simulations of the phases of their respective life cycles. Detailed patterns for terrestrials, damselflies and dragonflies, leeches and worms, midges, crustaceans, streamers, shad flies, steelhead flies, Atlantic salmon flies, Spey flies, Pacific salmon flies, and salmon and steelhead dry flies round out the book. This encyclopedia is organized into two distinct parts: the first section describes the origins of fly-fishing; the concepts of vision and perception of color; and the tools and materials from which artificial flies are created. It addresses dry flies, wet flies, nymphs, stoneflies, mayflies, and caddisflies. The second section of the book thoroughly attends to the simulation of other insect orders, such as terrestrials and crustaceans, and then delves into the specifics of streamers, shad flies, steelhead flies, and more. Even a fly-fishing novice will be enthralled with illustrations that clarify the patterns in a reader-friendly style. Line illustrations throughout, plus more than 2,950 detailed fly patterns—including 695 flies shown in full color—make this a comprehensive fly-tying encyclopedia beyond compare. Terry Helleson was born into the world of fly-fishing and spent his early life in Happy Camp, California, where his father had a fly-fishing guide service on the Klamath and Trinity rivers during the 1940s and 1950s. Helleson not only fly-fished and tied flies as a youth, but he developed many new fly patterns and eventually became immersed in all phases of the fly-fishing and fly-tying businesses. He founded Fly Fishing Specialties, a wholesale and retail business. He continually exchanges information with leading experts in fly-fishing and fly tying. Helleson has traveled the world discovering sources for fly-tying materials and other products that he sold on the international market. He has also fished many of the Great Lakes and rivers of the world, traveling to such far off places as Kashmir to test the waters of the Himalayas. Helleson is one of the founders of the Northern Utah Fly Fishers and the Granite Bay Fly Casters in northern California. Through fly-tying classes and fly-fishing clinics, he has taught countless numbers of fly fishers the fine points of the sporting art. Besides the many articles he has written on fly-fishing and fly tying, he has authored two books, Popular Fly Patterns (1976) and Fish Flies (1995), with this revised edition the culmination of a lifetime of work. He has also made generous contributions to the works of other authors. He now lives and fishes with his wife, Patricia, in Montana, where they have the famous Kootenai River at their doorstep.

French Fishing Flies Jean-Paul Pequegot, 2012-05-01 Cul de Canard (Duck’s Rump), Farefelue (The Crazy One), Plantureuse (Buxom Gal), Peute (The Ugly One)—the names are deliciously French but one would make a terrible mistake to think that only French-born trout like these fishing flies. “Design,” said Datus Proper, “is why this book has as much to do with the Henry’s Fork as with the Risle.” At least one of the flies introduced by French Fishing Flies more than twenty-five years ago, the Cul de Canard, has long since become a true staple in fly boxes around the world. Others will surely follow. This fascinating book is bound to be of great interest to fly fishermen everywhere.
