Flame Flashback in Wall Boundary Layers of Premixed Combustion Systems Christian Thomas Eichler,2011

The Flame Within Wayne Mutza,2013-04-06 A former City of Milwaukee firefighter, the author writes his memoir with candor, depth, spice and emotional insight. He lays out the tumultuous events that led him as a youth into the profession, and the wealth of eye-opening experiences along the way. He plumbs the character of the firefighters and paramedics who answer the call for rescue—but also the character of those who make the call, the rescuer and the rescued. The author keeps the reader close with vivid details of fighting fire and dealing with the anguish of loss and destruction. He pulls no punches; he also describes the promotion process, the politics in stations and in the service as a whole, the struggle of teaching young firefighters, and the heavy price of dedication. The book fully displays the humanity of members of the fire service and the flavor of fire service tradition.

Cambridge John Dee,2013-04-16 This is the private diary of Dr. John Dee and is both expensive and hard to find in its first edition. It contains the writings of the sixteenth century occultist on his day-to-day activities. This is a fascinating work and is thoroughly recommended for anyone with an interest in John Dee’s life. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
