Flashlight Lizi Boyd,2014-08-12 Inside the tent it's cozy, but what is going on outside? Is it dark? Is it scary? Not if you have your trusty flashlight! A charming story told solely through images: Through neatly drawn illustrations and a spare yet dramatic color palette, artist Lizi Boyd offers an enchanting exploration of night, nature, and art with Flashlight. Both lyrical and humorous, this visual poem—like the flashlight beam itself—reveals there is magic in the darkness. We just have to look for it. • A wordless storybook with stunning visuals that aims to lighten the fear of the dark and the noises that come with it • Book inspires the imagination and creativity in young minds • Lizi Boyd is the author and illustrator of many children's books, including Inside Outside and Flashlight, and also creates papers, ribbons, cards, and other works of delight Flashlight allows readers to experience the wonder and excitement of nighttime exploration in the woods and wordlessly entices readers to explore the hidden nature outside their own homes. —The Busy Librarian • Appeals to readers of all ages with the calming, yet adventurous tone • Books for kids ages 5-6 • Children's picture books for preschool through first grade

Flashlight Night Matt Forrest Esenwine,2017-09-19 Flashlight Night is an ode to the power of imagination and the wonder of books. Three children use a flashlight to light a path around their backyard at night; in the flashlight's beam another world looms. Our heroes encounter spooky woods, a fearsome tiger, a time-forgotten tomb, an Egyptian god, a sword-fighting pirate, and a giant squid. With ingenuity, they vanquish all, then return to their tree house—braver, closer, and wiser than before—to read the books that inspired their adventure.

[M]ultiple STEAM applications, from poetry and creative writing to introductions to energy and light to how the sun affects human life, and doubles as a great read-aloud or a starry bedtime story.—starred, Booklist

A Flash of Light Mark Lorch,Andy Miah,2016-07-01 A Flash of Light is an intriguing book that starts at the beginning of time itself and then winds its way through a host of fascinating light related topics including the hues of aliens sunsets, the psychology of colour, and the chemistry of LCD screens. Written as part of a novel experiment, editors Mark Lorch and Andy Miah hatched a plan to collect a critical mass of academics in a room and charged them with writing a popular science book, under the watchful eye of the general public at the Manchester Science Festival. The result is an enlightening look into the science behind colour and light, encompassing biology, chemistry and physics and including simple and fun “try this at home” ideas to illustrate the concepts covered. Drawing on the experience of some of the UK's best science communicators, this book will appeal to anyone with an interest in science. Its pacey, witty and engaging tone provides illuminating insight into how and why we see the universe the way we do.

Light Georgia Amson-Bradshaw,2019-07-15 There are so many sources of light in our world: the sun, fire, electric lamps, flashlights, lightning, and countless more. Even some animals give off light. What makes these sources light up? This lively look at a fundamental segment of science combines a colorful comic-book design with important and accessible curricular content. Readers will be motivated to test their understanding of the topics with quiz questions and they'll appreciate the bright graphics that highlight need-to-know concepts.

Flashlight Night Elisabeth Hasselbeck,2021-02-02 NATIONAL BESTSELLER • In her first picture book, New York Times bestselling author and mother of three Elisabeth Hasselbeck reminds us that little hearts can be anxious too—and that God is always listening to their prayers. Flashlight Night is narrated by a boy whose parents have used chalkboard paint to create a wall where he and his siblings can write out all their fears, cares, and concerns: Will I learn to blow a bubble? Tie my shoes? Stay out of trouble? Be the friend they choose? The boy shares the wall with a friend, who records her own prayers. Later, they visit the chalkboard wall at dusk with a flashlight. The boy's mom shines the light on some prayers and turns it off at other times, pointing out that their prayers (and the children's faith) are still there, even in the dark, and that God hears every request. Mom says, Sometimes we see God's yes, and other times we don't. But just because it hasn't happened, doesn't mean it won't. Even when it's dark and dim and when we cannot see, let's choose to place our trust in God. He's close to you and me.

Flashlight Fighting Phil Elmore,2006-04-01 A simple 6-inch flashlight is an extremely potent self-defense weapon if wielded properly and is among the few useful items one may carry that has yet to be legislated into liability. Guns are strictly controlled in some areas; knives are subject to as many if not more laws, some of them so vague that they defy interpretation. Collapsible batons, billy clubs, mace and pepper sprays are often illegal, but few, if any, regulations concern the possession of the common pocket torch. About now you're probably thinking that you're in deep trouble if the only weapon you've got is a battery-powered flashlight, but anyone who knows how to use a palm stick knows just how effective even a short length of rigid material can be. Thrust into the body's soft targets, joints and other vital areas, it can debilitate and even kill an attacker.
