Grandmaster Flash, David Ritz

Energy Flash Simon Reynolds, 2012-03-01 Ecstasy did for house music what LSD did for psychedelic rock. Now, in *Energy Flash*, journalist Simon Reynolds offers a revved-up and passionate inside chronicle of how MDMA (“ecstasy”) and MIDI (the basis for electronica) together spawned the unique rave culture of the 1990s. England, Germany, and Holland began tinkering with imported Detroit techno and Chicago house music in the late 1980s, and when ecstasy was added to the mix in British clubs, a new music subculture was born. A longtime writer on the music beat, Reynolds started watching—and partaking in—the rave scene early on, observing firsthand ecstasy’s sense-heightening and serotonin-surging effects on the music and the scene. In telling the story, Reynolds goes way beyond straight music history, mixing social history, interviews with participants and scene-makers, and his own analysis of the sounds with the names of key places, tracks, groups, scenes, and artists. He delves deep into the panoply of rave-worthy drugs and proper rave attitude and etiquette, exposing a nuanced musical phenomenon. Read on, and learn why nitrous oxide is called “hippy crack.”

Generation Ecstasy Simon Reynolds, 2013-06-19 In *Generation Ecstasy*, Simon Reynolds takes the reader on a guided tour of this end-of-the-millennium phenomenon, telling the story of rave culture and techno music as an insider who has dosed up and blissed out. A celebration of rave’s quest for the perfect beat definitive chronicle of rave culture and electronic dance music.

Flash has upped the standard for web motion graphics and has been welcomed with open arms on account of its powerful new ActionScripting capabilities. Following the phenomenal success of New Masters of Flash, the Flash Annual will bring together a new collection of the hottest Flash design talents on the planet, all of whom have grabbed attention in the preceding year. New Masters of Flash: The 2002 Annual gives competent web artists inspiration for cutting-edge Flash design techniques, as well as hard tutorial information on how to build top class effects. The format builds on the best of the original best-selling title while improving in areas where the first volume was weaker, (e.g. generic customizable code examples), while the talents, the inspirations and effects are all of the moment and represent the mature and expert deployment of the staggering new capabilities of Flash 5 ActionScript. The Flash Annual format: The Intro is a series of 3 field-report essays written by key New Masters from the previous year covering new talents, new techniques and new trends. The main body of the book is then an evolution from the original format. This time, as well as the inspiration and tutorial sections, we add a third section to each chapter, headnotes. Part summary, part chapter commentary, part code overview, the Headnotes section teases out the reusable and generic elements of the previous tutorial and suggests ways forward for the reader.

The Adventures of Grandmaster Flash Grandmaster Flash,David Ritz,2008-06-10 A no-holds-barred memoir from the primary architect of hip hop and one of the culture's most revered music icons—both the tale of his life and legacy and a testament to dogged determination. Grandmaster Flash and the Furious Five fomented the musical revolution known as hip hop. Theirs was a groundbreaking union between one DJ and five rapping MCs. One of the first hip hop posses, they were responsible for such masterpieces as “The Message” and “Adventures of Grandmaster Flash on the Wheels of Steel.” In the 1970s Grandmaster Flash pioneered the art of break-beat DJing—the process of remixing and thereby creating a new piece of music by playing vinyl records and turntables as musical instruments. Disco-era DJs spun records so that people could dance. The original turntablist, Flash took it a step further by cutting, rubbing, backspinning, and mixing records, focusing on “breaks”—what Flash described as “the short, climactic parts of the records

that really grabbed me”—as a way of heightening musical excitement and creating something new. Now the man who paved the way for such artists as Jay-Z, Sean “P. Diddy” Combs, and 50 Cent tells all—from his early days on the mean streets of the South Bronx, to the heights of hip hop stardom, losing millions at the hands of his record label, his downward spiral into cocaine addiction, and his ultimate redemption with the help and love of his family and friends. In this powerful memoir, Flash recounts how music from the streets, much like rock ‘n’ roll a generation before, became the sound of an era and swept a nation with its funk, flavor, and beat.

Please come, especially if you are a “capital ‘T’ Traveler” who digs deeper than surface pleasures of a new place, connects with people of the land, and celebrates differences as well as similarities. The time span covered draws from the onset of swift modern development and increased tourism that threatens a cherished lifestyle to the threshold of COVID-19.
