Cracked Eliza Crewe,2013 Meet Meda. She eats people. Well, technically, she eats their soul. But she totally promises to only go for people who deserve it. She's special. It's not her fault she enjoys it. She can't help being a bad guy. Besides, what else can she do? Her mother was killed and it's not like there are any other "soul-eaters" around to show her how to be different. That is, until the three men in suits show up. They can do what she can do. They're like her. Meda might finally have a chance to figure out what she is. The problem? They kind of want to kill her. Before they get the chance Meda is rescued by Crusaders, members of an elite group dedicated to wiping out Meda's kind. This is her chance! Play along with the "good guys"

and she'll finally figure out what, exactly, her "kind" is. Be careful what you wish for. Playing capture the flag with her mortal enemies, babysitting a teenage boy with a hero complex, and trying to keep one step ahead of a too-clever girl are bad enough. But the Hunger is gaining on her.

How Alien Would Aliens Be? John Cramer, 2001-07 How alien would aliens be? Would they look like us or perhaps more like an octopus? How would they communicate? Could we even hear their voices, assuming they have them? Like us, aliens would be constrained by the physical world. Understanding how those physical constraints apply both to us and to aliens is the theme of this book. The constraints imply that they will not be all that different from us, perhaps half to twice as big as we are. They will depend on vision and hearing as we do and they will live on a planet much like ours. But where will they be? Do they even exist? The odds are not good. We may be the only intelligent life in the universe.
