Daniela Niemeyer

Star Fleet One ,

The Fleet David Drake,Bill Fawcett,1988 Mankind has taken one step too far in exploring the galaxy--and run smack up against the Khalia, vicious alien carnivores who take no prisoners. It is up to the brave men and women of the Fleet to keep the home planets safe. This anthology contains stories by Anne McCaffery, Poul Anderson, David Drake, and others. (August)

The Achilles Battle Fleet Brendan Wilson,2021-03-29 In what is sure to be a new classic in the genre of weaponized space epics, Brendan Wilson gives us a glimpse into a future teeming with impossible technologies, international intrigue and a power struggle to send your imagination reeling.Alliance officers Lieutenant Mei Ling Lee and Admiral Jay Chambers are navigating their starship flotilla back to the blue planet from the Achilles Nine frontier, only to meet with a dark destiny. The enemy looms as a triumphant cast of characters emerges to combat on multiple fronts both the juggernaut of terror inspired by neighbor-unconquerable volatile quantum hybrid clone technology spawned from an internal spy network, and the hierarchy of brutal galactic martial law, which threatens to tear the Alliance asunder.With clean battle-ready authority, Wilson extracts a forceful and challenging stand-alone story to explore honor and valor high above a far-future Earth.

Stalin's Ocean-going Fleet: Soviet Jurgen Rohwer,2017-07-05 In this work, two senior naval historians analyze the discussions held in leading Soviet political, military, and naval circles concerning naval strategy and the decisions taken for warship-building programmes. They describe the reconstitution of the fleet under difficult conditions from the end of the Civil War up to the mid-1920s, leading to a change from classical naval strategy to a Jeune ecole model in the first two Five-Year Plans, including efforts to obtain foreign assistance in the design of warships and submarines. Their aim is to explain the reasons for the sudden change in 1935 to begin building a big ocean-going fleet. After a period of co-operation with Germany from 1939-41, the plans came to a halt when Hitler attacked the Soviet Union in 1941. Finally, this work covers the reopening of the naval planning processes in 1944 and 1945 and the discussions of the naval leadership with Stalin, the party and government officials about the direction of the new building programmes as the Cold War began.

Constitution Nick Webb,2015-06-29 75 years ago, an alien fleet attacked Earth. Without warning. Without mercy. We were not prepared. Then the aliens abruptly left. We rebuilt. We armed ourselves. We swore: never again. The aliens never came back ... until now ... It's the year 2650. With overwhelming force the aliens have returned, striking deep into our territory, sending Earth into a panic. Our new ships burn like straw. All our careful preparations are wasted. Only one man, one crew, and the oldest starship in the fleet stand between the Earth and certain destruction: ISS Constitution.

New Frontiers Joshua Dalzelle, 2016-08-08 The Phage War had been a devastating conflict for the Terran Confederacy. Even with the destruction of their terrifying, implacable foe, humanity is still reeling. Political alliances are crumbling and their mighty fleet is in tatters. There is nothing to celebrate, even after such a complete victory. They soon learn that there are other stellar neighbors ... and they've been watching the conflict with great interest. One species comes with an offer of friendship and alliance, but humanity is weary and distrustful, their only interactions with aliens having resulted in the near-eradication of their kind. Before the ashes of war have been fully swept away Captain Celesta Wright is dispatched to the Frontier with a small taskforce to investigate a mysterious signal while the Confederacy struggles to hold itself together. A partnership with this new species could help accelerate the recovery effort, but is the offer too good to be true? Can humanity risk another fight with an advanced alien species right on the heels of the bloodiest war that had ever been waged? New Frontiers is the first book of the Expansion Wars Trilogy, an all adventure in the Black Fleet universe.
