How to Flirt Bruce Glover,2020-10-10 ☐☐ Do you want to understand women and learn more about the art of seduction? Do you want to know more about nonverbal communication? If you want to Flirt like a pro, then keep reading. ☐☐ Let's face a bitter, hard truth about life. Some guys have it naturally easier than others when it comes to attracting women. They just have it in them. These are the dudes who always bag the champion's trophy, while lesser mortals are left struggling with consolation prizes like boys' night outs and Netflix binge-watching sessions. It can drive you crazy. You want to know what are these dudes doing that I am not doing? Of course, it's understandable that Greek god incarnates, rich, sophisticated family background, flashy cars, and perfect jobs. However, what about the several average Joes who seem to score really well when it comes to wooing women (almost as if they have access to some secret, magic potion). I actually know several seeming boring, average guys, who don't even possess unusual talents (other than attracting women which is the best if you ask me) draw women like magnets. What's it about them that they make such a positive impression on women and keep bagging dates with them over and over again until they get hitched. I mean wow! I dug really deep into the subject and realized that it isn't just a single subject but a combination of areas of study including psychology, evolutionary sciences, neurology, attraction/sexuality and much more. You could write a thousand books about what a woman wants and it'd still be less, which is why I am sharing the best and most effective tips I've learned and mastered over the years, minus the mediocrity and fluff. This book gives a comprehensive guide on the following: - Understanding women - Language of flirting - Confidence is an art - The right moves - Conversation - Flirting using nonverbal communication - Flirting in different situations - Igniting the romance over text - The art of seduction - Journey of flirting... AND MORE!!! Get this book Now and feel like a master of Flirt within a few days!

How To Flirt William Clark,2019-12-18 Do you want to know how to flirt with women and achieving successful relationships? If yes, then keep reading... You may not know it, but the reason why you may not be alluring to the opposite sex may be because you haven't really thought about what type of male you are. Within the pages of this book, you will find out what it takes to attract women in all kinds of social environments. What's more, the information is up to date and takes account of modern approach, rather than the staid and traditional approach - which you may find isn't that effective anymore. Let's face it, we didn't have all of the potential contact venues several years ago, and older folk don't really understand all of this side swiping and voting on how beautiful you think a woman is. It's a new age now, and thus the rules of combat have to be redefined. As you read through the chapters, you will find that you will learn how to change your approach to suit the new lady of the twenty-first century and believe me, it will be well worth it. The book covers a whole heap of information about what women expect from men, what turns them on, but most importantly, what doesn't. Once you are aware of their needs, you are more likely to fulfill their fantasies as well as your own. Think being smart is enough? Think

having a good job should be enough? Well, pal, I have news for you. Women are becoming less timid, and since the book 50 Shades of Grey was written are taking a much more proactive part in the dating process. You will find out through the pages of this book exactly what you need to change about your approach, in order to be a winner. Whether you are in the dating game looking for permanence or simply someone to spend your time with, it doesn't matter because the rules of the game are very much the same, and although you may think of yourself as a stud, believe me - if you were that good at the dating game, you wouldn't be reading this introduction. Much of this comes from the approach you use. There's a lot more to the dating game than simply approaching someone of the opposite sex. Believe me; you need to understand the mentality of a woman and how it differs from her male counterpart. You also need to be aware of your approach and the way in which you present yourself. It does make a huge difference to your level of success. Are you an alpha or a beta? You probably don't know, but you will by the time that you have read this book. I promise you that. I also promise that you will be more confident and able to please a woman because the book will make you much more aware of what women are looking for. It goes beyond good looks and great manners. This book gives a comprehensive guide on the following: Understanding women's biggest fear The secret to getting the first kiss Approach smoothly How To Get Any Woman To Tell You Anything You Want to Know About Her The power of listening Why is listening important? The importance of sex in a long-term relationship Online Dating Techniques d104ing Game How to Pre-Select and Court Women Behaviors and Habits For Better Results ... AND MORE!!!
