**Bach Flower Essences and Chinese Medicine** Pablo Noriega,2016-06-16 A guide to applying the power and wisdom of Chinese Medicine to Bach Flower Therapy • Includes detailed write-ups about the indications and effects of each of the original 38 Bach flower remedies according to

Chinese Medicine • Explains the relationships between specific emotions, symptoms, and regions of the body according to Chinese Medicine • Offers a complementary method of Flower Essence evaluation using physical conditions to access the emotions Bach flower essences provide excellent tools for balancing energetic disturbances generated by emotions. Yet people often have trouble clearly expressing their feelings and emotions, making selection of a specific flower essence difficult. Drawing upon the centuries-old relationships established in Chinese Medicine between emotions and physical disorders, Pablo Noriega shows how to use a person’s descriptions of their complaints and chronic conditions combined with Flower-type personality traits to diagnose which flower essence to prescribe in each unique case. The author includes a full primer on Chinese Medicine, exploring in detail the main principles: Yin and Yang; the Five Elements and their associated Organs; Blood and Energy; the Virtues, the behaviors that can strengthen the Elements; and the Psyches, the energetic spirit of each Organ. He reveals the direct correspondences between specific emotions, symptoms, and regions of the body and how the Flowers help regulate Spirit and work on the emotional foundations of many common chronic disorders. Providing detailed profiles about each of the original 38 Bach flower remedies according to Chinese Medicine, Noriega explains how to prescribe flower essences for prevention of predisposed conditions, for healing of acute and chronic ailments, and for disorders that arise from stagnant energy and yin-yang imbalances. Offering flower essence therapists new possibilities for evaluation and treatment, this guide also helps Chinese Medicine practitioners incorporate Flower Essences into their practice.

**Bach Flower Remedies** Julian Barnard,2004 Today, disease and death control us ever more strongly with a litany of viruses, cancers, and heart disorders. The causes may be vaccinations, environmental poisons, despoliation of food, or pollution of the elements--earth, water and air. For Bach the cause was clear and it is clear today: 'It is only because we have forsaken Nature's way for man's way that we have suffered, and we have only to return to be released from our trials. In the presence of the way of Nature disease has no power; all fear, all depression, all hopelessness can be set aside. There is no disease of itself which is incurable.' --Julian Barnard In the 1920s, the physician and homeopath Dr. Edward Bach made his great discovery of the healing effects of various flower essences. Intense and revelatory, his experiences in nature resulted in thirty-eight flower remedies. He describes these as bringing courage to the fearful, peace to the anguished, and strength to the weak. But the therapeutic effects of the remedies were never limited to emotional states. They are equally effective in the treatment of physical disorders. Barnard begins the process of explaining this phenomenon. He describes how Bach made his discoveries and examines the living qualities of the plants in their context and how the remedies are actually produced. The result is remarkable. The author recounts his observations so that readers can experience, in a living way, the complex ways in which the remedy plants grow--their gestures and qualities, ecology, botany, and behavior. This exciting book is a trumpet call to attend to nature in a new way. Fully illustrated.
