100 Flying Birds ,2021-09-15 Flight is the essence of birdness. I strive to illustrate the beauty and complexity of avian flight. -- Peter Cavanagh 100 Flying Birds: Photographing the Mechanics of Flight offers a vivid and varied glimpse into the world of birds. A white-tailed eagle plummeting through a Japanese sky, a brown pelican striking a silhouette against an Ecuadorian sunset, an Atlantic puffin carrying its fish dinner above the Scottish coast, or a keel-billed toucan gliding through a Costa Rican jungle canopy; readers will marvel at the splendor of birds in flight while learning the techniques to capture these gravity-defying moments from a world-class nature photographer. For each picture, author and photographer Peter Cavanagh shares his most evocative thoughts: the challenges of the shoot, the beauty of the location, and the curiosities of the species. Bird people will enjoy the bird photographs and facts, travelers will gobble up the tales of distant parts, and photographers will absorb the technical details. For instance, readers might be surprised to see that a very slow shutter speed can freeze the motion of hummingbird wings. Peter Cavanagh has collected 100 beautiful photos spanning a wide range of species. The subjects of each of the 11 chapters are: Eagles Hummingbirds Gulls and Terns Small Waterbirds Large Waterbirds Ducks, Geese and Swans Raptors Condors and Corvids Cranes Songbirds Favorites

Soviet Postcolonial Studies Epp Annus,2017-09-05 Postcolonial studies is a well-established academic field, rich in theory, but it is based mostly on postcolonial experiences in former West European colonial empires. This book takes a different approach, considering postcolonial theory in relation to the former Soviet bloc. It both applies existing postcolonial theory to this different setting, and also uses the experiences of former Soviet bloc countries to refine and advance theory. Drawing on a wide range of sources, and presenting insights and material of relevance to scholars in a wide range of subjects, the book explores topics such as Soviet colonality as co-constituted with Soviet modernity, the affective structure of identity-creation in national and imperial subjects, and the way in which cultural imaginaries and everyday materialities were formative of Soviet everyday experience.
