Dr Robert Lawrence

One Adventure After Another John and Edna Lewis, 2013-04 This book is not about heroes like military pilots who risk their lives protecting our country, or commercial pilots who wing their way across the world transporting us from one place to the other or general pilots who daily perform tasks that can only be done from the air. We owe all of these pilots a great respect and gratitude for the job that they do. Most of the books written are about them. This book is about the private pilot who is the average man or woman who does not intend to risk their lives flying an airplane. This book is about those people who simply want to take to the air for the joy of being airborne and for the intellectual challenge of keeping up with the birds. If I thought for a moment that flying was not safe, I would not step into an airplane. For years I felt that flying was for the foolhardy until by chance I discovered that flying is safer than driving a car if you learn how to fly and follow the rules. This book attempts to describe the transition from becoming a land person to becoming an air person and the pleasures experienced on the way. -John O. Lewis My first adventure with John as an airplane pilot gave me the surprise of my life. After vehemently refusing to go flying with him, I agreed once and for all to join him in the cockpit for a brief tour around Chicago. Once airborne my imagined fears were replaced by sheer joy of seeing the sights and realizing the wonders both above and below. This initial flight was the beginning of adventures of our lifetime. Never again was any coaxing on his part needed for me to join him on flights. -Edna M. Lewis

Adventures in Flight Simulator Timothy Trimble, 1994 Thrills, chills, and spills at 30,000 feet! 14 Days to Alaska Troy Hamon, 2012-04 Flying a small plane to Alaska is an adventure many pilots only dream of. In 2008, the author, a student pilot, and his brother, a flight instructor, embarked on this adventure in an airplane old enough to be their mother. On their journey, they examined how to fit twelve feet eight inches worth of grown men into one of the smallest cockpits on earth--for as many as eight hours a day. They visited places they had planned on going, to see friends and relatives, and made unintended stops in places they hadn't ever heard of. They waited out weather, waited on maintenance, and wrapped the whirlwind of learning to fly into one of the grandest cross-country trips imaginable. In the end, they covered in two weeks what takes commercial air carriers only a few hours to accomplish--but they had a lot more fun--and a much better view.

Flights of Adventure Ken Larson, Tom Holton, 2009-12-08 Who hasn't daydreamed of soaring above a South American rainforest, landing a float plane on a pristine Alaskan lake, or piloting a commercial airliner? Flights Of Adventure introduces the exciting, often harrowing, lifestyles of fighter pilots, wingwalkers, and men and women who brave the elements in the most barren places on the planet. This is a collection of real-life adventures to stir the blood of anyone who loves aviation--stories that are touching, humorous, exciting, and often dangerous or miraculous. Flights Of Adventure

is as close as you can get to experiencing aerial adventure while keeping your feet firmly planted on the ground.

A Day in the Life of an Airline Pilot Dr Robert Lawrence,2017-08-30 I thought you might enjoy reading about the actual life of an airline pilot. In this book I explain how I prepare for a flight; what happens in the flight deck; why delays occur; and what I do when I am done flying for the day. I also share passenger behaviors that drive flight crews crazy. Enjoy the trip!

Where's the Runway? and Other Flying Stories Herb Tabak,2001-07 The 1970's and 1980's were the boom days of general aviation when learning to fly was easy, cheap and somewhat free from stifling government regulation. Availability of the GI Bill and low fuel prices enabled many, including the author, to learn to fly and add ratings while enjoying the nostalgia provided by the use of the few remaining barnstorming era airfields and training from former World War II pilots. This book memorializes many logbook entries of the author and includes some of the adventures he shared with his friends, family and others while flying small planes and hot air balloons.

The Second-luckiest Pilot D. K. Tooker,2000 This collection of stories dramatically chronicles the exciting and occasionally harrowing adventures of military pilots.

Chasing Planes Gordon R. Page,2015-12-02 Starting at an early age, Gordon Page was obsessed with anything that had to do with airplanes. Compelled to always look up to see what was flying overhead, he quickly developed the ability to identify anything with wings. Since then, Gordon has spent his life chasing planes. Gordon chronicles stories from his life as a pilot, consultant, broker, and aircraft appraiser that detail real life experiences and valuable lessons learned. Gordon's anecdotes reveal a variety of circumstances that include white-knuckle moments in the cockpit as he faced electrical failure in the skies over western Nebraska, survived an unforgettable helicopter tour of northern Israel as a passenger, and prepared to crash into a cornfield in a small plane in South Korea with a Top Gun obsessed pilot at the controls. Included are stories about how Gordon helped keep a giant bomber in the sky, assisted a film crew in recording a flight test of the G-II, and helped coordinate the sale of several Me 262s after a one-hour visit to Meacham, Texas, years earlier. Chasing Planes encapsulates the fascinating life journey of a pilot and airplane aficionado after he looked to the skies and found his true calling.

Whatta Life Pat Magie,2020-07-30 If you think you are a pilot, you have to read this. This guy was a legend in his time and accumulated over 40,000 hours of accident-free flying time, owned almost 500 aircraft and experienced 7 total engine failures in flight without putting a mark on an aircraft--although he admits to putting some holes in his floats. He has over 33,000 hours on floats, 6,000 hours on skis and a little over 1,000 hours on wheels and airports. He tells you how to fly two aircraft at one time and a good way to make a friend is to kill him and bring him back to life. He has thousands of hours flying external loads--if it doesn't fit inside, tie it on outside--canoes, boats, lumber, plywood, furniture, Christmas trees and human bodies. He is even known as the body double for Catherine Zeta Jones! He has chased bank robbers off the road into the highway patrol and taken off and landed on 600 ft. runways, 800 ft. runways with a 45 degree bend, landed on paved highways, gravel roads, sand beaches and glaciers. And has made quite a few cross-country flight across the US in no-radio airplanes.
