### Running a Social-media Newsroom Linda J.

Schoenstedt, Jackie Reau, 2010 The objective of this case study was to create and execute a proactive new-media public relations plan for the 2009 Cincinnati Flying Pig Marathon. Although the economic activity surrounding this marathon has been studied by Cobb and Olberding (2008), the 11th running of the popular marathon offered a chance to launch a social-media newsroom inside the traditional media center. Social-media tools like Twitter, YouTube, blogs, Facebook, Twitpics, and other multimedia postings have revamped news forums through their immediate transmission of news while traditional media must wait until press time. Few sporting events have actively planned to use social-media platforms to create ad campaigns, generate buzz, or track digital participation for selling, marketing, and measuring various responses to the event.

### *Social Enterprise and Special Events* Julie

Olberding, 2016-11-25 During the past twenty years, the field of nonprofit management has grown significantly in terms of the number of nonprofit organizations, number of people employed, and amount of funds raised. A key activity in nonprofit management has been organizing events, which are generally defined as purposive gatherings of people. These purposes may include: increasing awareness about the nonprofit organization and its mission; raising funds to support programs and services related to its mission; engaging and developing individuals as donors, volunteers, and advocates; and enhancing the image of the organization and/or the broader community. Events in the modern era tend to be organized across the nonprofit, public, and private sectors. While a nonprofit organization may create and manage an event, corporations and businesses often contribute financial support and technical expertise in areas such as branding, marketing, and social media. Depending on the event

type and size, a local government may provide the venue and public safety services, including police, fire, and ambulance. We can understand more about these mission-driven, cross-sectoral events by looking through the lens of social enterprise. Social enterprise has been defined as a venture that advances a social mission using business methods or market-based approaches. It is typically conceptualized as spanning sectors, particularly the nonprofit and private sectors. Social Enterprise and Special Events focuses on how market-based approaches can be used to help mission-driven gatherings achieve their purposes as efficiently, effectively, and sustainably as possible. These approaches include market research, brand development, cause marketing, gamification, liquidity, cash management, and clustering. The book also incorporates concepts important in the nonprofit and public sectors such as collaborative governance, social capital, political capital, community development, placemaking, and diversity.

I Had a Hammer Hank Aaron, Lonnie Wheeler, 2009-03-17 The Classic New York Times Bestseller The man who shattered Babe Ruth's lifetime home run record, Henry Hammering Hank Aaron left his indelible mark on professional baseball and the world. But the world also left its mark on him. I Had a Hammer is much more than the intimate autobiography of one of the greatest names in pro sports—it is a fascinating social history of twentieth-century America. With courage and candor, Aaron recalls his struggles and triumphs in an atmosphere of virulent racism. He relives the breathtaking moment when, in the heat of hatred and controversy, he hit his 715th home run to break Ruth's cherished record—an accomplishment for which Aaron received more than 900,000 letters, many of them vicious and racially charged. And his story continues through the remainder of his milestone-setting, barrier-smashing career as a player and, later, Atlanta Braves executive—offering an eye-opening and unforgettable portrait of an incomparable athlete, his sport, his epoch, and his world.
