Interdisciplinary Research in Technology and Management Satyajit Chakrabarti, Rintu Nath, Pradipta Kumar Banerji, Sujit Datta, Sanghamitra

Poddar, Malay Gangopadhyaya, 2021-09-14 The conference on ‘Interdisciplinary Research in Technology and Management” was a bold experiment in deviating from the traditional approach of conferences which focus on a specific topic or theme. By attempting to bring diverse inter-related topics on a common platform, the conference has sought to answer a long felt need and give a fillip to interdisciplinary research not only within the technology domain but across domains in the management field as well. The spectrum of topics covered in the research papers is too wide to be singled out for specific mention but it is noteworthy that these papers addressed many important and relevant concerns of the day.

Instagram Secrets Alexander Vinci, 2021-09-04 Do you want to know how Instagram really works and what mindset you must have to succeed in this platform? If you just starting reading through this guide and are thinking that your business isn't an eCommerce business and so Instagram isn't the place for you, think again. Remember, the key proposition that Instagram brings is visualization. Consider these examples: 1. You're a real estate agent and want to highlight the newest mountain home that you have on the market 2. You are a world-class hospital that just released a new mother's ward with beautiful birthing and stay suites with a spa-like feel 3. You're a restaurant owner and want to highlight your savory and mouthwatering specials each week The above examples are all situations where nothing is actually being transacted online, but the business is building brand awareness and drumming up interest so that the consumer will visit their website, or pick up the phone, to learn more. The mysterious Instagram algorithm While we'll never know exactly how Instagram has weighted the various data points that they put into their algorithm, we do know that Instagram's back-end technology now focuses on relevancy, serving up the posts that are most

likely to relate to certain users based on their activity on the site. So, every time a user clicks through a post, or spends a certain amount of time looking at a certain influencer, Instagram is capturing that data in some way, and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed. We do know, however, that Instagram is looking at the following:

- Timely content - This is all about recency, meaning if a user hasn't logged in for a while, they won't have to scroll through outdated (and no longer relevant) posts. They'll be shown timely content that matters to them.
- Interest - This is really the secret sauce, as Instagram is paying attention, and will serve content that it believes the user will be interested in.
- Relationships - Instagram knows what photos users tag, and where they comment. So, if a user has interacted in some way with certain brands in the past, they are far more likely to be served content from that brand, or similar brands, in the future. For marketers, this is a great thing. It means that as Instagram learns more about your brand, your posts and advertisements are more likely to get in front of your niche, or target audience.

A few notes about Instagram Shopping

With the release of Instagram Shopping in late 2016, Instagram literally turned their platform into an online marketplace. While it is still a common practice to include website links to your business site, and even to a product page, now it is possible to allow the customer to transact directly on the Instagram platform. For businesses that want to enable the Shopping

capability, they need to meet the following requirements: ● You must have an Instagram business profile ● That business profile needs to be connected to a Facebook catalog ● Your company's registered headquarters location must be located in one of the Instagram approved countries ● Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram As this Instagram Marketing Guide is intended as a resource for those getting started with Instagram marketing, we will not be providing a deep dive of the Instagram Shopping capability. Naptime with Joey Laura Izumikawa, 2022-02-22 From viral Instagram sensation, lifestyle photographer, and mommy blogger Laura Izumikawa comes *Naptime with Joey*, a ridiculously delightful photo book of her now internet-famous daughter dressed up in various pop culture costumes—a perfect gift for new parents everywhere. Lights, Camera...Nap! Joey Marie wears many hats (or, rather, wigs): she's dressed up as Inigo Montoya, Britney Spears, Beyoncé, Pikachu, Anna Wintour, Moana, and Barb from *Stranger Things*. She's taken trips to Hawaii, baked croissants, and blasted off to the moon as an astronaut (at least, in her dreams). She's held occupations such as pizza chef, aerobics instructor, and handy-dandy-fixer-upper (figuratively, of course). She's inspired a parenting blog, been the face of her mom Laura Izumikawa's Instagram account—and for the first time, she's taken the leap

from the ranks of internet-baby-snoredom to the pages of a book. Naptime with Joey is chockablock full of over a hundred deliciously adorable photos of Joey dressed up as various pop culture characters, movie stars, musicians, vacationers, and holiday-goers, making this the most fun, festive, and downright delightful gift under the sun!
