The Essence of Style Joan DeJean,2007-11-01 What makes fashionistas willing to pay a small fortune for a particular designer accessory -- a luxe handbag, for example? Why is it that people all over the world share the conviction that a special occasion only becomes really special when a champagne cork pops -- and even more special when that cork comes from a bottle of Dom Pérignon? Why are diamonds the status symbol gemstone, instantly signifying wealth, power, and even emotional commitment? One of the foremost authorities on seventeenth-century French culture provides the answer to these and other fascinating questions in her account of how, at one glittering moment in history, the French under Louis XIV set the standards of sophistication, style, and glamour that still rule our lives today. Joan DeJean explains how a handsome and charismatic young king with a great sense of style and an even greater sense of history decided to make both himself and his country legendary. When the reign of Louis XIV began, his nation had no particular association with elegance, yet by its end, the French had become accepted all over the world as the arbiters in matters of taste and style and had established a dominance in the luxury trade that continues to this day. DeJean takes us back to the birth of haute cuisine, the first appearance of celebrity hairdressers, chic cafes, nightlife, and fashion in elegant dress that extended well beyond the limited confines of court circles. And Paris was the magical center -- the destination of travelers all across Europe. As the author observes, without the Sun King's program for redefining France as the land of luxury and glamour, there might never have been a Stork Club, a Bergdorf Goodman, a Chez Panisse, or a Cristophe of Beverly Hills -- and President Clinton would never have dreamed of holding Air Force One on the tarmac of LAX for an hour while Cristophe worked his styling genius on the president's hair. Written with wit, dash, and élan by an author who knows this astonishing true story better than virtually anyone, *The Essence of Style* will delight fans of history and everybody who wonders about the elusive definition of good taste.

Offal Fine Food: You Are Making What for Dinner? Ivy Newton,2013-02-08 As meat is the most costly of food on the grocery list, it is a sound decision to use all the parts of the animal and work them into everyday dishes. So-called inferior pieces not inferior because they contain less nourishment, but inferior because the demand for such parts is less should be used for all types of wonderful dishes. Stews, ragouts, and numerous other dishes are delicious ways to cook the pieces we overlook in the grocery store. We have no occasion here to spend money on good looks and let's face it; a beef heart wins no beauty contests. However, beef heart is an inexpensive and lean muscle, and it's typical to find in the grocery store. Beef heart is a leaner cut than top sirloin steak and costs less. Certain types of offal, including kidneys and liver, can be very high in cholesterol. However the kidneys and liver are high in folic acid, vitamin B 9, which is an important vitamin necessary for healthy blood. Lack of folic acid may lead to anemia. Aside from the pieces of meat into which an animal is usually cut, there will be left as offal the backbone, the brain, the heart, the liver, the kidneys and lungs, feet, stomach and skin. Nearly every cook does not know what disposition to make of all these parts and too often these wholesome portions of the animal are not utilized to best advantage.

Setting the Table for Julia Child David Strauss,2020-03-03 Before Julia Child's warbling voice and towering figure burst into America's homes, a gourmet food movement was already sweeping the nation. *Setting the Table for Julia Child* considers how the tastes and techniques cultivated at dining clubs and in the pages of *Gourmet* magazine helped prepare many affluent Americans for Child's lessons in French cooking. David Strauss argues that Americans' appetite for haute cuisine had been growing ever since the repeal of Prohibition. Dazzled by visions of the good life presented in luxury lifestyle magazines and by the practices of the upper class, who adopted European taste and fashion, upper-middle-class Americans increasingly populated the gourmet movement. In the process, they came to appreciate the cuisine created by France's greatest chef, Auguste Escoffier. Strauss's impressive archival research illuminates themes—gender, class, consumerism, and national identity—that influenced the course of gourmet dining in America. He also points out how the work of painters and fine printers—reproduced here—called attention to the aesthetic of dining, a vision that heightened one's anticipation of a gratifying experience. In the midst of this burgeoning gourmet food movement Child found her niche. The movement may have introduced affluent Americans to the pleasure of French cuisine years before Julia Child, but it was Julia's lessons that expanded the audience for gourmet dining and turned lovers of French cuisine into cooks.

Recipe for a Country Inn Donna Leahy, 2002-03-26 What is it really like to own and run a country inn? Lancaster County, Pennsylvania, is a world unto itself. A world of rolling hills, Amish horse-drawn buggies, and Mennonite barn raisings and home of the award-winning Inn at Twin Linden, owned by Donna and Bob Leahy. Although the inn is known for elegant accommodations and warm hospitality, it is Donna's bountiful breakfasts and elegant dinners that keep visitors returning time after time after time. In this book, she shows you how to re-create the simple, fresh, and uniquely inspired country cooking of the Inn at Twin Linden. And then there are Donna's legendary dinners. In summer, start with any of her extraordinary chilled soups such as Sparkling Strawberry Soup, Crab Gazpacho, or Apricot Raspberry Soup. Warm soups for cold winter nights include Spiced Cranberry Pear Soup, Lobster Thyme Bisque, and Apple Cheddar Soup. Donna's salads, usually right from her gardens, transcend a simple mix of greens. Try the Minted Strawberry Salad with Balsamic Vinegar, Marinated Green Beans with Crispy Leeks, or Shrimp Salad with Cilantro and Sweet Corn Salsa. Donna's philosophy of freshness and do-ahead simplicity makes her recipes ideal for home cooks. Main dishes include Beef Tenderloin with Caramelized Onion Tart, Rack of Lamb with Mint Pesto and Chèvre Crust, and Seafood Pot Pie with Saffron and Dill. Desserts and teatime treats such as Fudge Pecan Tart, Raspberry and White Chocolate Tarts, and Wild Blueberry Scones are easy to prepare and will satisfy your guests' craving for a sweet treat. Offering much more than a cookbook, Donna also shares the highs and lows, joys and frustrations of living out the dream of running your own inn. Recipe for a Country Inn details the nuts and bolts of innkeeping (as well as sketching the unusual characters who sometimes are your guests). Join Donna as she takes you through the day-to-day life of innkeeping -- whipping up egg dishes for breakfast, taking reservations, setting up the sideboard for afternoon tea, planning elegant dinners, and most important of all, greeting her guests and making them feel right at home. Haute Cuisine William Brandon Bowman, 2007 Haute Cuisine was realized ultimately to showcase legendary cooking of the past 40 years. There's no 1950s franchise food here, rather you'll find the care, thought, planning and talent that culminate in a cuisine specific to a place, a time and a people. I extend my great thanks and gratitude to so many friends who have submitted recipes from among their very finest and whose food I have enjoyed for a good portion of my life. Along with that cuisine, AIDS Project of the Ozarks has chosen very deliberately to illustrate Haute Cuisine with art of the very highest caliber. And like a bride's necessities of something old, something new, something borrowed and something blue, the art has been selected from among the finest artists now living and working in Springfield or whose origins are here. That art reflects several artists of my generation but more importantly, the art reflects work by the next generation whose successes continue to inspire, dazzle and amaze. William Brandon Bowman

The Cultivation of Taste Christel Lane, 2014-02-14 After many decades, if not centuries, of neglect of fine food and high-level restaurants in Britain, we are seeing a massive explosion of interest in food, cooking, and dining out. Christel Lane's book charts the process of this transformation and examines top contemporary restaurants and their chefs. The Cultivation of Taste presents a comparative study of Michelin-starred restaurants in Britain and Germany, focusing on two countries without an indigenous haute cuisine but which nevertheless have developed internationally reputed fine-dining sectors, and comparing their development to the fine-dining culture in France. Written from a sociological perspective, chefs are portrayed as part of a complex network, in their relationships with their employees, their customers, gastronomic critics, suppliers of food, and even their financiers. It will appeal to academics in the areas of economic and cultural sociology, and those with an interest in small entrepreneurial firms and their work relations, but also to all those who have an interest in fine-dining restaurants and the chef patrons at the centre of them. The book draws on a large number of interviews with renowned chefs, diners, and Michelin inspectors to provide an unprecedented insight into what goes on in Michelin-starred restaurants—what makes their chefs tick, intrigues their critics, and beguiles or annoys their customers. Restaurants are viewed not simply as businesses but as cultural enterprises that shape our taste in food, ambience, and sociality.
