Food Discourse of Celebrity Chefs of Food Network Kelsi Matwick,Keri Matwick,2019-12-02 Food Discourse explores a fascinating, yet virtually unexplored research area: the language of food used on television cooking shows. It shows how the discourse of television cooking shows on the American television channel Food Network conveys a pseudo-relationship between the celebrity chef host and viewers. Excerpts are drawn from a variety of cooking show genres (how-to, travel, reality, talk, competition), providing the data for this qualitative investigation. Richly interdisciplinary, the study draws upon discourse analysis, narrative, social semiotics, and media communication in order to analyze four key linguistic features – recipe telling, storytelling, evaluations, and humor – in connection with the themes of performance, authenticity, and expertise, essential components in the making of celebrity chefs. Given its scope, the book will be of interest to scholars of linguistics, media communication, and American popular culture. Further, in light of the international reach and influence of American television and celebrity chefs, it has a global appeal.

I want the tapes of this whole series destroyed.”—Martha Stewart “In those days, the main requirement to be on the Food Network was being able to get there by subway.”—Bobby Flay “She seems to suggest that you can make good food easily, in minutes, using Cheez Whiz and chopped-up Pringles and packaged chili mix.”—Anthony Bourdain This is the definitive history of The Food Network from its earliest days as a long-shot business gamble to its current status as a cable obsession for millions, home along the way to such icons as Emeril Lagasse, Rachael Ray, Mario Batali, Alton Brown, and countless other celebrity chefs. Using extensive inside access and interviews with hundreds of executives, stars, and employees, From Scratch is a tantalizing, delicious look at the intersection of business, pop culture, and food. The Food Network Recipe Emily L. Newman,Emily Witsell,2021-04-06 When the Television Food Network launched in 1993, its programming was conceived as educational: it would teach people how to cook well, with side trips into the economics of food and healthy living. Today, however, the network is primarily known for splashy celebrity chefs and spirited competition shows. These new essays explore how the Food Network came to be known for consistently providing comforting programming that offers an escape from reality, where the storyline is just as important as the food that is being created. It dissects some of the biggest personalities that emerged from the Food Network itself, such as Guy Fieri, and offers a critical examination of a variety of chefs' feminisms and the complicated nature of success. Some writers posit that the Food Network is creating an engaging, important dialogue about modes of instruction and education, and others analyze how the Food Network presents locality and place through the sharing of food culture with the viewing public. This book will bring together these threads as it explores the rise, development, and unique adaptability of the Food Network.

Evocative, gorgeous, refreshingly uncomplicated and full of ideas, Feast proclaims Nigella's love of life and great food with which to celebrate it. Packed with over 200 recipes from all over the world – and from near home – with helpful menus for whole meals, and more than 120 colour photographs, Feast is destined to become a classic.
