**Transfer Market** Alan Gernon, 2018-12-01 For years, transfer gossip columns have been Alan Gernon's (author of *Retired: What Happens to Footballers When the Game's Up*) guilty pleasure. Fed up with the time wasted reading them, he explores how many of these rumours are accurate, planted by agents or simply made up - and how easy is it to plant a transfer story in the UK media. Along the way, he discovers how the market works and how a transfer happens; what a move actually means for a typical player in a world where you could buy over 160,000 League Two players for the price of Neymar; and that almost 30 per cent of transferred players worldwide are moved between clubs against their wishes. He also uncovers how to become a football agent overnight, and why British players are reluctant to move abroad. He speaks to players about the pressures and real-life effects of a move, and tries to figure out how much the stars of yesteryear would be worth in today's crazy transfer market - where Premier League clubs spent a record AAGBP1.4 billion in the summer of 2017 alone.

**Deadline Day** Jim White, Kaveh Solhekol, 2023-10-19 WITH AN EXCLUSIVE Q&A BETWEEN JIM AND KAVEH FOR THE AUDIOBOOK 'The best football book of the year. A must-read for anyone who loves football' Harry Redknapp Football used to be a sport. Then it became a business. Now it's a whole industry. For three months every year football clubs buy and sell human beings. People who are so good at their job that others are willing to pay millions and millions of pounds to work with them, and for good reason; the right deal can help you win football's top prizes while the wrong deal can cost you your job and bankrupt your club. It's a fast-paced, at times murky and cutthroat world worth billions - and Jim White and Kaveh Solhekol have been at the heart of it for decades. In *Deadline Day*, Jim and Kaveh, two leading transfer market experts, take us behind the scenes of this uniquely tense and secretive world where the winner takes it all. They uncover what really happens in this game within the game where everything is for sale at the right price. And that's a price that's being paid by some of the richest people and countries on the planet, including billionaire US investors and Gulf states such as Saudi Arabia who have money to burn. Jim reveals what led him into journalism, and specifically what it takes to break the biggest stories and make it in the footballing world. Featuring a colourful cast of iconic players, managers, agents and owners - such as Cristiano Ronaldo, Harry Kane and Sir Alex Ferguson to name a few - Jim recounts some of the most game-changing deals in history, as well as the ones that got away. Perceptive, entertaining and dynamically told, *Deadline Day* addresses some of the big questions facing the game in a definitive, never-before-told inside story of football's transfer window.

**Done Deal** Daniel Geey, 2020-09-08 Whether it is a manager being sacked, the signing of a new star player, television rights negotiations, player misconduct or the million-pound club takeovers, lawyers remain at the heart of all football [soccer] business dealings. Written by leading Premier League lawyer Daniel Geey, who has dealt with all these incidents first hand, this highly accessible book explores the issues - from pitch to boardroom - that shape the modern game and how these impact leagues, clubs, players and fans.

**Football's Secret Trade** Alex Duff, Tariq Panja, 2017-03-29 A no-holds-barred exposé on the financial transactions of the world's favourite sport The transfer fees clubs pay to sign top players now top €4 billion a year but much of the money has been flowing out of the game. A small group of wealthy investors including Russian oligarchs, English racehorse owners and a former billionaire gold miner have seized the opportunity to enter this booming market. Some have moved in on the territory of banks and lent money to clubs in exchange for a share in fees generated by Cristiano Ronaldo, Neymar and dozens more of today's stars. Others have acquired obscure teams to get a piece of the pie. Even as the global financial crisis sent fortunes tumbling this select group found a profitable place to park their money. The size of the transfer market has continued to rise -- it increased seven-fold in value the last two decades, more than the FTSE share index. Between them, these wealthy investors have amassed hundreds of millions of euros in profits. At the same time, they have managed to stay out of the spotlight the world's most popular sport brings. *Football's Secret Trade* follows the money along a trail very few know about, from nondescript offices in the U.K. and ramshackle stadiums of South American clubs you have probably never heard of to offshore bank accounts in the Caribbean. Warning - you won't see a major transfer deal in the same light again.

**How Money Changed Football** PHILIP. WOODS, 2021-05-30 Football is a sport loved all over the world. A game can be traced back to 2500 B.C according to the Greeks, however the sport as we know it now began with the creation of the F.A of England on 26th October 1863. It wasn't long before the professional game began when players from mill towns like Blackburn and Darwen started to sneakily pay players a wage and a transfer fee. Football soon became global and leagues began to be created. The game exploded and has continued to grow until today. There is an uglier side to the game these days, one in which money has become the number one factor. Money at the heart of football has grown at an astonishing rate since the 1980's, or 1979 to be precise, when the first million pound transfer happened in the UK, Trevor Francis moving from Birmingham City to Nottingham Forest. To think that this figure has grown to the staggering 222 million Euro transfer of Neymar from Barcelona to Paris St-Germain in just 38 years is enough to make the eyes water. This book looks at the financial gap in football, from the sad day in 2019 when Bury were thrown out the league to how the likes of Chelsea and Manchester City can spend hundreds of millions assembling a team. It focuses in on clubs who are run in the right way, to those that spend more than they earn and end up like Bury. Financial Fair Play has been bought in, but that hasn't stopped unscrupulous owners flouting the rules. Football is a game that used to be owned by the fans, these days some clubs have become a play thing for rich benefactors. This book does not look to blame people, instead it's here to shed light on how football has become a game based around pound notes instead of those who sing in the stands.
