Danish Dynamite Rob Smyth, Lars Eriksen, Mike Gibbons, 2014-04-24 The story of the coolest international football team in history - the 1980s Danish national team - told for the first time in English. The Denmark side of the 1980s was one of the last truly iconic international football teams. Although they did not win a trophy, they claimed something much more important and enduring: glory, and in industrial quantities. They were a bewitching fusion of futuristic attacking football, effortless Scandinavian cool and laid-back living. They played like angels and lived like you and I, and they were everyone's second team in the mid-1980s. The story of Danish Dynamite, as the team became known, is the story of a team of rock stars in a polyester Hummel kit. Hailing from a country with no real football history to speak of and a population of five million, this humble and likeable team was unique. Everyman off the field and superheroes on it, they were totally of their time, and their approach to the game was in complete contrast to the gaudy excess and charmless arrogance of today's football stars. That they ultimately imploded in spectacular style, with a shocking 5-1 defeat to Spain in the 1986 World Cup in a game that almost everyone expected them to win, only adds to their legend. For the first time in English, Danish Dynamite tells the story of perhaps the coolest team in football history, a team that had it all and blew it in spectacular style after a live-fast-die-young World Cup campaign. Featuring interviews with the players themselves, including

Michael Laudrup, Preben Elkjær and Jesper Olsen, as well as with those who played or managed against them, this is a joyous celebration of one of the most life-affirming teams the world has ever seen.

Football with the Foe Hans Bonde, Martin Frei, 2008 In comparison with sports in other occupied countries, Danish sport had the most widespread collaboration with the Germans during World War II. Football with a Foe shows that the first years of the German occupation of Denmark became a golden age of Danish-German collaborative sports that was far more intense than any period before or since. Banners with the Nazi swastika flew side by side with the Danish flag, while German competitors gave the 'heil' salute accompanied by the Nazi Horst Wesselsong. However, later on, at a match against the Viennese team Admira, the Danish supporters poured scorn on the heel gestures of the guests and attacked uniformed German soldiers among the crowd. The riot at the stadium infuriated the German authorities to a degree that they had the Danish Minister of Justice dismissed. After the war, sport was again used for political purposes, now to demonstrate Denmark's emotional integration in the Allied club, culminating in a sold-out game at

IdrÅ?Å?Å?Å]tsparken on July 10, 1945 between a professional English and a select Danish team in the presence of the British chief commanding officer in Denmark, General Dewing. (In 2007, the Danish version of Football with the Foe was awarded as the Danish history book of the year.)

Improving Gender Equity in Sports Coaching Leanne Norman, 2021-08-12 The sport coaching profession has historically been and continues to be a White male-dominated occupation and this remains a global issue. This imbalance persists despite an improvement in wider social attitudes and legislation towards equality and diversity within many societies, and despite the action by sporting organisations and national governing bodies. Within the research literature, the underrepresentation of women in sport coaching is a well-documented issue with a number of research studies highlighting the experiences and impact of being in the minority for women coaches. The issue of gender inequity in sport coaching is a long-standing one and shows little sign of changing significantly anytime soon. Therefore, a new approach is needed, one that draws on the knowledge and evidence we have to create actionable, sustainable, deep-rooting interventions that challenge the issue of gender equity at its very core. The overall purpose of *Improving Gender Equity in Sports Coaching* is to take an action or forward-thinking approach about what works, or could work, to improve the recruitment, development, or promotion of women sport coaches. The book brings together a global group of esteemed scholars working in this subject area. In this book, we have brought

together not just the insight but also a collection of strategies and recommendations as to how this research could be or has been utilised to make our sport coaching environment places where all coaches feel as though they belong. As such, this ground-breaking book is a must read not just for students and researchers of gender equity in sport but also for policy and decision-makers working in sport.

The Road To Copenhagen David L. Donaghy, 2021-11-02 Hard cover version, this book is based on a true story, when the Wales over 65's Walking Football team entered a World Cup tournament in Copenhagen, Denmark 2021. Seen through the authors eyes, he formed a perception that the squad were all members of a Mafia style family, cleverly inter-mingling fact and fiction. Contains humour and some strong language. A must read for anyone playing walking football.

The Gambia Sean Connolly, Philip Briggs, 2024-01-30 Co-authored by regional expert Sean Connolly and Philip Briggs, the world's foremost guidebook writer on Africa, this third edition of Bradt's The Gambia remains the most comprehensive guide available to mainland Africa's smallest country. This new edition integrates recent developments, from recently opened restaurants and hotels to the new roads and bridges that make circumnavigating the country

easier than ever. The guide provides detailed coverage of ecolodges and camps, information on festivals, music workshops and opportunities to experience local culture, plus advice about birdwatching possibilities in a country popular with first-time birders to Africa. As well as encompassing popular coastal resorts, the guide provides information required to explore the relatively undeveloped interior and proposes excursions into neighbouring Senegal, making it ideal for visitors on organised holidays and independent travellers alike. Bradt's The Gambia reveals all the practical information needed to explore this welcoming and safe country (not for nothing is it nicknamed the 'Smiling Coast') with its plethora of beach resorts, catering to all tastes and budgets, that line the 80km stretch of tropical coastline running from the capital Banjul to the remote southern border. Small in size but rich in character, The Gambia offers perhaps the closest English-speaking 'winter sun' destination from Europe. Justifiably popular with birdwatchers, the lush mangrove- and jungle-fringed River Gambia is also home to crocodiles, hippos, rehabilitated chimpanzees and various monkeys. The Gambia offers rich heritage tourism for moderately adventurous travellers, from the mysterious megalithic stone circles at Wassu and Ker Batch to fortified Kunta Kinteh (James) Island and the former slave-trading village of Juffureh – the heart of novelist Alex Haley's Roots country and part of two UNESCO World Heritage Sites. And why not enhance your visit further by experiencing colourful local markets, witnessing kankurang spirit masquerades or joining a

kayak cruise from the sleepy river port of Janjanbureh, or paying homage to The Gambia's inspiring journey towards democracy and reconciliation at Memory House? All in all, Bradt's The Gambia is the perfect companion for discovering this safe, welcoming and tourist-friendly English-speaking country which provides an ideal short-stay introduction to West Africa's unique atmosphere.
