Imagine if someone took the same photographic techniques, principles, and tools used by high-end and professional photographers, but applied them to shooting with an iPhone. Imagine the type of images you’d be able to create using those same ideas. Well, finally, somebody has.

The world’s #1 best-selling photography techniques author is about to break all the rules as he shows you how to apply the same techniques today’s top pro photographers use to make stunning images. You’re going to learn exactly how to use these techniques to create images that people will just not believe you could actually take with a phone (but with the quality of the iPhone’s camera, you absolutely can!).

You’ll learn:

- Which tools to use to make pro-quality portraits in any lighting situation.
- How to create stunning landscape shots that people will swear you took with an expensive DSLR or mirrorless camera.
- Proven posing techniques that flatter your subject and make anyone you photograph look their very best in every shot.
- How to organize and edit your photos like a pro!
- The pros’ top tips for making amazing shots of everything from flowers to product shots, from food photography to travel shots, and everything in between.

Drawing on vivid testimonies from rural migrant workers, student interns, managers and trade union staff, *Dying for an iPhone* is a devastating expose of two of the world's most powerful companies: Foxconn and Apple. As the leading manufacturer of iPhones, iPads, and Kindles, and employing one million workers in China alone, Taiwanese-invested Foxconn's drive to dominate global electronics manufacturing has aligned perfectly with China's goal of becoming the world leader in technology. This book reveals the human cost of that ambition and what our demands for the newest and best technology means for workers. Foxconn workers have repeatedly demonstrated their power to strike at key nodes of transnational production, challenge management and the Chinese state, and confront global tech behemoths. *Dying for an iPhone* allows us to assess the impact of global capitalism's deepening crisis on workers.'
