Effects of Ecosystem Services Provided by Birds and Bats in Smallholder Cacao Plantations of Central Sulawesi Bea Maas,Teja Tscharntke,Aiyen Tjoa,Shahabuddin Saleh,Nur Edy,Alam Anshary,M. Mahfudz,Muhammad Basir,2018 Cacao agroforestry systems are common in Indonesia, but differences in local management affect biodiversity and related ecosystem services. Importantly, birds and bats alike strongly contribute to biological pest control in cacao, thereby promoting yields and sustainable farming. Our findings from many years of ecological field research, in close collaboration with Indonesian cacao farmers, are summarized and discussed in this bilingual book, written in both English and Indonesian. It is designed to communicate scientific information as well as to facilitate transdisciplinary discussions and more biodiversity-friendly management in tropical agroforestry systems. We consider this book as a tool to improve the collaboration of local communities, farmers and scientists, as well as to improve the application of scientific knowledge in agricultural practice - particularly in tropical land use areas. Bea Maas, the first author of this book, is postdoctoral researcher at the University of Vienna (Austria), working in the fields of biology, ecology and conservation. She conducted the research and workshops presented here in close collaboration and with support from the University of Göttingen (Germany) and the University of Tadulako (Indonesia).

Transnational Convergence of East Asian Pop Culture Seok-Kyeong Hong,Dal Yong Jin,2021-03-08 This book observes and analyzes transnational interactions of East Asian pop culture and current cultural practices, comparing them to the production and consumption of Western popular culture and providing a theoretical discussion regarding the specific paradigm of East Asian pop culture. Drawing on innovative theoretical perspectives and grounded empirical research, an international team of authors consider the history of transnational flows within pop culture and then systematically address pop culture,digital technologies, and the media industry. Chapters cover the Hallyu—or Korean Wave—phenomenon, as well as Japanese and Chinese cultural industries. Throughout the book, the authors address the convergence of the once-separated practical, industrial, and business aspects of popular culture under the influence of digital culture. They further coherently synthesize a vast collection of research to examine the specific realities and practices of consumers that exist beyond regional boundaries, shared cultural identities, and historical constructs. This book will be of interest to academic researchers, undergraduates, and graduate students of Asian media, media studies, communication studies, cultural studies, transcultural communication, or sociology.

Transnational Contexts of Development History, Sociality, and Society of Play S. Austin Lee,Alexis Pulos,2017-01-21 This book examines the historical background of game development, offline and online gamer interactions, and presents a method to study the health impacts of digital games in East Asia. Focusing on examinations of how video games shape external interactions with the world as well as internal spaces, Lee and Pulos' volume brings together a range of approaches and regions to understand the impact of video games in East Asia and beyond. Contributions range from assessments of Nintendo's lasting technological impact in Japan and globally to analyses of mobile social gaming among teenage girls in Korea, with qualitative and quantitative methodologies set in contact with one another to offer a full spectrum of perspectives on video gaming and its profound cultural impact.

Transnational Communities in the Smartphone Age Dae Young Kim,2017-12-20 Transnational Communities in the Smartphone Age: The Korean Community in the Nation's Capital examines the durable ties immigrants maintain with the home country and focuses in particular on their transnational cultural activities. In light of changing technologies, especially information and communication technologies (ICTs), which enable a faster, easier, and greater social and cultural engagement with the home country, this book argues that middle-class immigrants, such as Korean immigrants in the Washington-Baltimore region, sustain more regular connections with the homeland through cultural, rather than economic or political, transnational activities. Though not as conspicuous and contentious as other forms of transnational participation, cultural transnational activities may prove to be more lasting and also serve as a backbone for maintaining longer-lasting connections and identities with the home country.

How to Lead a Badass Business From Your Heart Makenzie Marzluff, 2020-10-30 How To Lead A Badass Business From The Heart is a blueprint for conscious entrepreneurs to bring their business to life in a way that is entirely rooted in the heart. While the old paradigm of business rooted in fear and greed has left most of the spiritual community terrified of capitalism, money, and success, this book grants full permission back to the visionaries and light-workers that are here to restore the heart on our planet through their creations.

The Routledge Handbook of the Gig Economy Immanuel Ness, 2022-10-31 Research on the growth of the precarious economy is of significant interest as the economy increasingly becomes dependent on gig work. However, as platform and automated service work has grown, there remains a chasm in understanding the key aspects of digital labour. This handbook presents comprehensive theoretical, empirical, and historical accounts of the political economy of informal work from the late 20th century to the present. It examines the rich and varied analysis and critique of the informalisation of work, focusing on its most significant theories, intellectual traditions, and authors. It highlights the political, social, cultural, and developmental impact of the deterioration of employment in the Global North and Global South, as well as the extreme threat posed to the planet by the growth of contingent work, poverty, and enduring and increasing inequalities produced and reproduced by the reformation of capitalism in the contemporary age of neoliberal capitalism. The period from the 1980s to the present is marked by the expanded extraction of surplus value from workers through the creation of non-standard jobs and the restructuring of work. A central component of the restructuring of work is the extension of gig employment through the development of algorithmic platforms which direct labourers to perform discrete tasks. This is a definitive collection, representing the primary reference work, contributing to our understanding of the subject. The book

is written and presented in a clear manner, accessible to scholars and researchers of international political economy, labour economics, and sociology who are eager for new research examining this phenomenon, as well as specialists in the field of labour relations. Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license. Slavic on the Language Map of Europe Andrii Danylenko,Motoki Nomachi,2019-10-08

Conceptually, the volume focuses on the relationship of the three key notions that essentially triggered the inception and subsequent realization of this project, to wit, language contact, grammaticalization, and areal grouping. Fully concentrated on the areal-typological and historical dimensions of Slavic, the volume offers new insights into a number of theoretical issues, including

language contact, grammaticalization, mechanisms of borrowing, the relationship between areal, genetic, and typological sampling, conservative features versus innovation, and socio-linguistic aspects of linguistic alliances conceived of both synchronically and diachronically. The volume integrates new approaches towards the areal-typological profiling of Slavic as a member of several linguistic areas within Europe, including SAE, the Balkan Sprachbund and Central European groupings(s) like the Danubian or Carpathian areas, as well as the Carpathian-Balkan linguistic macroarea. Some of the chapters focus on structural affinities between Slavic and other European languages that arose as a result of either grammatical replication or borrowing. A special emphasis is placed on contact-induced grammaticalization in Slavic micro-languages

Self-Publishing In Overseas POD Markets Yeong Hwan Choi,2024-04-13 Often, Amazon comes to mind as a way of self-publishing e-books or paper books overseas. However, when I used international platforms such as Amazon KDP, tens of thousands of copies were posted a day. Likewise, Google Books and Apple Books were the same unless paid marketing was conducted. So I looked into various overseas self-publishing platforms. I started going into the semi-international platforms such as Kobo, Everand, Tolino, Barents & Novele, Overdrive, and SmashWords. And after visiting the Eurozone, South America, India, and Asia, where retailers are connected, I learned how to distribute them overseas. Overseas people use Google, an international search engine, but they do not use Naver. However, for Koreans, the sites such as Naver are public platforms. Likewise, the Eurozone, North America, India, and China each had local platforms distributed in local commercial districts. Even in the Eurozone, North America, and Oceania, it is easy to set up an account with Payonia and PayPal. I think reading this book can save us a lot of time because we have analyzed free/paid, distributed,

platforms that are difficult to inspect depending on the content, and tax issues. It's time for us to earn foreign currency, too.
