Africa's Billionaires Chris Bishop, 2017-07-01 A masterclass in becoming a wealth-generating entrepreneur! Do you have what it takes to become a billionaire? Written by the founder of Forbes Africa, this is a masterclass on how the brightest and most successful entrepreneurs across Africa made their fortunes, as well as a timely look at how the work of entrepreneurs can influence lives in Africa and create the jobs that empty state coffers can no longer afford. Chris Bishop gets up close and personal with the biggest names in business on the continent: Aliko Dangote, Patrice Motsepe, Nicky Oppenheimer, Christo Wiese, Wendy Appelbaum and Stephen Saad, among others. These are the stories of how they not only survived, but thrived, in the fast and furious world of African business: Narendra Raval, the penniless priest who became a steel baron; Tim Tebeila, the barefoot apple-seller who turned into a mining millionaire; Herman Mashaba, the 'knocksman' who went from running dice games and dealing drugs to running a city; Pascal Dozie, the economics student who studied with Mick Jagger ... This is a rich tapestry of stories about the super-wealthy and the qualities that make them so spectacularly successful, in arguably the most challenging economic arena in the world.

The BEE Billionaires Chris Bishop, 2023-02-08 South Africa is in the eye of a slow-building economic storm: junk status, political upheaval, civil unrest, spiralling unemployment, state capture and the fallout from Covid-19. There is no better time to assess the impact of one of the biggest economic experiments in Africa that began a quarter of a century ago: black economic empowerment, or BEE, the legislation-backed effort to transfer wealth to black people and to facilitate their

broader participation in the economy to redress the inequalities created by apartheid. In *The BEE Billionaires*, Chris Bishop gets up close and personal with some of the biggest names in BEE: Sandile Zungu, Gaby Magomola, Sipho Nkosi, Richard Maponya, the Kunene Brothers, Gibson 'Mr Gautrain' Thula, Fred Robertson, Ipeleng Mkhari, Tshepo Mahloele, Tim Tebeila, Linda Mabhena-Olagunju and even President Cyril Ramaphosa. These are the people who made it, who carry the flag for black empowerment. By examining their struggles and the impact of BEE on their successes, Bishop seeks to uncover the ways in which BEE as an upliftment scheme has both succeeded and failed. Because, while BEE has made billionaires of some, it has ruined others and remains one of the most controversial policies born in those first heady days of democracy. There is also a debate over how long the BEE codes should remain. By examining those individuals who have been either shunned or burnt by BEE, as well as various deal facilitators and other key insiders – including the president of South Africa – Bishop hopes to answer one very complex question: Has BEE achieved what it was set up to do, or, in the long term, will it prove more of a hindrance than a help?

Africans and Native Americans Jack D.

Forbes, 1993-03-01 Jack D. Forbes's monumental *Africans and Native Americans* has become a canonical text in the study of relations between the two groups. Forbes explores key issues relating to the evolution of racial terminology and European colonialists' perceptions of color, analyzing the development of color classification systems and the specific evolution of key terms such as black, mulatto, and mestizo--terms that no longer carry their original meanings. Forbes also presents strong evidence that Native American and African contacts began in Europe,

Africa, and the Caribbean.

Africa, 2020-11-26 L'HERITAGE AVANT TOUT ... Face à toute crise, qu'elle soit économique, humanitaire ou sanitaire, l'on peut avoir deux attitudes: subir en restant ancré dans les anciennes méthodes ou, opter d'être de ceux-là qui en tirent des leçons pour instiller de nouvelles normes. Ceci, en repoussant les frontières du possible et en menant les hommes vers de nouveaux destins. Au-delà de l'analyse circonstancielle sur aujourd'hui, cet opus nous invite à ouvrir les pages de demain, à travers une série de questions « existentielles » comprendre l'origine de la crise (1), découvrir ses symptômes les plus insoupçonnés (2), choisir l'état d'esprit à adopter (3) et bien entendu, déterminer l'urgence et enclencher l'action (4). Mr. Africa, « Team Builder » et facilitateur expérimenté, reste fidèle à sa méthode qui s'inspirent des fondamentaux du « Human Design Thinking ». Ce qu'il appelle la méthode « puzzle » vise à établir une réalité selon laquelle nous sommes tous des pièces d'un même puzzle. Africa's Turn? Edward Miguel, 2009-03-13 Signs of hope in sub-Saharan Africa: modest but steady economic growth and the spread of democracy. By the end of the twentieth century, sub-Saharan Africa had experienced twenty-five years of economic and political disaster. While “economic miracles” in China and India raised hundreds of millions from extreme poverty, Africa seemed to have been overtaken by violent conflict and mass destitution, and ranked lowest in the world in just about every economic and social indicator. Working in Busia, a small Kenyan border town, economist Edward Miguel began to notice something different starting in 1997: modest but steady economic progress, with new construction projects, flower markets, shops, and ubiquitous cell phones. In *Africa's Turn?* Miguel tracks a decade of comparably hopeful economic trends throughout sub-Saharan Africa and suggests that we may be seeing a turnaround. He bases his hopes on a range of recent changes: democracy is finally taking root in many countries; China's successes have

fueled large-scale investment in Africa; and rising commodity prices have helped as well. Miguel warns, though, that the growth is fragile. Violence and climate change could derail it quickly, and he argues for specific international assistance when drought and civil strife loom. Responding to Miguel, nine experts gauge his optimism. Some question the progress of democracy in Africa or are more skeptical about China's constructive impact, while others think that Miguel has underestimated the threats represented by climate change and population growth. But most agree that something new is happening, and that policy innovations in health, education, agriculture, and government accountability are the key to Africa's future. Billions at Play NJ Ayuk, 2020-12-15 Wall Street Journal Best Selling Book Two decades of negotiating African oil and gas deals have given NJ Ayuk a grasp of the continent's energy landscape that few can match. The American-educated, African energy lawyer serves up generous doses of that insight in his second book, *Billions at Play: The Future of Africa Energy and Doing Deals*. Serving as a road map for the continent to do a better job of using its vast energy resources to improve its peoples' lives, Ayuk addresses how African countries can use their energy industries as springboards for diversifying and growing their overall economies. In addition, Ayuk shows how African governments and local companies can negotiate better deals with international energy companies and how the continent's countries can use marginal oil and gas fields to develop domestic energy industries that, once strong, will compete globally. Questions posed and answered: Why Africa's fledgling natural gas resources can

allow the continent to emerge as a key global player in the industry. What changes African countries can make in order to become attractive investment destinations. The role that access to reliable, sustainable, and affordable power can play in the acceleration of economic growth. Why and how American energy companies should stop curtailing their investments in Africa. And why the continent's energy industry needs more women. The book's underlying theme is that too often, natural resources create wealth for foreign investors and a select group of African elites while everyday people (and in turn, African economies) fail to benefit. While it is easy to see that there is a lack of local participation in African projects and an ongoing challenge in securing necessary investment, we also need to understand our role in this. We have to understand the importance of creating enabling environments with attractive fiscal terms for local and foreign investors, the role of stronger local content policies in ensuring more local participation in the sector, and the weight government and political uncertainty carries in moving projects forward. "It's up to Africans to fix Africa," writes Ayuk. This statement can be considered a living theme throughout the book as he encourages that local companies and governments have to enter into collaborative agreements rather than passive engagements with IOCs and majors. "[We need] investors who show that they want to fully participate with us, by coming in and building long-term sustainable businesses that last and make a profit, create jobs and further development." If you're ready to dive headfirst into accessing a frank analysis and examination of the African energy landscape and how Africans can begin to fix Africa, jump into the pages of *Billions at Play*. "I agree with the points made—and with Ayuk's case for the critical role that OPEC will play in

helping African oil products achieve a much-deserved voice in the petroleum industry.” —OPEC Secretary-General, H.E. Mohammad Sanusi Barkindo

Steinhoff inside SA's biggest corporate crash James-Brent Styan, 2018-07-18 On 5 December 2017 the Steinhoff group was still worth R199 billion. 24 hours later more than R160 billion of this fortune was wiped out. The Steinhoff empire, that took 20 years to build into an international business giant, had crumbled overnight. Markus Jooste, Steinhoff's flashy CEO, resigned via sms and has since been fleeing an avalanche of scandals and accusations: luxury homes for a blonde mistress, allegations of fraud, racing horses and unparalleled extravagance, a lavish, black Jaguar for an old university residence"} What exactly happened here? Who knew what? What is Steinhoff, who is Markus Jooste and what does it all have to do with the so called Stellenbosch mafia? Where does business tycoon Christo Wiese, Shoprite and Pepkor fit in and where is the pensioners' money? Well-known financial writer James-Brent Styan unpacks these and other questions in this astounding tale of power and greed, of secrets and deceit, and ultimately the biggest financial breakdown in the history of South Africa. Through interviews with trustworthy sources, revelations from confidential documents and in-depth research about Steinhoff's history, Styan uncovers what the group doesn't want you to know. Follow the money: the story of Steinhoff, Markus Jooste and the Stellenbosch boys is a gripping financial thriller that will be told as cautionary tale or salacious scandal in both boardrooms and living rooms for decades to come.

Sweet Medicine Panashe Chigumazi, 2017-04-20 Sweet Medicine takes place in Harare at the height of Zimbabwe's economic woes in 2008. Tsitsi, a young woman, raised by her strict, devout Catholic mother, believes that hard work, prayer and an education will ensure a prosperous and happy future. She does well at her mission boarding school, and goes on to obtain a scholarship to attend university, but the change in the economic situation in Zimbabwe destroys the old system where hard work and a degree guaranteed a good life. Out of university, Tsitsi finds herself in a position much lower than she had set her sights on, working as a clerk in the office of the local politician, Zvobgo. With a salary that barely provides her a means to survive, she finds herself

increasingly compromising her Christian values to negotiate ways to get ahead.
