Africans and Native Americans Jack D. Forbes, 1993-03-01 Jack D. Forbes's monumental Africans and Native Americans has become a canonical text in the study of relations between the two groups. Forbes explores key issues relating to the evolution of racial terminology and European colonialists' perceptions of color, analyzing the development of color classification systems and the specific evolution of key terms such as black, mulatto, and mestizo--terms that no longer carry their original meanings. Forbes also presents strong evidence that Native American and African contacts began in Europe, Africa, and the Caribbean.

Africa's Billionaires Chris Bishop (Journalist), 2017 The inspirational stories of the wealthiest men and women on the African continent. Features Aliko Dangote, Patrice Motsepe and Mohammed Ruparelia, among many others.

This Child Will Be Great Ellen Johnson Sirleaf, 2009-04-07 In January 2006, after the Republic of Liberia had been racked by fourteen years of brutal civil conflict, Ellen Johnson Sirleaf—Africa's Iron Lady—was sworn in as president, an event that marked a tremendous turning point in the history of the West African nation. In this stirring memoir, Sirleaf shares the inside story of her rise to power, including her early childhood; her experiences with abuse, imprisonment, and exile; and her fight for democracy and social justice. This compelling tale of survival reveals Sirleaf's determination to succeed in multiple worlds: from her studies in the United States to her work as an international bank executive to her election campaigning in some of Liberia's most desperate and war-torn villages and neighborhoods. It is also the story of an outspoken political and social reformer who, despite danger, fought the oppression of dictators and championed change. By sharing her story, Sirleaf encourages women everywhere to pursue leadership roles at the highest levels of power, and gives us all hope that, with perseverance, we can change the world.

Sweet Medicine Panashe Chigumazi, 2017-04-20 Sweet Medicine takes place in Harare at the height of Zimbabwe's economic woes in 2008. Tsitsi, a young woman, raised by her strict, devout Catholic mother, believes that hard work, prayer and an education will ensure a prosperous and happy future. She does well at her mission boarding school, and goes on to obtain a scholarship to attend university, but the change in the economic situation in Zimbabwe destroys the old system where hard work and a degree guaranteed a good life. Out of university, Tsitsi finds herself in a position much lower than she had set her sights on, working as a clerk in the office of the local politician, Zvobgo. With a salary that barely provides her a means to

survive, she finds herself increasingly compromising her Christian values to negotiate ways to get ahead. Panashe Chigumadzi is a young and upcoming media executive passionate about creating new narratives that work to redefine and reaffirm African identity. She is the founder and editor of Vanguard Magazine, a platform which aims to speak to the life of young black women coming of age in post-apartheid South Africa. She has previously worked as a TV journalist for CNBC Africa, a columnist for Forbes Woman Africa and a contributor to Forbes Africa. She has been invited to speak at a number of local and international events. In 2013 she became a member of the World Economic Forum's Global Shapers community, a network of young people who strive to make an impact in their communities. Panashe is a 2015 Ruth First Fellow at Wits University.

African Women Kathleen Sheldon, 2017-04-24 African women's history is a topic as vast as the continent itself, embracing an array of societies in over fifty countries with different geographies, social customs, religions, and historical situations. In *African Women: Early History to the 21st Century*, Kathleen Sheldon masterfully delivers a comprehensive study of this expansive story from before the time of records to the present day. She provides rich background on descent systems and the roles of women in matrilineal and patrilineal systems. Sheldon's work profiles elite women, as well as those in leadership roles, traders and market women, religious women, slave women, women in resistance movements, and women in politics and development. African Girl, African Woman Hynd Bouhia, 2021-04-14 An inspiring, motivational and empowering book for all young women around the world, with a particular focus on Africa. Hynd Bouhia highlights throughout the 250 pages the importance of preparing women to embrace the digital transition and to play a central role in that trend and in economic growth. After 20 years of experience first in the US then back to Morocco, in both the private and the public sector, Hynd Bouhia condensed her knowledge and experience in this new book to show how agile, empowered and tech-savvy females will transform the continent for good. Today's African girl will become tomorrow's African woman. Educated, inspired, mentored, trained, and equipped with technology: it is she who will bring wave upon wave of irreversible changes throughout the continent. Positive changes take place as the woman helps the girl discover and know herself, teaches her to explore the reality around her, and shows her, by example, how to develop her own identity and pursue her dreams with confidence. In the book *African Girl, African Woman*, Hynd Bouhia starts by asking several questions that come to mind around why is the African woman still so far behind? Why are her ambitions encouraged, only to be frustrated, her spirit crushed, her future controlled by a system that drags her down? As the rock-solid cornerstone of her society, why is she blamed and shamed for neglecting her family, her work, her community? If she achieves success, why is she mocked and marginalized? The book seeks to address women's fears head on, then offer her a different and more uplifting perspective. *African Girl, African Woman* is a must read that shows how dreams can happen through a solid education, deep-rooted values and tenacious perseverance.

African women, Pan-Africanism and African renaissance Serbin, Sylvia, Rasoanaivo-Randriamamonjy, Ravaomalala, 2015-11-09

Saving the White Lions Linda Tucker, 2013-05-07 In this captivating, suspenseful memoir, white lion conservationist Linda Tucker describes her perilous struggle to protect the sacred white lion from the merciless and mafia-like trophy-hunting industry, armed only with her indomitable spirit and total devotion. Her story begins in 1991 with a heart-stopping misadventure in the Timbavati Reserve of South Africa. Tucker—then a successful advertising executive—and a group of fellow travelers found themselves surrounded by a pride of angry lions. There was no way out, night had fallen, and the battery in their only flashlight was beginning to flicker. Miraculously, a local medicine woman, with two youngsters in tow, passed, trancelike and fearless, through the lions and escorted them all to safety. For Tucker, that life-threatening experience became a life-changing one. She abandoned her career, left Europe, and returned to Timbavati to track down the medicine woman who had saved her: Maria Khosa. Upon seeing Tucker again, Khosa only smiled and said, “What took you so long?” She had been expecting her, and there was so much to do. Under Khosa’s shamanic

tutelage, Tucker learned of her sacred destiny: to be the “keeper of the white lions,” believed to be angelic beings sent to Earth to save humanity at a time of crisis. Khosa also prophesized that the queen of the white lions—the embodiment of the mother of Ra, the sun god—would soon be born, on a day and in a place considered holy by Westerners. On December 25, 2000, in the little South Africa town of Bethlehem, a snowy white lion cub, Marah, was born. From the moment of her first meeting with Marah, Tucker’s story immediately takes off into battle, as she dedicates her every waking moment to prying Marah and her siblings from the grips of the trophy-hunting industry. Compellingly written in the intimate style of a journal, Tucker describes with unflinching honesty her fears, doubts, hopes, and dreams, all the while unfolding for us an unforgettable tale of adventure, romance, spirituality, and most of all, justice.

Medical Apartheid Harriet A. Washington, 2008-01-08 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • The first full history of Black America’s shocking mistreatment as unwilling and unwitting experimental subjects at the hands of the medical establishment. No one concerned with issues of public health and racial justice can afford not to read this masterful book. [Washington] has unearthed a shocking amount of information and shaped it into a riveting, carefully documented book. —New York Times From the era of slavery to the present day, starting with the earliest encounters between Black Americans and Western medical researchers and the racist pseudoscience that resulted, *Medical Apartheid* details the ways both slaves and freedmen were used in hospitals for experiments conducted without their knowledge—a tradition that continues today within some black populations. It reveals how Blacks have historically been prey to grave-robbing as well as unauthorized autopsies and dissections. Moving into the twentieth century, it shows how the pseudoscience of eugenics and social Darwinism was used to justify experimental exploitation and shoddy medical treatment of Blacks. Shocking new details about the government’s notorious Tuskegee experiment are revealed, as are similar, less-well-known medical atrocities conducted by the government, the armed forces, prisons, and private institutions. The product of years of prodigious research into medical journals and experimental reports long undisturbed, *Medical Apartheid* reveals the hidden underbelly of scientific research and makes possible, for the first time, an understanding of the roots of the African American health deficit. At last, it provides the fullest possible context for comprehending the behavioral fallout that has caused Black Americans to view researchers—and indeed the whole medical establishment—with such deep distrust.

African Voices, African Visions Olugbenga Adesida, Arunma Oteh, 2004 Does Africa have a future? What are the visions, hopes, ambitions and fears of young Africans for the future of the world, the continent, their nation, and their communities? How do they envision this world and their roles within it? These issues have not previously been explored collectively by Africans because of the enormous challenges and the preoccupation with the present. But Africa must not allow the enormity of the problems to blind it to its past and future. Africa must chart its own vision of a desirable future, and therefore young Africans, born just before or after independence, were challenged to reflect on the future of the continent. This book presents the response to that challenge. In this book, the voices of a new generation of Africa are heard exploring the future from personal and diverse perspectives. The authors have enumerated the ills of Africa, analyzed the problems and explored the opportunities. Remarkably, despite the daunting nature of the

challenges, they were all hopeful about the future. They provided their visions of the future, suggest numerous ideas on how to build a new Africa, and implored Africans to take responsibility for the transformation of the continent. Given the current emphasis on African renaissance and union, the ideas presented here could become the basis for a truly shared vision for the continent.

Half of a Yellow Sun Chimamanda Ngozi Adichie, 2010-10-29 With her award-winning debut novel, *Purple Hibiscus*, Chimamanda Ngozi Adichie was heralded by the Washington Post Book World as the “21st century daughter” of Chinua Achebe. Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra’s impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo’s beautiful mistress, Olanna, a sociology teacher, is running away from her parents’ world of wealth and excess; Kainene, her urbane twin, is taking over their father’s business; and Kainene’s English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, *Half of a Yellow Sun* is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.

Know Your Value Mika Brzezinski, 2018-09-25 The bestselling motivational guide that TheAtlantic.com calls a rallying cry for women to get the money they deserve. Why are women so often overlooked and underpaid? What are the real reasons men get raises more often than women? How can women ask for--and actually get--the money, the job, the recognition they deserve? Prompted by her own experience as cohost of Morning Joe, Mika Brzezinski asked a wide range of successful women to share the critical lessons they learned while moving up in their fields. Power players such as Facebook's Sheryl Sandberg, Senator Elizabeth Warren, Harvard's Victoria Budson, comedian Susie Essman, and many more shared their surprising personal stories. They spoke candidly about why women are paid less and the pitfalls women face--and play into. Now expanded to address gender dynamics in the #MeToo era, *Know Your Value* blends compelling personal stories with the latest research on why many women don't negotiate their compensation, why negotiating aggressively usually backfires, and what can be done about it. For any woman who has ever wondered if her desire to be liked can be a liability (yes), if there is a way to reclaim her contribution after it's been co-opted in a meeting (yes), and if there are strategies men use to get ahead that women should too (yes!), *Know Your Value* provides vital advice to help women be their own best advocates.
