Landscape Facets Council of Europe,2012-01-01 The European Landscape Convention was adopted under the auspices of the Council of Europe with the aim of promoting the protection, management and planning of European landscape and organising European co-operation in this area. It is the first international treaty covering all aspects of landscape. It applies to the entire territory of the contracting parties and covers natural, rural, urban and peri-urban areas. It concerns landscapes that might be considered outstanding, commonplace or deteriorated. The convention represents an important contribution to achieving the Council of Europe's objectives, namely to promote democracy, human rights and the rule of law, as well as to seek common solutions to the main problems facing European society. By taking into account landscape, culture and nature, the Council of Europe seeks to protect the quality of life and well-being of Europeans in a sustainable development perspective.

Branded Male Mark Tungate,2008-02-03 The male market is exploding. Thanks to emerging social and cultural trends, men are becoming consumers to reckon with. In 1990 only 4% of men claimed to regularly use a skin care product. By

2015 the figure will have risen to 50%. Branded Male discusses the evolution of the male consumer and the desire of marketers to tap into the still underdeveloped male market. Crammed with facts and anecdotes, it analyzes how to effectively brand products and services for the male market. Using a typical modern male's weekday as a template and examining all the influences affecting him, Branded Male considers his exposure to brands and the ways marketers can exploit these channels, taking you through popular strategies for marketing to men. In his trademark style, Mark Tungate paints a portrait of the male consumer. From razor blades to beer, from aftershave to hotels, he finds out which marketing messages have the most impact on male wallets. Men's bank balances may never be the same again.

A Short History of Drunkenness Mark Forsyth, 2018-05-08 From the internationally bestselling author of *The Etymologicon*, a lively and fascinating exploration of how, throughout history, each civilization has found a way to celebrate, or to control, the eternal human drive to get sloshed "An entertaining bar hop through the past 10,000 years."—*The New York Times Book Review* Almost every culture on earth has drink, and where there's drink there's drunkenness. But in every age and in every place drunkenness is a little bit different. It can be religious, it can be sexual, it can be the duty of kings or the relief of peasants. It can be an offering to the ancestors, or a way of marking the end of a day's work. It can send you to sleep, or send you into battle. Making stops all over the world, *A Short*

History of Drunkenness traces humankind's love affair with booze from our primate ancestors through to the twentieth century, answering every possible question along the way: What did people drink? How much? Who did the drinking? Of the many possible reasons, why? On the way, learn about the Neolithic Shamans, who drank to communicate with the spirit world (no pun intended), marvel at how Greeks got giddy and Sumerians got sauced, and find out how bars in the Wild West were never quite like in the movies. This is a history of the world at its inebriated best.

Rugged Road Theresa Wallach, 2007-08-01 London to Cape Town overland by Panther and sidecar, pulling a trailer. No roads, no backup -- just straight across the Sahara through equatorial Africa, and South to the Cape -- in 1935, without even a compass! This is quite simply the most incredible Panther journey ever! Undeterred by nomads, sand drifts, heat, rain, rivers, breakdowns and politics, Theresa Wallach and Florence Blenkiron completed a journey that might well defeat a modern bike. From oasis to oasis arguing with the French Foreign Legion for permission to continue, and winning; fashioning a tow hitch for the trailer when it broke in the desert; rebuilding the entire engine from scratch in Agadez; meeting gorillas, lions and snakes on the road, staying in African villages and meeting an amazing variety of friendly and helpful people. Not to mention having an accident in Tanganyika (Tanzania) with the only car seen on the road for days!

Geopolitical Alpha Marko Papic, 2020-10-15 Forecast geopolitics and markets

with this clear and insightful resource Geopolitical Alpha – An Investment Framework for Predicting the Future provides readers with an original and compelling approach to forecasting the future and beating the markets while doing so. Persuasively written by author, investment strategist, and geopolitical analyst Marko Papic, the book applies a novel framework for making sense of the cacophony of geopolitical risks with the eye towards generating investment-relevant insights. Geopolitical Alpha posits that investors should ignore the media-hyped narratives, insights from smoke-filled rooms, and most of their political consultants and, instead, focus exclusively on the measurable, material constraints facing policymakers. In the tug-of-war between policymaker preferences and their constraints, the latter always win out in the end. Papic uses a wealth of examples from the past decade to illustrate how one can use his constraint-framework to generate Geopolitical Alpha. In the process, the book discusses: What paradigm shifts will drive investment returns over the next decade Why investment and corporate professionals can no longer treat geopolitics as an exogenous risk How to ignore the media and focus on what drives market narratives that generate returns Perfect for investors, C-suite executives, and investment professionals, Geopolitical Alpha belongs on the shelf of anyone interested in the intersection of geopolitics, economics, and finance.

Inventions: A Visual Encyclopedia DK, 2018-07-10 Discover the amazing inventions throughout history that have shaped the world as we know it. This

stunning visual guide explores and explains the greatest inventions, ideas, and discoveries throughout the ages, and introduces their inventors. From fire, stone tools, and the wheel to ploughs and paper, discover the first inventions that shaped societies and grew mighty civilizations and empires such as those in ancient Greece, ancient Rome, and ancient China. In the centuries that followed, Eureka moments abounded, with James Watt's steam engine during the Industrial Revolution, Henry Ford's car assembly line at the start of the 20th century, the Wright brothers' flying machines, Thomas Edison's light bulb, John Logie Baird's television, and so much more. Read about era-defining moments during the Digital Revolution, such as the first website developed by Tim Berners-Lee, and the growth in the use of robotics in industry and at home. Inventions: A Visual Encyclopedia reveals the stories behind the crucial and quirky contraptions - products of the world's most brilliant minds.

Spinoff Innovative Partnerships Program 2009 National Aeronautics and Space Administration, Innovative Partnerships Program (U S), NASA Center for AeroSpace Information (U.S.), 2009-11 Provides an in-depth look at how NASA's initiatives in aeronautics and space exploration have resulted in beneficial commercial technologies in the fields of health and medicine, transportation, public safety, consumer goods, environmental protection, computer technology and industrial productivity.

Potentially Critical Materials Russell J. Foster, 1988

McQueen's Machines Matt Stone,2010-11-06 No other Hollywood star has been so closely linked with cars and bikes, from the 1968 Ford Mustang GT Fastback he drove in Bullitt (in the greatest car chase of all time) to the Triumph motorcycle of The Great Escape. *McQueen's Machines* gives readers a close-up look at the cars and motorcycles McQueen drove in movies, those he owned, and others he raced. With a foreword by Steve's son, Chad McQueen, and a wealth of details about of the star's racing career, stunt work, and car and motorcycle collecting, *McQueen's Machines* draws a fascinating picture of one oversized man's driving passion. Now in paperback.

Swell LIZ. CLARK,2024-05-14

Motorcycle Dynamics Vittore Cossalter,2006 The book presents the theory of motorcycle dynamics. It is a technical book for the engineer, student, or technically/mathematically inclined motorcycle enthusiast. *Motorcycle Dynamics* offers a wealth of information compiled from the most up-to-date research into the behavior and performance of motorcycles. The structure of the book and abundant graphs assist in understanding an exceptionally complicated subject. The book presents a large number of graphs and figures that make the understanding easy.

Sustainability Assessment of Urban Systems Claudia R. Binder,Romano Wyss,Emanuele Massaro,2020-03-26 Our world is becoming more urban. More than fifty percent of the global population now lives in cities, which poses new challenges for sustainable development. This book integrates theory and

methods of sustainability assessment with concepts from systems science to provide guidelines for assessing the sustainability of urban systems. It discusses different aspects of urban sustainability, from energy and housing, to mobility and health, covering social, economic and environmental factors, as well as the various stakeholders and actors involved. The book argues for the need to find models and solutions in order to design sustainable cities of the future in light of the complexity of urban social life. Including diverse case studies from the developed and developing world, this book provides a useful reference for researchers and students from a broad range of disciplines working in the field of sustainability, as well as for environmental consultants and policy makers.

McQueen's Motorcycles Matt Stone, 2017-01-15 The long-departed Steve McQueen is still the coolest man on two wheels. Get an intimate look at his coolest bikes right here, right now, in *McQueen's Motorcycles*. Even thirty years after his death, Steve McQueen remains a cultural icon. His image continues to appear in advertising and pop culture and his fan base spans from car lovers to racing enthusiasts to motorcycle obsessives. In his movies, McQueen's character always had an envy-inducing motorcycle or car, but in his personal life, motorcycles were always McQueen's first true love. *McQueen's Motorcycles* focuses on the bikes that the King of Cool raced and collected. From the first Harley McQueen bought when he was an acting student in New York to the Triumph desert sleds and Huskys he desert raced all over

California, Mexico, and Nevada, McQueen was never without a stable of two wheelers. His need for speed propelled him from Hollywood into a number of top off-road motorcycle races, including the Baja 1000, Mint 400, Elsinore Grand Prix, and even as a member of the 1964 ISDT team in Europe. Determined to be ahead of the pack, McQueen maintained his body like it was a machine itself. He trained vigorously, weight lifting, running, and studying martial arts. Later in his life, as he backed away from Hollywood, his interests turned to antique bikes and he accumulated an extensive collection, including Harley-Davidson, Indian, Triumph, Brough Superior, Cyclone, BSA, and Ace motorcycles. Today, McQueen still has the Midas touch; anything that was in the man's possession is a hot commodity. McQueen's classic motorcycles sell for top dollar at auctions, always at a multiple of what the same bike is worth without the McQueen pedigree. McQueen's Motorcycles reveals these highly sought-after machines in gorgeous photography and full historical context.
