Street Art Santiago Chile Lord K2, 2015 Santiago, with its deeply evolved and extremely active underground graffiti scene, bursts at the seams with an abundance of eye-popping, jaw-dropping murals. Stencil graffiti artist Lord K2 documents 14 neighborhoods within the capital of Chile with his arresting photography and intimate conversations with local artists. Through more than 200 images and 80 interviews, learn how street art was influenced by American, European, and Brazilian graffiti and how its evolution runs parallel to the political history of the nation itself. During the Cold War, nationalist muralist brigades spread socialist idealism through symbols of power and oppression. Santiago's repressed lower classes gradually usurped the art form, and murals eventually became a weapon of resistance. This vibrant city, with its array of distinct cultural districts, now invites you to experience its fascinating and tightly knit artistic community that has flourished since the fall of Pinochet's dictatorship in 1990.

This guide features concise, identification-focused text positioned opposite the superb colour plates to allow quick and easy reference. Detailed distribution maps are provided for every species, completing the essential field guide to the birds of this spectacular and tourist-friendly country.

Han Sungpil, 2017 In his works of art the Korean photographer Han Sungpil confronts the themes of environment, energy production, and humankind's impact on nature. The three series in this book of photographs are distinguished by their surprising perspective, which goes beyond the visual vocabulary normally found in environmental documentations. Whether it's a painterly French landscape featuring nuclear power plants, presented as a scene of idyllic perfection, or a search for the relics of whale hunting and coal mining in the Arctic and Antarctic, Sungpil's photographs tell, artfully and critically, of nature's sublimity and humankind's overexploitation of it. Photographs of abandoned trawlers, whaling stations, and industrial ruins set in front of monumental, ice-covered landscapes shift the focus to the exploitation of ecological resources, leaving the viewer speechless. Sungpil was awarded the Ilwoo Foundation's first prize for his moving works of art. Exhibition: 27.4.-15.6-2017, Ilwoo Space, Seoul

The Command to Look William Mortensen, George Dunham, 2014-09-29 The Command to Look was one of William Mortensen's most influential and sought-after books, and has been out of print for fifty years. Reproduced here in full, this book includes an essay by Michael Moynihan on how its images influenced the occult lesser magic of the founder of the Church of Satan, Anton Szandor LaVey. The book reproduces fifty-five images of Mortensen's best work and text by the wittiest and most biting writers on photography of their time.

Sport in Soviet Society James Riordan, 1977 This book examines the evolution of sport in Russia from its association with health and hygiene to its post-war purpose of raising Soviet prestige abroad.

Exposed Bryan Adams, 2012 In the late 1990s Bryan Adams became curious about making photographic self-portraits for his album covers, and so chose to pick up the camera himself. That serendipitous decision was the beginning of a successful photographic career, parallel to Adams' impressive achievements as a singer, songwriter and producer. *Exposed* is a retrospective of Adams' photography and features portraits of friends and colleagues in the entertainment, fashion and art industries, including Morrissey, Ben Kingsley, Amy Winehouse, Michael Jackson, Louise Bourgeois, Lindsay Lohan and Judi Dench. This book, Adams' first comprehensive monograph, exposes not only unknown facets of his subjects but also the depth of Adams' photographic faculty.

Leni Riefenstahl and Olympia Cooper C. Graham, 2001 The author relates the film's subsequent history against the background of the worsening political situation in Europe. The events leading up to World War II were to have a profound effect on the future of the film. Aside from the political issues, the book describes the fascinating story of the making of an epic film.

The Intimate Expanse Lisa Kristine, 2017-09-12 This evocative compilation of photographs depicts people existing within landscapes from all over the world. Acclaimed humanitarian photographer Lisa Kristine commemorates the awe-inspiring vastness of nature, juxtaposing it with the small, ordinary moments of people's lives. From the Great Sahara's indigo-swathed Tuareg nomads traversing the desert via traditional caravan, to the majestic ruin of Machu Picchu jutting up from the Andean peaks, to the ethereal River Li in China, where fishermen

still train birds to help them hunt, as they have done for generations. At once a celebration of wonderful diversity and a sensitive perspective on the human relationship with the environment, *The Intimate Expanse* invites you, page by page, on a boundless journey of discovery that is as captivating as it is unforgettable.

615 Jefferson Avenue David Armstrong, Manuel Segade, Boyd Holbrook, 2011 The images are romantic but far from erotic. They have a timeless quality, the models awash in sunlight and dressed in variety of corsets, military garb and, of course, tulle - anything but modern.

The Archaeology of the Olympics Wendy J. Raschke, 1988 The *Archaeology of the Olympics* presents a stirring reevaluation of the Olympic Games (and related festivals) as they actually were, not as the ancient Greeks wished—and we still wish—they might have been. Historians, archaeologists, and classicists examine the evidence to ask such questions as, How did the athletes train? What did they eat? Can we trace the roots of the games as far back as the Bronze Age of Crete and Mycenae? Or even to Anatolia, where similar athletic activities occurred? Were the ancient games really so free of political overtones as modern Olympic rhetoric urges us to believe?
