Sin miedo al retrato José Antonio Fernández, 2020-12-18 José Antonio Fernández, autor del exitoso libro Sin miedo al flash, ya en su 6a edición, nos ofrece ahora una obra que aborda en profundidad los aspectos fundamentales del retrato, como son la iluminación y la pose. esta completa guía muestra también, con numerosos ejemplos, los ángulos de toma y los diferentes planos fotográficos, así como la composición en el arte de la fotografía de personas. Se incluyen además una gran variedad de sesiones fotográficas comentadas con esquemas de iluminación y dirección de pose, junto con las explicaciones de los detalles más relevantes. después de la lectura de esta obra, dominarás todos los secretos de un buen retrato. El autor de Sin miedo al retrato es un reconocido fotógrafo profesional, coordinador y profesor del Área de iluminación de la escuela de Fotografía la máquina. Su obra gráfica ha sido premiada en numerosos certámenes internacionales y, en siete ocasiones, en los Premios lux (Premios nacionales de Fotografía Profesional).

Colombiana Mariana Velásquez, 2021-06-15 NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY REAL SIMPLE “I have never read a more passionate and heartfelt expression of Colombian culture and cuisine in English. I’ve been waiting for years for a book like this to come out.” –J. Kenji López-Alt, New York Times bestselling author of The Food Lab A recipe developer and food stylist—whose work has taken her across the globe to work with clients like Michelle Obama and into the test kitchens of today’s most esteemed culinary publications—pays homage to her native country with this vibrant, visually stunning cooking, the first dedicated solely to Colombian food, featuring 100 recipes that meld the contemporary and the traditional. To Mariana Velásquez, a native of Bogotá, the diverse mix of heritages, cultures, and regions that comprise Colombian food can be summed up in one simple concept: More is more. No matter what rung of society, Colombians feed their guests well, and leave them feeling nourished in body and soul. In Colombiana, the award-winning recipe developer and food stylist draws on the rich culinary traditions of her native land and puts her own modern twist on dishes beloved by generations of Colombians. Here are recipes for classics such as arepas and empanadas, as well as “Colombian-ish” recipes like Lomito de Cerdo al Tamarindo y Menta (Tamarind Pork Tenderloin with Mint), Gazpacho de Papaya y Camarón Tostado (Spicy Papaya and Charred Shrimp Gazpacho), and Cuchuco de Trigo con Pollito y Limón (Lemony Bulgur Farmer’s Chicken Soup). In addition to offering a unique perspective on Colombian food, Mariana shares the vibrant style of Colombian tablescapes and entertaining. For her, the best meals are never simply about the food on the table—they are an alchemy of atmosphere, drinks, and simple snacks and sweets that complete the experience and make it memorable. Rich with culture and stories as well as one-of-a-kind recipes and stunning photography, Colombiana is a gastronomic excursion that reminds us of the power of food to keep tradition alive.

The International Handbook of Teacher Ethos Fritz Oser, Karin Heinrichs, Johannes Bauer, Terence Lovat, 2021-08-05 This volume is the first handbook that brings together cutting-edge international research on teacher ethos from a broad array of disciplines. The main focus will be on research that illustrates current conceptualizations of ethos and its importance for acting effectively and responsibly in and out of the classroom. Research will encompass updated empirical and philosophical work that points to the difference in learning when teaching is practised as a moral activity instead of a merely functional one. Authors are among the world’s foremost researchers whose work crosses over from moral education into psychology, neuroscience, sociology, philosophy, pedagogy, and curriculum, drawing on these various fields of research. Today, more than ever, we

understand that teachers, like other professionals, need more than subject-matter expertise for acting responsibly and doing their best in their daily duties. Doing so requires possessing a guiding system of professional ethics, moral positioning, goals, norms, and values – in other words: a professional ethos. While the handbook concentrates on Western domains in the current era, the work will extend to other cultures and times as well. With this comprehensive range of perspectives, the book will be attractive and useful for researchers on teachers and teaching as well as for teacher educators, curriculum designers, educational officials, and, last-but-not-least, anyone who is interested in what makes a good teacher. This volume is also a tribute to Fritz Oser, a leading scholar in research on ethos, who sadly passed-away during the compilation of this handbook.

SIDA, Botanical Miscellany ,1994

Handbook of Social Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region. It examines the developments of the past twenty years, such as a renewed upswing in popular mobilization, the ending of violent conflicts and military governments, new struggles and a relatively more democratic climate. It shows that, from southern Chiapas to Argentina, social movements in the 1990s and especially in the 2000s, have reached new heights of popular participation. There is a lack of research on the politics of this region in the contemporary era of globalization, this volume partially fills the void and offers a rich resource to students, scholars and the general public in terms of understanding the politics of mass mobilization in the early twenty-first century. The contributors each address social movement activity in their own nation and together they present a multidisciplinary perspective on the topic. Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggle(s), for instance the main protagonists in the campaigns, the grievances of the population and the outcomes of the struggles. This Handbook is divided into seven substantive themes, providing overall coherence to a broad range of social conflicts across countries, issues and social groups. These themes include: 1) theory of Latin American social movements; 2) neoliberalism; 3) indigenous struggles; 4) women's movements; 5) movements and the State; 6) environmental movements; and 7) transnational mobilizations.

Painting the Skin Élodie Dupey García, María Luisa Vázquez de Ágredos Pascual, 2019-06-11 Mesoamerican communities past and present are characterized by their strong inclination toward color and their expert use of the natural environment to create dyes and paints. In pre-Hispanic times, skin was among the preferred surfaces on which to apply coloring materials. Archaeological research and historical and iconographic evidence show that, in Mesoamerica, the human body—alive or dead—received various treatments and procedures for coloring it. *Painting the Skin* brings together exciting research on painted skins in Mesoamerica. Chapters explore the materiality, uses, and cultural meanings of the colors applied to a multitude of skins, including bodies, codices made of hide and vegetal paper, and even building “skins.” Contributors offer physicochemical analysis and compare compositions, manufactures, and attached meanings of pigments and colorants across various social and symbolic contexts and registers. They also compare these Mesoamerican colors with those used in other ancient cultures from both the Old and New Worlds. This cross-cultural perspective reveals crucial similarities and differences in the way cultures have painted on skins of all types. Examining color in Mesoamerica broadens understandings of Native religious systems and world views. Tracing the path of color use and meaning from pre-Columbian times to the present allows for the study of the preparation, meanings, social uses, and thousand-year origins of the coloring materials used by today's Indigenous peoples. Contributors: María Isabel Álvarez Icaza Longoria Christine Andraud Bruno Giovanni Brunetti David Buti Davide Domenici Élodie Dupey García Tatiana Falcón Álvarez Anne Genachte-Le Bail Fabrice Goubard Aymeric Histace Patricia Horcajada Campos Stephen Houston Olivia Kindl Bertrand Lavédrine Linda R. Industrias creativas Sandra Beatriz Sánchez López,José Carlos Vázquez Parra,Jimena Zuluaga Trujillo,2022-04-01 Las industrias creativas en América Latina están en auge. A pesar de que la creatividad, la producción y la creación de valor en países como México y Colombia son un motor poderoso para el producto interno bruto, el porcentaje de representación de las mujeres en este sector de la economía sigue siendo un gran reto. Por este motivo, el presente libro, resultado de la colaboración entre investigadores de la Universidad de los Andes y el Tecnológico de Monterrey, estudia emprendimientos de mujeres en la región; reúne testimonios de empoderamiento femenino en industrias tales como el cine, la fotografía, la edición y la moda, entre otros; y muestra el camino para las nuevas generaciones que trabajarán por conseguir mejores oportunidades y condiciones.

RIAO/OPTILAS 2004 ,2004

The Sports Encyclopedia: Baseball 2004 David S. Neft,Richard M. Cohen,Michael L. Neft,2004-02-17 Stats, history, and trivia -- from the 1901 through the 2003 season -- are all included in the latest edition of this popular, low-priced reference book.

Digital Image Forensics Husrev Taha Sencar,Nasir Memon,2012-08-01 Photographic imagery has come a long way from the pinhole cameras of the nineteenth century. Digital imagery, and its applications, develops in tandem with contemporary society's sophisticated literacy of this subtle medium. This book examines the ways in which digital images have become ever more ubiquitous as legal and medical evidence, just as they have become our primary source of news and have replaced paper-based financial documentation. Crucially, the contributions also analyze the very profound problems which have arisen alongside the digital image, issues of veracity and progeny that demand systematic and detailed response: It looks real, but is it? What camera captured it? Has it been doctored or subtly altered? Attempting to provide answers to these slippery issues, the book covers how digital images are created, processed and stored before moving on to set out the latest techniques for forensically examining images, and finally addressing practical issues such as courtroom admissibility. In an environment where even novice users can alter digital media, this authoritative publication will do much so stabilize public trust in these real, yet vastly flexible, images of the world around us.

Index Medicus ,2004 Vols. for 1963- include as pt. 2 of the Jan. issue: Medical subject headings.

Advanced Oxidation Processes for Micropollutant Remediation Mohammad Khalid,Yuri Park,Rama Rao Karri,Rashmi Walvekar,2023-08-17 Advanced Oxidation Processes for Micropollutant Remediation covers current state-of-the-art in advanced oxidation processes (AOP) for removal of micropollutants from industrial and pharmaceutical wastewater. It covers various AOP-based techniques like Fenton process, ozonation, hydrogen peroxide, ultraviolet radiation, electrochemical oxidation, ultrasonic irradiation, and other hybrid technologies. It focuses on aspects like impact of micropollutants on the ecosystems, different types of AOPs, their principles, applications, and challenges in implementing these techniques and their future perspectives. Features: Presents state-of-the-art in advanced oxidation processes (AOP) techniques along with hybrid technologies Covers latest advances in technological know-how for remediation of wastewater soiled with micropollutants Discusses pressing environmental pollution issues associated with AOPs needed for wastewater remediation Presents future perspective as well as techno-economic analysis in implementing various AOPs Reviews strategies to limit the micropollutants in water bodies This book is aimed at graduate students and researchers in chemical and industrial engineering, environmental science, and wastewater treatment.

Anuario empresarial de Colombia ,1988

The Case for Marriage Linda Waite,Maggie Gallagher,2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all

human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com
