Photography in Argentina Idurre Alonso, Judith Keller, 2017-09-15 From its independence in 1810 until the economic crisis of 2001, Argentina has been seen, in the national and international collective imaginary, as a modern country with a powerful economic system, a massive European immigrant population, an especially strong middle class, and an almost nonexistent indigenous culture. In some ways, the early history of Argentina strongly resembles that of the United States, with its march to the prairies and frontier ideology, the image of the cowboy as a national symbol (equivalent to the Argentine gaucho), the importance of the immigrant population, and the advanced and liberal ideas of the founding fathers. But did Argentine history truly follow a linear path toward modernization? How did photography help shape or deconstruct notions associated with Argentina? *Photography in Argentina* examines the complexities of this country's history, stressing the heterogeneity of its realities, and especially the power of constructed photographic images—that is, the practice of altering reality for artistic expression, an important vein in Argentine photography. Influential specialists from Argentina have contributed essays on various topics, such as the shaping of national myths, the adaptation of gesture as related to the “disappeared” during the dictatorship period, the role of contemporary photography in the context of recent sociopolitical events, and the reinterpreting of traditional notions of documentary photography in Argentina and the rest of Latin America.

From Bauhaus to Buenos Aires Roxana Marcoci, Museum of Modern Art (New York, N.Y.), 2015 Published to accompany the first museum exhibition in the United States of the work of German-born Grete Stern and Argentinean Horacio Coppola, *From Bauhaus to Buenos Aires* explores the individual accomplishments and parallel developments of two of the foremost practitioners of avantgarde photography in Europe and Latin America. The book traces their artistic development from the early 1930s, when the two met in Berlin at the Bauhaus, through the mid-1950s, by which time they had firmly established the foundations of modern photography in Buenos Aires. While twentieth-century photography has a fair number of important teams, Stern and Coppola are unique in that they managed to share their avant-garde ambition while maintaining their autographic styles and individual practices. The couple effectively imported the lessons of the Bauhaus to Latin America, and revolutionized the practice of art and commercial photography on both sides of the Atlantic by introducing such innovative techniques as photomontage, embodied in Stern's protofeminist works for the women's journal *Idilio*, and through Coppola's experimental films and groundbreaking images for the photographic survey *Buenos Aires 1936*. Featuring a selection of newly translated original texts by Stern and Coppola, and essays by curators Roxana Marcoci and Sarah Meister and scholar Jodi Roberts, *From Bauhaus to Buenos Aires* is the first publication in English to examine the critical intersections that defined the notable careers of these two influential artists.

Buenos Aires Across the Arts Eleni Kefala, 2022-03-29 By 1920 Buenos Aires was the largest and most cosmopolitan city of Latin America due to mass immigration from Europe in the previous decades. Unbridled urban expansion had drastic effects on the social and cultural topography of the Argentine capital, raising ideological and aesthetic issues that shaped the modernist landscape of the country. Artists across disciplines responded to these changes with conflicting depictions of urban space. Centering these conflicts as a cognitive map of modernity's new realities in the city, *Buenos Aires across the Arts* looks at the interaction between modernity and modernism in literature, photography, film, and painting during the interwar period. This was a time of profound change and heightened cultural activity in Argentina. Eleni Kefala analyzes works by Jorge Luis Borges, Oliverio Girondo, José Ferreyra, Xul Solar, Roberto Arlt, and Horacio Coppola, with a focus on the city of Buenos Aires as a playground of modernity.

Cubism and the Trompe l'Oeil Tradition Emily Braun, Elizabeth Cowling, 2022-10-17 The age-old tradition of pictorial illusionism known as *trompe l'oeil* (“deceive the eye”) employs visual tricks that confound the viewer's perception of reality and fiction, truth and falsehood. This radically

new take on Cubism shows how Pablo Picasso, Georges Braque, and Juan Gris both parodied and paid homage to classic trompe l'oeil themes and motifs. The authors connect Cubist works to trompe l'oeil specialists of earlier centuries by juxtaposing more than one hundred Cubist paintings, drawings, and collages with related compositions by old masters. The informed and engaging texts trace the changing status of trompe l'oeil over the centuries, reveal Braque's training in artisanal trompe l'oeil techniques as an integral part of his Cubist practice, examine the material used in Gris's collages, and discuss the previously unstudied trompe l'oeil iconography within Cubist still lifes.

In his ongoing attempt to write about a life defined by cultural experiences, Messerli delves deep into the cultural events, both popular and literary, he was witness to during his lifetime.'

Francis Ford Coppola Miguel Juan Payán, 1992 Francis F. Coppola es, sin duda, una de las figuras básicas del cine contemporáneo. Dotado de una personalidad propensa al egocentrismo y de un insaciable afán de notoriedad que le ha llevado a convertirse en uno de los ejemplos del cineasta que lucha por su independencia dentro del sistema, es un símbolo de las pesadillas que pueden llegar a engendrar los sueños de celuloide.
