Samsung Rising Geoffrey Cain, 2020-03-17 An explosive exposé of Samsung that “reads like a dynastic thriller, rolling through three generations of family intrigue, embezzlement, bribery, corruption, prostitution, and other bad behavior” (The Wall Street Journal). **ONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD** Based on years of reporting on Samsung for The Economist, The Wall Street Journal, and Time, from his base in South Korea, and his countless sources inside and outside the company, Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows. Seen for decades in tech circles as a fast follower rather than an innovation leader, Samsung today has grown to become a market leader in the United States and around the globe. They have captured one quarter of the smartphone market and have been pushing the envelope on every front. Forty years ago, Samsung was a rickety Korean agricultural conglomerate that produced sugar, paper, and fertilizer, located in a backward country with a third-world economy. With the rise of the PC revolution, though, Chairman Lee Byung-chul began a bold experiment: to make Samsung a major supplier of computer chips. The multimillion-dollar plan was incredibly risky. But Lee, wowed by a young Steve Jobs, who sat down with the chairman to offer his advice, became obsessed with creating a tech empire. And in *Samsung Rising*, we follow Samsung behind the scenes as the company fights its way to the top of tech. It is one of Apple’s chief suppliers of technology critical to the iPhone, and its own Galaxy phone outsells the iPhone. Today, Samsung employs over 300,000 people (compared to Apple’s 80,000 and Google’s 48,000). The company’s revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea’s exports. Yet their disastrous recall of the Galaxy Note 7, with numerous reports of phones spontaneously bursting into flames, reveals the dangers of the company’s headlong attempt to overtake Apple at any cost. A sweeping insider account, *Samsung Rising* shows how a determined and fearless Asian competitor has become a force to be reckoned with.

English Prepositions Explained Seth Lindstromberg, 2010-08-11 This completely revised and expanded edition of *English Prepositions Explained* (EPE), originally published in 1998, covers approximately 100 simple, compound, and phrasal English prepositions of space and time – with the focus being on short prepositions such as at, by, in, and on. Its target readership includes teachers of ESOL, pre-service translators and interpreters, undergraduates in English linguistics programs, studious advanced learners and users of English, and anyone who is inquisitive about the English language. The overall aim is to explain how and why meaning changes when one preposition is swapped for another in the same context. While retaining most of the structure of the original, this edition says more about more prepositions. It includes many more figures – virtually all new. The exposition draws on recent research, and is substantially founded on evidence from digitalized corpora, including frequency data. EPE gives information and insights that will not be found in dictionaries and grammar handbooks.

Duck for President Doreen Cronin,2012-06-12 From the New York Times bestselling creators of Click, Clack, Moo, comes an entertaining introduction to politics. My fellow Americans: It is our pleasure, our honor, our duty as citizens to present to you Duck for President. Here is a duck who began in a humble pond. Who worked his way to farmer. To governor. And now, perhaps, to the highest office in the land. Some say, if he walks like a duck and talks like a duck, he is a duck. We say, if he walks like a duck and talks like a duck, he will be the next president of the United States of America. Thank you for your vote.

The Apple Grower Michael Phillips, 2005 For decades fruit growers have sprayed their trees with toxic chemicals in an attempt to control a range of insect and fungal pests. Yet it is possible to grow apples responsibly, by applying the intuitive knowledge of our great-grandparents with the fruits of modern scientific research and innovation. Since *The Apple Grower* first appeared in 1998, orchardist Michael Phillips has continued his research with apples, which have been called organic's final frontier. In this new edition of his widely acclaimed work, Phillips delves even deeper into the mysteries of growing good fruit with minimal inputs. Some of the cutting-edge topics he explores include: The use of kaolin clay as an effective strategy against curculio and borers, as well as its limitations Creating a diverse, healthy orchard ecosystem through understory management of plants, nutrients, and beneficial microorganisms How to make a small apple business viable by focusing on heritage and regional varieties, value-added products, and the community orchard model The author's personal voice and clear-eyed advice have already made *The Apple Grower* a classic among small-scale growers and home orchardists. In fact, anyone serious about succeeding with apples needs to have this updated edition on their bookshelf.

Open Data White Paper Great Britain. Cabinet Office, 2012-06-28 This White Paper sets out clearly how the UK will continue to unlock and seize the benefits of data sharing in the future in a responsible way. Firstly by ensuring equality in access to data; secondly in building greater trust in public data; and thirdly by ensuring that public services are more personalised and efficient by being smarter with the data public bodies hold. The UK is currently co-chairing the Open Government Partnership of 55 governments whose theme is 'Transparency drives prosperity' with the belief that opening up data will empower citizens, foster innovation and reform public services. It is also, therefore, about how others participate. About businesses and organisations becoming more transparent themselves and pushing data into the public domain and individuals taking that data and using it to make better decisions or press for different types of services.
