Potato People Jack Schmitt, 2019-02-12 The book details the adventures of the eldest son of a working-class family from the urban Midwest who enters the army in the late 1960s and is transformed from a naive cowboy idolizer into a devious, larcenous, gun-carrying reprobate. He delves into the world of black market activities, prostitutes, drugs, and race relations and emerges a callous man for whom death is divided into two basic classes: bodies that are sent away and those that are dismissed as the impersonal enemy. Raised in an all-white environment and having had only one long-term exposure to a person of color, during a short period attending a seminary, he was taught to treat others fairly or to ignore them if their behavior warranted it. In the army, he encounters young men from every part of the country. Some require special treatment, while others introduce him to layers of the spectrum of life, which he did not know existed. He receives specialized training and, instead of being sent directly to Vietnam, is dispatched to Germany to participate in the Cold War in a very active manner. While in the army from 1967 to 1970, he wrote over five hundred letters, many to a girl with whom relations ended upon his return from Vietnam. She gave all the letters back, and they stayed on a shelf, waiting to fulfill the promise to someday write a book about the things that happened. His father also returned the letters that were written to him, which described the language used, the abuse suffered, and the status of race and homosexual relations, as well as the horrors of war, in no uncertain terms. The letters remained untouched for nearly fifty years, but he would sometimes recount an incident to friends or family, receiving in return an urging to write the stories for them. His older daughter chronologically organized the letters, while his other daughter

edited the manuscript as it was being written. The idea to write this book, as well as its title, struck while joking with fellow GI's in the barracks about someday telling the world that no one would believe the things they were doing in the name of serving their country. They would develop audacious pranks to outdo one another or minimize a situation and just be glad to live another day. They often remarked about spending parents' and grandparents' tax money on atrocious wastes of effort and material. The military personnel during the late '60s fit three distinct categories: juicers, heads, and straights. The first included men from every state, since almost everyone drank now and then. The second referred to the use of acid by some, while smokers and dopers fit right in. Lastly, there were some individuals who preferred not to get wasted by any means. Homosexuals and blacks could occupy any of the groups. The story details army life for a middle-class Midwest man who is introduced to conditions and concepts he had never imagined in Europe, then in the States, and finally in Vietnam. The intended audience is adult, mostly because of the language and the portrayal of man's cruelty to man, while on the other hand, the book is both nostalgic as well as informative.

With It Or in It Bacil Donovan Warren, 2016-02-24 Using humor and frank candor, author Bacil

Donovan Warren shares his personal experience, as well as that of his fellow tankers, as part of the US Army's 3d Armored Cavalry Regiment (the Brave Rifles) in Saudi Arabia and Iraq. Warren recounts the initial shock of hearing about Iraq's invasion of Kuwait and his Regiment's preparation for deployment during Operation Desert Shield. He describes the stress and sometimes mind-numbing boredom of being deployed deep in the desert of Saudi Arabia, constantly preparing for a possible Iraqi invasion. He recalls the terrifying experience of the start of the air war of Operation Desert Storm and the workmanlike action during combat against Iraq's Republican Guard forces during Operation Desert Sabre. With It or in It brings clarity and focus to their unceasing efforts to bring the conflict to a swift and decisive end. Finally, Warren describes the triumphant return of the Brave Rifles to Ft. Bliss, Texas, and the waiting arms of their families and loved ones.

Expanded Cinema Gene Youngblood, 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential Expanded Cinema was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and

realism. Vast in scope, its prescient formulations include “the paleocybernetic age,” “intermedia,” the “artist as design scientist,” the “artist as ecologist,” “synaesthetics and kinesthetics,” and “the technosphere: man/machine symbiosis.” Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood’s radical observations in comprehensive perspective. Providing an unparalleled historical documentation, Expanded Cinema clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

Development of the Global Film Industry Qiao Li,Yanqiu Guan,Hong Lu,2020-09-01 The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper while non-traditional production companies such as Netflix have assumed a larger market share and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. Development of the Global Film Industry examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the

internal workings of the industry, such as production, distribution and screening, this study takes a big picture view, encompassing the transnational integration of the cultural and entertainment industry as a whole, and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games and other sectors. This volume is a critical reference for students, scholars and the public to help them understand the major trends facing the global film industry in today's world.

We Were Soldiers Once...and Young Harold G. Moore, 2002-04-16 Each year, the Commandant of the U.S. Marine Corps selects one book that he believes is both relevant and timeless for reading by all Marines. The Commandant's choice for 1993 is We Were Soldiers Once . . . and Young. In November 1965, some 450 men of the 1st Battalion, 7th Cavalry, under the command of Lt. Col. Hal Moore, were dropped by helicopter into a small clearing in the Ia Drang Valley. They were immediately surrounded by 2,000 North Vietnamese soldiers. Three days later, only two and a half miles away, a sister battalion was chopped to pieces. Together, these actions at the landing zones X-Ray and Albany constituted one of the most savage and significant battles of the Vietnam War. How these men persevered--sacrificed themselves for their comrades and never gave up--makes a vivid portrait of war at its most inspiring and devastating. General Moore and Joseph Galloway, the only journalist on the ground throughout the fighting, have interviewed hundreds of men who fought there, including the North Vietnamese commanders. This devastating account rises above the specific ordeal it chronicles to present a picture of men facing the ultimate challenge, dealing with it in ways they would have found unimaginable only a few hours earlier. It

reveals to us, as rarely before, man's most heroic and horrendous endeavor.

Film Maria Pramaggiore, Tom Wallis, 2008-07-31 *Film: A Critical Introduction* provides a comprehensive framework for studying films, with an emphasis on writing as a means of exploring film's aesthetic and cultural significance. This text's consistent and comprehensive focus on writing allows students to master film vocabulary and concepts while learning to formulate rich interpretations. Part I introduces readers to the importance of film analysis, offering helpful strategies for discerning the way films produce meaning. Part II examines the fundamental elements of film, including narrative form, mise en scene, cinematography, editing, and sound, and shows how these concepts can be used to interpret films. Part III moves beyond textual analysis to explore film as a cultural institution and introduce students to essential areas of film studies research.

Cattle Towns Robert Dykstra, 2013-07-10 The mountain-top volleys from any scholarly set-to among social historians concerning the elusive roots of American democracy do reach our ears from time to time, and this rather formidable cannonade just may strike off some sparks, although it is hardly leisure reading. The author's efforts seem to have been spurred on by academics past and present (including historians Elkins and McKittrick) who have examined frontier communities and others more current and have concluded that democracy is a process of peaceful decision-making in a self-contained, homogeneous community. Dr. Dykstra, taking umbrage, has moved through the years 1867-1885 in five frankly ambitious frontier settlements, and has plowed up enough evidence in the social, political, economic, etc. areas to state with confidence that instead of the traditional view of conflict hindering progress, one should

brace conflict with cooperation on an equal basis. Conflict, Dykstra insists was normal . . . inevitable . . . a format for community decision . . . change. A shift in focus that just might--in an undoubtedly popular interpretation--cheer our chaotic days. A thorny, difficult book but worthy.

Why It's OK to Love Bad Movies Matthew Strohl, 2022-01-06 Most people are too busy to keep up with all the good movies they'd like to see, so why should anyone spend their precious time watching the bad ones? In *Why It's OK to Love Bad Movies*, philosopher and cinematic bottom feeder Matthew Strohl enthusiastically defends a fondness for disreputable films. Combining philosophy of art with film criticism, Strohl flips conventional notions of good and bad on their heads and makes the case that the ultimate value of a work of art lies in what it can add to our lives. By this measure, some of the worst movies ever made are also among the best. Through detailed discussions of films such as *Troll 2*, *The Room*, *Batman & Robin*, *Twilight*, *Ninja III: The Domination*, and a significant portion of Nicolas Cage's filmography, Strohl argues

that so-called bad movies are the ones that break the rules of the art form without the aura of artistic seriousness that surrounds the avant-garde. These movies may not win any awards, but they offer rich opportunities for creative engagement and enable the formation of lively fan communities, and they can be a key ingredient in a fulfilling aesthetic life. **Key Features:** Written in a humorous, approachable style, appealing to readers with no background in philosophy. Elaborates the rewards of loving bad movies, such as forming unlikely social bonds and developing refinement without narrowness. Discusses a wide range of beloved bad movies, including Plan 9 from Outer Space, The Core, Battlefield Earth, and Freddy Got Fingered. Contains the most extensive discussion of Nicolas Cage ever included in a philosophy book.

The Red Circle Brandon Webb, John David Mann, 2012-04-10 Explosive, revealing, and intelligent, The Red Circle provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world. Now including an excerpt from The Killing School: Inside the World's Deadliest Sniper Program **BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF.** Brandon Webb's experiences in the world's most elite sniper corps are the stuff

of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Red Circle* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy sniper cell and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military.

Constructions of Cultural Identities in Newsreel Cinema and Television after 1945 Kornelia Imesch, Sigrid Schade, Samuel Sieber, 2016-12-31 Newsreel cinema and television not only served as an important tool in the shaping of political spheres and the construction of national and cultural identities up to the 1960s. Today's potent televisual forms were furthermore developed in and strongly influenced by newsreels, and much of the archived newsreel footage is repeatedly used to both illustrate and re-stage past events and their significance. This book addresses newsreel cinema and television as a medium serving the formation of cultural identities in a variety of national contexts after 1945, its role in forming audiovisual narratives of a »biopic of the nation«, and the technical, aesthetical, and political challenges of archiving and restaging cinematic and televisual newsreel.

Thinking on Screen Thomas E. Wartenberg, 2007-10-31 Thinking on Screen: Film as Philosophy is an accessible and thought-provoking examination of the way films raise and explore complex philosophical ideas. Written in a clear and engaging style, Thomas Wartenberg examines films' ability to discuss, and even criticize ideas that have intrigued and puzzled philosophers over the centuries such as the nature of personhood, the basis of morality, and epistemological skepticism. Beginning with a demonstration of how specific forms of philosophical discourse are presented cinematically, Wartenberg moves on to offer a systematic account of the ways in which specific films undertake the task of philosophy. Focusing on the films The Man Who Shot Liberty Valance, Modern Times, The Matrix, Eternal Sunshine of the Spotless Mind, The Third Man, The Flicker, and Empire, Wartenberg shows how these films express meaningful

and pertinent philosophical ideas. This book is essential reading for students of philosophy with an interest in film, aesthetics, and film theory. It will also be of interest to film enthusiasts intrigued by the philosophical implications of film.
