Handbook of the Collection of Musical Instruments in the United States National Museum Frances Densmore, 1917 This collection of musical instruments in the United States National Museum, in its history and development, is closely associated with two interesting personalities: Dr. G. Brown Goode and Edwin H. Hawley. The work gives descriptions and a bit of history of various types of instruments and provides illustrated plates.

The Collection of Primitive Weapons and Armor of the Philippine Islands in the United States National Museum Herbert William Krieger, 1926 The primary objective to this handbook is to describe various weapon types that have preserved in metal, wood, horn and bone traces of the material culture of the several waves of civilization that have reached the Philippines in the past. The second objective of this catalogue of Philippine weapons of offense and defense is to describe the typical originality of form., the skill displayed in weapon manufacture, and the beauty of ornamental patterns produced in the islands but characteristic of the localities in which they are made and used.
