**Economics and Management of Franchising Networks** Josef Windsperger,Gérard Cliquet,George Hendrikse,Mika Tuunanen,2012-12-06 Franchising networks are experiencing great success in international business organization. Few books try to explain the characteristics of these networks. Contrary to the existing literature this book tackles more theoretical problems related to governance, organization, knowledge management, contract design, incentive and regulation issues both from the economic and management view point. It delivers new theoretical and empirical results regarding plural forms, contract design, and knowledge and strategic management issues. Its purpose is to offer researchers and practitioners new theoretical and empirical insights in one of the most important economic phenomenon at the beginning of the 21st century: Franchising networks as organizational arrangement for growth and internationalization of firms.

**Franchising Hospitality Services** Conrad Lashley,Alison Morrison,2007-06-07 'Franchising in the Hospitality Industry' provides an overview of the issues, debates and challenges associated with business franchising. In two parts, this text firstly looks at the issues from both an academic and practitioner perspective. The second part looks more closely at service sector groups in the hospitality industry, such as hotels, leisure and catering using national and international examples and illustrations. These demonstrate how the theories and debates discussed in the first part, are tackled in real life situations. Examples used are from well known companies such as McDonalds, Baskin Robbins, Burger King, Choice Hotels, Holiday Inn, Domino Pizza, Pierre Victoire amongst others.
