Maps: their untold stories Rose Mitchell,Andrew Janes,2014-09-11 A map is a snapshot of a place, a city, a nation or even the world at a given point in time - fascinating for what they tell us about

the way our ancestors saw themselves, their neighbours and their place in the world. This magnificent collection, drawn from seven centuries of maps held in the National Archives at Kew, looks at a variety of maps, from those found in 14th Century manuscripts, through early estate maps, to sea charts, maps used in military campaigns, and maps from treaties. The text explores who the mapmakers were, the purposes for which the maps were made, and what it tells us about the politics of the time. Great images are accompanied by compelling stories. Featured is a woodcut map of 16th Century London, a map of where the bombs fell during the Second World War, and a map the first American settlers' drew when they were attempting to establish a new empire on Roanoke Island, off the coast of what is now North Carolina. Richly illustrated with large scale reproductions of the maps, the book also includes some of the more amusing or esoteric maps from the National Archives, such as the map of the Great Exhibition in 1851 that was presented on a lady's glove, a London Underground map in the form of a cucumber, and a Treasure Island map used to advertise National Savings. This is a fascinating and unusual journey through the world of maps and mapmakers.

Berlin walks/Four Intimate Walking Tours of Berlin's Most Historic Neighborhoods, With Maps, Photos, and a Select List of Restaurants, Hotels, and More Peter Fritzsche, Karen Hewitt, 2014-03-11 Berlin is a city that visionary architects, city planners, social revolutionaries, and ruling kaisers have all tried to reshape. As a result, it is sheathed in layers of modern history, each providing a chapter in the city's story of constant change. Its rich atmosphere of energy made it the intellectual hub of early

twentieth-century Europe: its lively theaters, cafes, and bawdy street life drew visitors from around the world. The four intimate walking tours in this book reveal Berlin's breathtaking history as a small medieval commercial town; as the capital of a nineteenth-century Prussia; as the modern dreamscape of the Weimar Republic; as the new Rome of the Third Reich; as a divided city, and now, as the capital of a reunited Germany. Readers will be taken through Merlin Mitte, site of the Brandenburger Tor and the dismantled Wall; past the old stones and new synagogues of the Jewish Quarter; among the working-class neighborhood of Prenzlauer Berg; and into the politically vibrant Kreuzberg. Berlinwalks also explores the city's cultural development through the creations of its artists, architects, and novelists, among them Bertolt Brecht, Christopher Isherwood, and Kathe Kollwitz. The book also features maps, more than forty black-and-white photographs, general advice and information, and a select list of restaurants, hotels, and shops. Like the other volumes in this series, Berlinwalks is written for people who want to learn when they travel, not just see.
