Global Advertising in a Global Culture Thomas H. P. Gould, 2015-12-16 Globalization stems from many sources, but as Thomas Gould makes clear, advertising is a primary driver of trans-global cultural change. Gould argues that advertising often carries unfiltered and unblocked cultural messages in addition to commercial speech; as such, it not only builds consumer demand to open new markets but also changes consumer expectations and values. At the same time, the evolution of increasingly targeted mobile and social marketing is transforming local and regional cultures into a new mix of global branding and individualized micro-space. Gould examines how advertising professionals negotiate these rocky and quickly-changing cultural terrains. He also explores how advertising—an increasingly global form of communication—is becoming a platform for change at the individual level, and as a direct consequence, at the social and political levels.

*Behind the Ride* David Mumpower, 2019-08 Behind the Pixie Dust Curtain Every Disney attraction comes with a story, and every story involves a few tricks of the trade that only Imagineers know. Here's your chance to peek behind the curtain and learn some of the secrets about thirty of the most popular Disney theme park rides. David Mumpower takes you behind-the-scenes at Disneyland and

Walt Disney World to reveal the inner workings of your favorite attractions. He'll explain why Walt Disney chose many of these rides, and he'll describe the challenges that Imagineers faced in doing the impossible by bringing them to life. Mumpower begins with the story of how a Russian monarch's love of sledding indirectly led to the invention of the modern roller coaster. Then, he details the physical and thematic obstacles that Imagineers overcame to build iconic attractions like Pirates of the Caribbean, Space Mountain, and Mr. Toad's Wild Ride. Of course, some of the best Disney rides are more recent. Mumpower also examines the difficulties in developing cutting-edge attractions like Avatar Flight of Passage, Radiator Springs Racers, and Slinky Dog Dash. Mumpower covers opening day rides still in operation today as well as some of the most recent additions to the vaunted Disney theme park lineup. He discusses all of these ride experiences plus the tricks that make them possible—and magical. If you've ever gotten off a Disney ride and wondered how they did it, or if you're the type of fan who'd rather examine an attraction than experience it, or maybe you'd like to be an Imagineer yourself someday, this is the book you've been waiting for.

Good Economics for Hard Times Abhijit V. Banerjee, Esther Duflo, 2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.
