Trump Was a Joke Sophia A McClennen, 2023-03-24 Written by a scholar of satire and politics, *Trump Was a Joke* explains why satire is an exceptional foil for absurd political times and why it did a particularly good job of making sense of Trump. Covering a range of comedic interventions, *Trump Was a Joke* analyzes why political satire is surprisingly effective at keeping us sane when politics is making us crazy. Its goal is to

highlight the unique power of political satire to encourage critical thinking, foster civic action, and further rational debate in moments of political hubris and hysteria. The book has been endorsed by Bassem Youssef, who has been referred to as the “Jon Stewart of Egypt,” and Srdja Popovic, author of *Blueprint for Revolution*, who used satirical activism to bring down Serbian dictator Slobodan Milosevic. With a foreword by award-winning filmmaker, satirist, and activist Michael Moore, this study will be of interest to readers who follow politics and enjoy political comedy and will appeal to the communications, comedy studies, media studies, political science, rhetoric, cultural studies, and American studies markets.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been

diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

A Primer on Generative Adversarial Networks
Sanaa Kaddoura,2023-07-04 This book is meant for readers who want to understand GANs without the need for a strong mathematical background. Moreover, it covers the practical applications of GANs, making it an excellent resource for beginners. A Primer on Generative Adversarial Networks is suitable for researchers, developers, students, and anyone who wishes to learn about GANs. It is assumed that the reader has a basic understanding of machine learning and neural networks. The book comes with ready-to-run scripts that readers can use for further research. Python is used as the primary programming language, so readers should be familiar with its basics. The book starts by providing an overview of GAN

architecture, explaining the concept of generative models. It then introduces the most straightforward GAN architecture, which explains how GANs work and covers the concepts of generator and discriminator. The book then goes into the more advanced real-world applications of GANs, such as human face generation, deep fake, CycleGANs, and more. By the end of the book, readers will have an essential understanding of GANs and be able to write their own GAN code. They can apply this knowledge to their projects, regardless of whether they are beginners or experienced machine learning practitioners.

Advanced Fingerprint Recognition: From 3D Shape to Ridge Detail Feng Liu, Qijun Zhao, David Zhang, 2020-05-22 Fingerprints are among the most widely used biometric modalities and have been successfully applied in various scenarios. For example, in forensics, fingerprints serve as important legal evidence; and in civilian applications, fingerprints are used for access and attendance control as well as other identity services. Thanks to advances in three-dimensional (3D) and high-resolution imaging technology, it is now feasible to capture 3D or high-resolution fingerprints to provide extra information and go beyond the traditional features such as global ridge patterns and local ridge singularities used in conventional fingerprint recognition tasks. This book presents the state of the art in the acquisition and analysis of 3D and high-resolution fingerprints. Based on the authors' research, this book focuses on advanced fingerprint recognition using 3D fingerprint features (i.e., finger shape,

level 0 features) or high-resolution fingerprint features (i.e., ridge detail, level 3 features). It is a valuable resource for researchers, professionals and graduate students working in the field of computer vision, pattern recognition, security/biometrics practice, as well as interdisciplinary researchers.

Illuminati Bible of Divine Light Sorin Cerin, The present book entitled the Illuminati Bible of Divine Light is a work of philosophy that deepens both ontological and gnoseological themes, regarding the Existence of God and implicitly ours. I have said many times, so far, that philosophy is the religion of the future. At the base of the Illuminati Bible of Divine Light is the philosophical-religious system called Coaxialism, published in its final form in the book entitled Coaxialism - Final Edition, but also the Collection of Wisdom consisting of 16,777 aphorisms structured according to certain themes, published in its final form in the book entitled,

The Wisdom Collection: 16. 777 Philosophical Aphorisms- 2020 Edition. The God of the Illuminati Bible of Divine Light is not a dictatorial God who demands total submission from Man so that Man can benefit from a Paradise after Death, but is a God of Man's rediscovery in his own Self. The God of this World is the Creator Factor and Unique-Incidentally, who is defined through a Meaning that forms a Word. In the Parallel Universes there are an infinity of Creator Factors and Unique-Incidentally where each one in part is a Meaning that in turn determines a Word in the respective Universe, Word from which the respective Universe was formed, as well as our Universe in turn, was formed from the Word of our own Creator Factor and Unique -Incidentally. The totality of the Creator Factors and Unique-Incidentally, that is, the totality of the Meanings which determine, in their turn, each in part, a Word, form the Universal Pure Language, which in its totality determines the Consciousness Unique and Incidentally of the Universal Unique Expression which is the Supreme God, the Supreme Intelligence of all Universes whose number is infinite as is infinite and the number of the Words defined in turn, each in part, by the Creator Factors and Unique -Incidentally. The Unique-Incidentally Consciousness of the Universal Unique Expression always KNOWS where it is and what namely it does, each atom in part, each elementary particle in part, from each Universe which in turn together with all the other Universes makes up the infinity of Universes. I have always said that we are from before us, that is, we are a reflection of what was and from here

comes the Destiny that cannot be changed, and the Free Will is an Illusion from the great range of the Illusions of Life. Everything that will Happen in our Future has Happened and has been in our Past before it was Time. Thus, the spiritual Energy of our Soul is allowed to pass through the Happenings that the Illusion of our own Life renders to us as being something new, even though they were, long before us. We are a quantum of energy, which flows through a reflection of the World that was before Time, a World through whose reflection we flow in the so-called Present, with our own spiritual energies of the Soul, having the false sensation of, Time, Past, Present and Future. From this flowing of ours, through the reflection of that World in the Mirror of Knowledge, we have the feeling that we are living our own Life even though in reality we are living our own Illusion of Life. In conclusion, we are only a quantum of energy which flows through the reflected images of the World that was somewhere - sometime, from before Time. As those images of the World in whose reflection we have the Illusion that we live cannot be changed, so neither our Destiny cannot be changed, because it flows once with the spiritual energies of our Souls, through the images of that World, which cannot be changed by us, because that World was before us. Thus, precisely the Illusion of Life that gives us the so-called Free Will, he which in reality does not exist, she, the Illusion of Life is the one that can help us to improve or worsen the spiritual energy of our Soul. Hence, results the necessity of the Illusion of Life in this World. Thus, once

we travel through this World with Happenings that were long Before we believed that it Happens, accompanied by the Illusion of Life that makes us believe in the existence of Free Will, we go through, all sorts of Trials, that are the spiritual relief forms of this World, which is a reflection of what was, somewhere - sometime and from here comes the ineffable Destiny. Destiny is ineffable because it cannot be changed, because neither the World through whose reflection we pass can never be changed. Thus, the religions that have developed in this World, did not appear Incidentally, but they existed in the Initial World that was reflected in the Mirror of our Knowledge, a World that was, long Before us. In that World was also Jesus Christ, and the other Great Prophets such as the Prophet Muhammad, the Buddha, Moses, etc. What Happened on Earth, that is, in our World, was that some Souls who were so spiritually perfect had the approval of God, to travel through this World in the bodies of these Great Prophets, just as each of us have the acceptance of God, to travel through this World in our own bodies, which are some vehicles that take us from the destination of Birth to the destination of Death. These vehicles which are our bodies, they too, are, in turn, a reflection of a World that was long Before us. Due to these things, every Man is born under the specter of a certain Religion which has been left so by God through Destiny to Happen. The appearance of the Great Prophets was due to the Destiny. Jesus Christ, did not appear from Nothingness, Incidentally in our World, but was left namely to

Happen in this way, by God, because God is the one who let the Mirror of Knowledge through which we to can become Aware of this World. That's exactly why every Man is good to follow the Religion existing in the area where he was born and to respect the Religions of other People born in other areas where there are other kinds of Religions, until these will be replaced or not, by other Religions, or philosophical and religious systems, with the Will of God, that is, on the understanding of some, in a natural way and not forced by anyone. Even Atheism is in itself a Religion, precisely through the fact that it is based on a certain Faith, where God is represented through the Laws of the Universe. It has been speculated about me that in the book The Evil I do not make a clear distinction between the Evil necessary for the existence of Good, and the Devil. Evil is necessary for the existence of Good just as Good is necessary for the existence of Evil. Evil can often be a far greater Good than Good and vice versa, Good can sometimes be a far greater Evil than Evil. Instead with what I do not agree and can really be considered an Evil that can be Devilish, is for example Wickedness. About wickedness, I have developed an entire chapter in the book entitled The Far Future of Mankind, Philosophical Aphorisms, the Chapter of Wickedness, aphorisms 1-227, a book which in turn is part of The Wisdom Collection : 16,777 Philosophical Aphorisms, which in turn is part from this book entitled The Illuminati Bible of Divine Light. Thus, Wickedness is something demonic which must be combated, because the Evil

it brings does not serve the Good than in a much lesser extent, than the Good could serve, the Evil from this Wickedness. If we are to attribute Wickedness to the Devil, then we must certainly avoid him, as much as we can. In conclusion, Evil and Good are the attributes of God when Evil can help the Good and of the Devil when Evil can not help the Good than an even greater Evil. There is all sorts of speculation concerning the fact that I would have stated in Coaxialism that Man thinks only with a tiny percentage of the brain. □I even said that Man does not think than with 2 percent from his brain. I stated this in the context in which I wanted to express that only a tiny percentage of the cognitive total we use would have any connection with the Absolute Truth through this interweaving of Illusions of the Life through which we travel during our own Life. In reality, I think that, that two percent percentage is very high and in reality it would not be, not even that much. And the brain in turn, is also an Illusion from the arsenal of the Illusions of Life, so the so-called ability of the human brain to process data is an Illusion as great, as our own Illusion of Life is. It is irrelevant whether or not Man uses his entire brain in the thought process once his entire thought process is subjected to the Illusion of Life and due to this fact the Man's thinking is not anchored by even two percent to the Absolute Truth. With the appearance of my first philosophical studies but also of aphorisms, I initially published the book entitled Bible of the Light and then a more complete form of the book Bible of the Light was

the book entitled The Illuminati Bible, so that in present to publish the full form of the Bible, which I felt that it will be perfected with the help of God, and which I decided to call the Illuminati Bible of Divine Light. Some will wonder why I chose this name of The Illuminati Bible starting with that book published in 2014, the content of which is also in this book called the Illuminati Bible of Divine Light which in turn contains many other parts? Simple. Firstly because I wanted to help, in Good, the Karma of this World, because Illuminati and Enlightenment are spoken of in negative terms, and secondly because Illuminati comes from Enlightenment, and true Enlightenment cannot bring the Evil, nor can it be the Evil, vile. True Enlightenment must be based only on Good and never on bringing the Evil as the supreme Wickedness. Therefore, in order to improve the Karma of Mankind, I show that Enlightenment does not consist in Wickedness but in combating Wickedness. The enlightened ones cannot be a hidden group of people who lead humanity out of the shadows committing all sorts of evils and abuses to maintain power. These people are by no means Enlightened but Dark. If there really are some in such a situation then they use the term Illuminati or Enlightened falsely. How, just as Dark are those who dirtyly attack on the true Illuminati or Enlightened only out of obscure interests of a religious nature, for fear that the Enlightened ones might open the souls of the People and show them the Way to the Truth from which some high prelates that are at the head of certain churches flee, who are afraid that, if the

Truth would be found, they will lose both their financial and their decision-making power. I believe that the future will belong to those truly Enlightened, the true Illuminati. A thing is to use Evil to bring through it, Good and another is to use Evil to bring through it the Wickedness. The true Enlightened and not Dark are those who understand that the Evil can only be used for Good when he can do it, and the Good only for the Evil less Evil, when the Good itself can lead to destruction, disaster or pain. The real Bad People, the Dark Ones, are the ones who use both Good and Evil to do as much as possible Evil and not Good. Mankind must understand that the Evil and Good, the God and the Devil are an Entity with two distinct characteristics, an Entity that defines our True God, that is, our Creator Factor and Unique-Incidentally. Therefore, in order to improve the Karma of this World, we will have to pray to the Universal Consciousness formed by the Universal Pure Language. That is, to pray to the Divine Light of all the Worlds, the Supreme God of Intelligence, which to inspire our thoughts so that to use in moderation both Good and Evil, for the ultimate purpose of doing and bringing through us as much as possible Good. Why didn't I let in continuation the name of the Illuminati Bible and to this new, much deeper work of the Bible and call it the Illuminati Bible of Divine Light ? Because compared to the other book called the Illuminati Bible, the Illuminati Bible of Divine Light contains in addition to the content of that book many other new chapters that appeared with the new Wisdom Collections or with the final form

of the Coaxialism. In the last edition of the Wisdom Collection, I published six other new books of philosophical aphorisms, bringing the Collection of Wisdom to a total of 16,777 philosophical aphorisms. The last books refer to topics such as those related, to Justice, to the World after Death, to the philosophy of Artificial Intelligence, to the far Future of Mankind, etc. All this highlights not only a Bible with concepts like the one I called the Illuminati Bible but also one that fully reflects my thinking and faith as a whole, which is based on my philosophical-religious system called Coaxialism, and therefore, the book could not be called otherwise than the Illuminati Bible of Divine Light. Especially since in this book, entitled the Illuminati Bible of Divine Light, there is also the final form of my philosophical-religious system called Coaxialism, where I refer to Transcendental Coaxiological Mathematics but also to Mathematical Psychology. I am convinced that philosophy, Coaxialism, will become part of the Religion of the Future, a Religion whose churches will be the souls of the People. Yes, I want that the soul of every Man to be a Temple of worship, Enlightened by the Divine Light of Absolute Truth, whose Thought is reflected by the Universal Consciousness of the Universal Pure Language. A Language whose Words are infinite, and of all these Words, one of them is our God, that is, our Creator Factor and Unique-Incidentally, who gave birth to this World. Sorin Cerin July 7, 2021

Fake News and Elections in Southeast Asia James

Gomez, Robin Ramcharan, 2022-12-30 This book offers a regional analysis of the impact of fake news – misinformation, malinformation and disinformation – on electoral democracy and freedom of expression in Southeast Asia, which has taken place in the middle of a global health pandemic. The book maps the impact of social media and the internet on democracy in the members of the Association of Southeast Asian Nations that have already been in the throes of democratic regression for some time. Including an analysis of countries that do not have national elections, the chapters provide detailed information on the extent of internet and social media penetration in each country, the laws that are deployed to reel in its political potential for critics and demonstrate the impact on democracy or the prospects for democracy. Collectively, contributors note that disinformation is a serious problem in the region that negatively impacts elections and how governments' attempts to deal with the phenomenon inevitably lead to the targeting of dissenting voices and opposition as anti-state fake news. The deleterious impact on democracy and freedom of expression, facilitated by a citizenry that is prone to manipulation of facts, appears to be the standard modus operandi in the regional authoritarian complex. This book is the first to undertake a regional analysis of disinformation in Southeast Asia and is a significant contribution to the literature on democracy, elections and disinformation. It will be of interest to researchers in the fields of Political Science and Asian Politics, in particular Southeast Asian

Politics.

Studio Anywhere 2: Hard Light Nick

Fancher,2017-01-20 In *Studio Anywhere 2: Hard Light*, photographer and author Nick Fancher builds on the success of his previous book (*Studio Anywhere: A Photographer's Guide to Shooting in Unconventional Locations*) as he continues to offer candid, practical, and valuable lessons on how to create successful and fresh photographs armed with only minimal gear, a resourceful mind, and a creative spirit. The heart and soul of *Studio Anywhere 2: Hard Light* resemble its predecessor, but this time Nick focuses his approach on hard light, demonstrating how to use it in innovative and flattering ways, working with subjects ranging from products to people. You'll learn: • How to work with both available light (e.g., the sun) and manufactured light (such as inexpensive small flash) • How to shape, bounce, and manipulate your unmodified flash to get the results you want • The importance of proper light placement and ambient balance • How to create dramatic, intentional photographs with hard light • DIY techniques for making your own gobos and photo hacks (such as with a reflector) • How to incorporate colored gels into your work to create expressive and

innovative imagery • Post-processing tricks and techniques that Nick uses to achieve the final look of the image Included in the book are behind-the-scenes photos, lighting diagrams, and Lightroom settings for every scenario, so the reader can follow along from idea through the shoot and on to the final edit. There is also a feature throughout the book called “Making a Scene” where, upon being presented with an “empty” scene, you’re challenged to figure out where you might place your subject and your light(s) in order to achieve a specific effect or result. At the back of the book, Nick shows you how he chose to tackle each scenario. The goal is to train yourself to look at the everyday, commonplace locations and scenarios you encounter and begin to see them full of photographic potential.
