My Son Marshall, My Son Eminem Debbie Nelson, 2008 To this day Debbie Nelson is asked why she abandoned her son Marshall as a boy, beat him repeatedly, and then had the audacity to dog him with lawsuits when he became rich and famous. My Son Martial, My Son Eminem is her rebuttal to these widely believed lies—a poignant story of a single mother who wanted the world for her son, only to see herself defamed and shut out when he got it. Debbie Nelson encouraged her talented son to chase success—even when Eminem hijacked her good name in his lyrics and press for street cred, a movie that ultimately alienated them from each other by the notoriety and bitterness it spawned. In My Son Marshall, My Son Eminem, Debbie Nelson details the real story of Eminem's life from his earliest days in a small town in Missouri and his teenage years in Detroit, to his rise to stardom and very public mom-bashing.

*Post Cinematic Affect* Steven Shaviro, 2010 Post-Cinematic Affect is about what it feels like to live in the affluent West in the early 21st century. Specifically, it explores the structure of feeling that is emerging today in tandem with new digital technologies, together with economic globalization and the financialization of more and more human activities. The 20th century was the age of film and television; these dominant media shaped and reflected our cultural sensibilities. In the 21st century, new digital media help to shape and reflect new forms of sensibility. Movies (moving image and sound works) continue to be made, but they have adopted new formal strategies, they are viewed under massively changed conditions, and they address their spectators in different ways than was the case in the 20th century. The book traces these changes, focusing on four recent moving-image works: Nick Hooker's music video for Grace Jones' song Corporate Cannibal; Olivier Assayas' movie Boarding Gate, starring Asia Argento; Richard Kelly's movie Southland Tales, featuring Justin Timberlake, Dwayne Johnson, and other pop culture celebrities; and Mark Nevelidine and Brian Taylor's Gamer.

*That's the Joint!* Murray Forman, Mark Anthony Neal, 2004 Spanning 25 years of serious writing on hip-hop by noted scholars and mainstream journalists, this comprehensive anthology includes observations and critiques on groundbreaking hip-hop recordings.

The Oxford Handbook of Music and Virtuality Sheila Whiteley, Shara Rambarran, 2016 This work, edited by Sheila Whiteley and Shara Rambarran, brings together a multidisciplinary group of scholars who address issues such as artistic agency, the relationship between reality and illusion or simulation, and the construction of musical personae, subjectivities, and identities in a virtual world.

**Dub** Michael Veal, 2013-08-15 Winner of the ARSC's Award for Best Research (History) in Folk, Ethnic, or World Music (2008) When Jamaican recording engineers Osbourne "King Tubby" Ruddock, Errol Thompson, and Lee "Scratch" Perry began crafting "dub" music in the early 1970s, they were initiating a musical revolution that continues to have worldwide influence. Dub is a sub-genre of Jamaican reggae that flourished during reggae's "golden age" of the late 1960s through the early 1980s. Dub involves remixing existing recordings—electronically improvising sound effects and altering vocal tracks—to create its unique sound. Just as hip-hop turned phonograph turntables into musical instruments, dub turned the mixing and sound processing technologies of the recording studio into instruments of composition and real-time improvisation. In addition to chronicling dub's development and offering the first thorough analysis of the music itself, author Michael Veal examines dub's social significance in Jamaican culture. He further explores the "dub revolution" that has crossed musical and cultural boundaries for over thirty years, influencing a wide variety of musical genres around the globe. Ebook Edition Note: Seven of the 25 illustrations have been redacted.

**Music in Everyday Life** Tia DeNora, 2000-06-08 The power of music to influence mood, create scenes, routines and occasions is widely recognised and this is reflected in a strand of social theory from Plato to Adorno that portrays music as an influence on character, social structure and action. There have, however, been few attempts to specify this power empirically and to provide theoretically grounded accounts of music's structuring properties in everyday experience. Music in Everyday Life uses a series of ethnographic studies – an aerobics class, karaoke evenings, music therapy sessions and the use of background music in the retail sector – as well as in-depth interviews to show how music is a constitutive feature of human agency. Drawing together concepts from psychology, sociology and socio-linguistics it develops a theory of music's active role in the construction of personal and social life and highlights the aesthetic dimension of social order and organisation in late modern societies.

**Hip Hop around the World [2 volumes]** Melissa Ursula Dawn Goldsmith, Anthony J. Fonseca, 2018-12-01 This set covers all aspects of international hip hop as expressed through music, art, fashion, dance, and political activity. Hip hop music has gone from being a marginalized genre in the late 1980s to the predominant style of music in America, the UK, Nigeria, South Africa, and other countries around the world. Hip Hop around the World includes more than 450 entries on global hip hop culture as it includes music, art, fashion, dance, social and cultural movements, organizations, and styles of hip hop. Virtually every country is represented in the text. Most of the entries focus on music styles and notable musicians and are unique in that they discuss the sound of various hip hop styles and musical artists' lyrical content, vocal delivery, vocal ranges, and more. Many additional entries deal with dance styles, such as breakdancing or b-boying/b-girling, popping/locking, clowning, and krumping, and cultural movements, such as black nationalism, Nation of Islam, Five Percent Nation, and Universal Zulu Nation. Country entries take into account politics, history, language, authenticity, and personal and community identification. Special care is taken to draw relationships between people and entities such as mentor-apprentice, producer-musician, and more.

**Reading Song Lyrics** Lars Eckstein, 2010-01-01 Reading Song Lyrics offers the first systematic introduction to lyrics as a vibrant genre of (performed) literature. It takes lyrics seriously as a complex form of verbal art that has been unjustly neglected in literary, music, and, to a lesser degree, cultural studies, partly as it cuts squarely across institutional boundaries. The first part of this book accordingly introduces a thoroughly transdisciplinary interpretive framework. It outlines

theoretical approaches to issues such as performance and performativity, generic convention and cultural capital, sound and songfulness, mediality and musical multimedia, and step by step applies them to the example of a single song. The second part then offers three extended case studies which showcase the larger cultural and historical viability of this model. Probing into the relationship between lyrics and the ambivalent performance of national culture in Britain, it offers exemplary readings of a highly subversive 1597 ayre by John Dowland, of an 1811 broadside ballad about Sara Baartman, 'The Hottentot Venus', and of a 2000 song by 'jungle punk' collective Asian Dub Foundation. Reading Song Lyrics demonstrates how and why song lyrics matter as a paradigmatic art form in the culture of modernity.

**Penny from Heaven** Jennifer L. Holm, 2007-12-26 Newbery Honor-winning, New York Times-bestselling, and as full of fun and adventure as it is of deeper family issues. School's out for summer, and Penny and her cousin Frankie have big plans to eat lots of butter pecan ice cream, swim at the local pool, and cheer on their favorite baseball team—the Brooklyn Dodgers! But sometimes things don't go according to plan. Penny's mom doesn't want her to swim because she's afraid Penny will get polio. Frankie is constantly getting into trouble, and Penny feels caught between the two sides of her family. But even if the summer doesn't exactly start as planned . . . things can work out in the most unexpected ways! Set just after World War II, this thought-provoking novel also highlights the prejudice Penny's Italian American family must confront because people of Italian descent were "the enemy" not long ago. Inspired by three-time Newbery Honor winner Jennifer Holm's own Italian American family, Penny from Heaven is a story about families—about the things that tear them apart and the things that bring them back together. Includes an author's note with photographs and background on World War II, internment camps, and 1950s America, as well as additional resources and websites. Booklist: "Holm impressively wraps pathos with comedy in this coming-of-age story, populated by a cast of vivid characters."

**The End of Books—or Books Without End?** J. Yellowlees Douglas, 2001 An exploration of the possibilities of hypertext fiction as art form and entertainment

**Media Worlds** Faye D. Ginsburg, Lila Abu-Lughod, Brian Larkin, 2002-10-23 This groundbreaking volume showcases the exciting work emerging from the ethnography of media, a burgeoning new area in anthropology that expands both social theory and ethnographic fieldwork to examine the way media—film, television, video—are used in societies around the globe, often in places that have been off the map of conventional media studies. The contributors, key figures in this new field, cover topics ranging from indigenous media projects around the world to the unexpected effects of state control of media to the local impact of film and television as they travel transnationally. Their essays, mostly new work produced for this volume, bring provocative new theoretical perspectives grounded in cross-cultural ethnographic realities to the study of media.

**Same and Other** Mai Palmberg, Maria Eriksson Baaz, 2001 The idea of African Otherness has occupied a central role in discourses on cultural production in Africa, whether film, literature, music or the arts. These claims, articulated both by 'Western' and 'African' critics and consumers, means that particular criteria and standards are adopted in relation to cultural production in Africa. The claim to African Otherness is gaining new strength in the wake of globalization, but it is also increasingly challenged by a number of contemporary artists. This book deals with the question of relevance and meaning of the signifier in various fields of contemporary cultural production in Africa.

*Forever and Ever, Amen* Randy Travis, 2019-05-14 A riveting tale of unfathomable success great joy deep pain, and redemption that can come only from above. From a working-class background in North Carolina to a job as a cook and club singer in Nashville to his overnight success with his smash 1986 album Storms of Life—which launched the neotraditional movement in country music--Randy's first three decades are a true rags-to-riches story. But in 2009, this seemingly charmed life began a downward spiral. His marriage dissolved, he discovered that his finances had unraveled, and his struggles with anger led to alcohol abuse, public embarrassment, and even police arrest in 2012. Then, just as he was putting his life back together, Randy suffered a devastating viral cardiomyopathy that led to a massive stroke which he was not expected to survive. Yet he not only survived but also learned to walk again and, in 2016, accepted his induction into the Country Music Hall of Fame by singing the hymn that explains his life today: Amazing Grace. Filled with never-before-told stories, Forever and Ever, Amen is a fascinating behind-the-scenes look at dizzying success and the miraculous road to restoration.

**Isles of Noise** Alejandra M. Bronfman, 2016-09-02 In this media history of the Caribbean, Alejandra Bronfman traces how technology, culture, and politics developed in a region that was wired earlier and more widely than many other parts of the Americas. Haiti, Cuba, and Jamaica acquired radio and broadcasting in the early stages of the global expansion of telecommunications technologies. Imperial histories helped forge these material connections through which the United States, Great Britain, and the islands created a virtual laboratory for experiments in audiopolitics and listening practices. As radio became an established medium worldwide, it burgeoned in the Caribbean because the region was a hub for intense foreign and domestic commercial and military activities. Attending to everyday life, infrastructure, and sounded histories during the waxing of an American empire and the waning of British influence in the Caribbean, Bronfman does not allow the notion of empire to stand solely for domination. By the time of the Cold War, broadcasting had become a ubiquitous phenomenon that rendered sound and voice central to political mobilization in the Caribbean nations throwing off what remained of their imperial tethers.

**Micro-bionic** Thomas Bey William Bailey, 2009 As mainstream music consumers wait with baited breath for the next musical upheaval, a small core of tech-savvy individuals are re-shaping the aural landscape without the assurance of being part of any larger movement. Their ideologies and creative approaches differ wildly, but they share a desire to take sound beyond the realm of mere entertainment. Drawing on extensive research into the world of audio extremity, Micro-Bionic includes interviews with William Bennett (Whitehouse), Peter Rehberg (Mego) and Peter Christopherson (Throbbing Gristle/Coil).

**The Garland Handbook of Latin American Music** Dale Olsen, Daniel Sheehy, 2007-12-17 The Garland Handbook of Latin American Music is comprised of essays from The Garland Encyclopedia of World Music: Volume 2, South America, Mexico, Central America, and the Caribbean, (1998). Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Latin America and examine the ways in which music helps to define the identity of this particular area. Part One provides

an in-depth introduction to the area of Latin America and describes the history, geography, demography, and cultural settings of the regions that comprise Latin America. It also explores the many ways to research Latin American music, including archaeology, iconography, mythology, history, ethnography, and practice. Part Two focuses on issues and processes, such as history, politics, geography, and immigration, which are responsible for the similarities and the differences of each region's uniqueness and individuality. Part Three focuses on the different regions, countries, and cultures of Caribbean Latin America, Middle Latin America, and South America with selected regional case studies. The second edition has been expanded to cover Haiti, Panama, several more Amerindian musical cultures, and Afro-Peru. Questions for Critical Thinking at the end of each major section guide focus attention on what musical and cultural issues arise when one studies the music of Latin America -- issues that might not occur in the study of other musics of the world. Two audio compact discs offer musical examples of some of the music of Latin America.
