Alcohol-free Regina Toedter,2024-03-13 A cold beer to cool down, a glass of red wine to relax - for many people this is quite normal. Drinking alcohol is an integral part of our culture. We drink because it tastes good and because (almost) everyone does it. However, we all too easily forget that even 0.3 per mille can lead to alcohol intoxication and have health consequences. Regina Toedter shows how easy it can be to consciously say no to alcohol with Alcohol-free. The 50 best tips. It helps you to question your own drinking behaviour and provides a self-test for your individual status quo. Because being alcohol-free means feeling better and fitter, looking fresher and healthier, being more flexible and more alert. 2015 Original edition published by Trias Verlag Stuttgart by MVS Medizinverlage Stuttgart (Germany). 2nd edition reprinted in 2019 by Goldmann Verlag by Random House Munich (Germany).

The Force-Free Dilemma Nicola Ferguson,2024-02-22 Dog training methodology is an increasingly hotly contested topic. A number of vocal trainers insist that dogs should be instructed through exclusively positive reinforcement, and that training should be totally force-free. Popularized through social media, the force-free training movement has grown into a lucrative, billion-dollar industry, but the consequences may outweigh the positives. This book examines the current state of dog training and discusses ethical alternatives to force-free methods. Chapters cover the history of dog training, common

myths, equipment, and the merits of balanced training methods that don't dogmatically avoid occasional force.

Literacy and Identity Through Streaming Media Damiana Gibbons Pyles,2023-05-09 In this book, Damiana Gibbons Pyles guides readers through the fast-changing landscape of digital streaming services such as Netflix and explores their impact on children's and teens' identities. Children interact with streaming media in novel, hidden, and unforeseen ways that shape their digital, material, affective, and embodied worlds. By analyzing how Netflix represents gender, race, and ethnicities, Gibbons Pyles explores how this new media phenomenon portrays and influences young people's development and sense of self, and how streaming media pushes children and teens to particular ways of being in its interfaces, algorithms, and content. Drawing primarily on Bakhtinian, feminist, and female Black scholarship, her incisive analysis reveals how the new media streaming phenomenon molds children's understandings of their ways of being in the world. Ideal for scholars and graduate students in literacy education, media studies, and communication, the text is an illuminating view into the hidden role of streaming services as an essential, complex component of literacy scholarship.
