*Why You Can't Make Free Throws the Mental, the Myth, and the Make* Keith Coleman, 2018-06-11

Did you know that the average basketball team misses between eight and ten free throws in a single game? That equates to an overall loss of 12 to 14 points, where the average margin of victory in a basketball game is only 11.3 points. These are clearly make or break opportunities. Unfortunately, teams have defaulted to breaking. The simple truth is that coaches just aren't putting an emphasis on teaching free-throw skills. Why have coaches and teams thrown the free-throw to the wayside? There are numerous reasons behind what makes free-throws so difficult. Even players in the NBA and WNBA are constantly criticized for low free-throw percentages. There's one major reason behind this, and a lot of smaller reasons that contribute to what makes free-throws such a tough shot to make. That's why Coach Coleman set out to develop a method that works. He's helped players at every level increase their free-throw percentage and has been widely recognized for his success in doing so. They don't call him the Mr. Miyagi of free-throw shooting for nothing! Coleman's method is unique as it is targeted at helping coaches better coach their players. By helping these coaches teach their players to free-throw, he can single-handedly improve free-throw percentages and win rates. With Coach Coleman's help, no longer will games be lost at the free-throw line.

**Fifteen Feet for Free** Jim Lee, 2012-02-22 Jimmy Lee was the best shooter from 15-feet I have ever seen. If he got his shot, he made it. Early, middle, or late in games it did not matter when. Jimmy had great fundamentals, he worked hard and he shot the ball with great confidence. He was so consistent; if he missed a shot you thought it was an accident. His thoughts and techniques can help anyone improve their free throw shooting Jim Boeheim Head Coach at Syracuse University, Naismith Basketball Hall of Fame, Class of 2005; 2008 Olympic Gold Medal, Team USA, 2010 World Championship Gold Medal, Team USA; 2010 Division I Coach of the Year Jim Lee and I were contemporaries at Syracuse. He played in the games I talked about them. I remember him as a clutch shooter (in the 1975 NCAA Tournament, his 18-footer with 3 seconds left upset North Carolina, and paved the way for Syracuse's first trip to the Final Four). Since Jimmy was pretty close to automatic from the foul line, just about every player, at every level, can benefit from his advice and proven approach. Bob Costas NBC Sports This is a rare book, because Jim is able to weave together invaluable skills instruction with a very personal and informative story about his relationships with teammates, coaches, and most importantly his family. Jim's father, as both a veteran and a person with disabilities, clearly served as an exemplar for Jim with regard to how he approached basketball and how he approached life. This is clearly illustrated by the fact that Jim has committed to leverage the proceeds from sales of this book to improve the lives of this generation of veterans with disabilities. On so many levels, Jim's book is powerfully positioned to impart lessons about basketball and life that are meaningful and timeless. Mike Haynie, PhD Executive Director, Institute for Veterans and Military Families, Syracuse University; Barnes Professor of Entrepreneurship, Whitman School of Management, Syracuse University Fifteen Feet For Free is an easy read for all ages. It can be very helpful for kids just beginning their basketball days, and I can see a great benefit for more experienced players. The fundamental instructions in this book can easily improve a player's free throw percentage. Morgan Wootten 1,274 wins as Head Basketball Coach at DeMatha HS; Naismith Basketball Hall of Fame, Class of 2000; National Coach of the 20th Century; Four-time recipient of National Coach of the Year; 10-time recipient of Coach of the Year in the Washington D.C. Area The fundamentals of great free throw shooting are in complete alignment with the values of practice, repetition, goal setting, and mental calm that successful business people employ. Jim gets this and writes about it in an amazingly real and compelling way. Mike Perlis President and CEO, Forbes Media

Free Throw Tom Amberry,1996-09-13 On November 15, 1993, a white-haired, 72-year-old gentleman named Dr. Amberry stepped up to the free throw line and into the Guinness Book of World Records by sinking 2,750 shots in a row. He ended his 12-hour streak without a miss, stopping only because they had to close the gym for the night. In *Free Throw*, he reveals his secrets. Beginning with the proper mechanics of the shot, he then explains the importance of the mental game and shares his techniques to help players stay on target even while under pressure. Combining these mental and physical elements, he presents a unique and straightforward 7-step method that teaches readers how to become a 90% free throw shooter. The free throw is the Achilles heel of the basketball player -- many players are great from the floor but lousy at the line. *Free Throw* is the only book to address this important skill. Clearly written, with principles that are easy to put into practice, it is an indispensable manual for all basketball players and coaches.

*Basketball on Paper* Dean Oliver,2020-02-15 Journey inside the numbers for an exceptional set of statistical tools and rules that can help explain the winning, or losing, ways of a basketball team. *Basketball on Paper* doesn't diagram plays or explain how players get in shape, but instead demonstrates how to interpret player and team performance. Dean Oliver highlights general strategies for teams when they're winning or losing and what aspects should be the focus in either situation. He describes and quantifies the jobs of team leaders and role players, then discusses the interactions between players and how to achieve the best fit. Oliver conceptualizes the meaning of teamwork and how to quantify the value of different types of players working together. He examines historically successful NBA teams and identifies what made them so successful: individual talent, a system of putting players together, or good coaching. Oliver then uses these statistical tools and case studies to evaluate the best players in history, such as Magic Johnson, Wilt Chamberlain, Bill Russell, and Charles Barkley and how they contributed to their teams' success. He does the same for some of the NBA's oddball players-Manute Bol, Muggsy Bogues, and Dennis Rodman and for the WNBA's top players. *Basketball on Paper* is unique in its incorporation of business and analytical concepts within the context of basketball to measure the value of players in a cooperative setting. Whether you're looking for strategies or new ideas to throw out while watching the ballgame at a sports bar, Dean Oliver's *Basketball on Paper* will give you amazing new insights into teamwork, coaching, and success.

*Basketball in Action* John Crossingham, Sarah Dann,2000 Introduces the techniques, equipment, rules, and safety requirements of basketball.

*Free Throw Fail* Jake Maddox,2017-08 Jake's jump shot is as good as money in the bank, but when he heads to the foul line... clank If Jake doesn't find a way to solve his free throw woes, his coach will have no choice but to put him on the pine. Will Jake nail it, or will he fail it?

The Ice Cream Shooter Frank Rodgers,2022-02-07 The story deals with a seven-year-old kid—Ice Cream—who has a marvelous talent. He fantasized about becoming a professional basketball free throw shooter when he becomes older in life. When young Ice Cream attended first grade elementary school, he could not stay focused on his schoolwork because his mind was always on shooting free throws all the time. While in class, he decided to use some of his clean notebook paper and ball it up to a paper ball, and he started shooting it into the trash can that was near his desk. While class was going on, three of his classmates (Fats, Range, and Deep) who were sitting near him saw Ice Cream shooting the paper balls, and they were very amazed how young Ice Cream was making those shots in the trash can. Fats, Range, and Deep decided to follow Ice Cream and did the same thing—shooting paper balls in the same trash can. They all were shooting together in class, trying not to let their teacher, Mrs. Hoops, catch them shooting the paper balls. At the same time, there were four girls in the class—Good Pass, Block, Dunk, and Set Shot—who saw Ice Cream, Fats, Range, and Deep, and the four girls loved the way the boys were shooting the paper balls, making shot after shot in the trash can. As the years went by, all eight of them became close friends, and the four girls followed Ice Cream, Fats, Range, and Deep all the time, through good times and bad times, going to practices, shooting at events, and going to local basketball courts. They all attended the same high school and college together. When Ice Cream, Fats, Range, and Deep became older adults, their dream of becoming the top four professional free throw shooters to represent the United States Olympic Free Throw Shooting tournament team came true, and they advanced to the national championship title free throw shooting game to represent their country.
