Zen Odyssey, An Okinawan Karate & Martial Arts Journey Mark D Bishop,2017-01-02 An entertaining odyssey by all means, which all readers, not only karate-ka, can enjoy. The work describes a fascinating 'voyage of discovery' through the Okinawan martial arts during the author's younger years. Both informative & factual, the work leads the reader on a journey of initiation from the preliminary stages of being a 'live-in disciple' of Goju-ryu & trainee of Matayoshi Kobudo in post-Reversion Okinawa, as he travels with the reader through the exploration of Uechi-ryu, Shorin-ryu & Okinawan te; also of a vast spectrum of connected Ryukyuan cultural entities. His attention to detail is commendable, as the shared expedition becomes an esoteric odyssey to find the zen spark of enlightenment that evades so many seekers, but which can be found within one's own nature. Mark D Bishop is arguably the foremost authority on historical Okinawa karate & martial arts. He continues to write, travel, research and teach extensively on various aspects of these, including its related anma bodywork & zen.

Baseball Players of the 1950s Rich Marazzi,Len Fiorito,2015-06-08 The playing and post-playing careers of all 1,560 players who appeared in a major league box score between 1950 and 1959—the “golden age,” many say—are profiled in this exhaustive work. From Aaron to Zverink: this treasure-trove of anecdotes, many gathered from personal interviews, is full of historical facts, controversy, and trivia. Readers will be reminded, that Milwaukee Braves pitcher Humberto Robinson was asked by a gambler to fix a game against the Phillies (he refused), Joe Adcock chased Giants pitcher Ruben Gomez around the field with a bat, Bob Turley reached the top of the corporate ladder after his playing days, Casey Wise became an orthodontist, Bobby Brown became a heart surgeon and president of the AL, and that Chuck Connors became an actor. All of this and much more can be found here.

Japanese Culture Through Videogames Rachael Hutchinson,2019-05-28 Examining a wide range of Japanese videogames, including arcade fighting games, PC-based strategy games and console JRPGs, this book assesses their cultural significance and shows how gameplay and context can be analyzed together to understand videogames as a dynamic mode of artistic expression. Well-known titles such as Final Fantasy, Metal Gear Solid, Street Fighter and Katamari Damacy are evaluated in detail, showing how ideology and critique are conveyed through game narrative and character design as well as user interface, cabinet art, and peripherals. This book also considers how ‘Japan’ has been packaged for domestic and overseas consumers, and how Japanese designers have used the medium to express ideas about home and nation, nuclear energy, war and historical memory, social breakdown and bioethics. Placing each title in its historical context, Hutchinson ultimately shows that videogames are a relatively recent but significant site where cultural identity is played out in modern Japan. Comparing Japanese videogames with their American counterparts, as well as other media forms, such as film, manga and anime, Japanese Culture Through Videogames will be useful to students and scholars of Japanese culture and society, as well as Game Studies, Media Studies and Japanese Studies more generally.

The Image and the Witness Frances Guerin,Roger Hallas,2007 The Image and the Witness: Trauma, Memory and Visual Culture is a timely interdisciplinary collection of original essays concerning the ethical stakes of the image in our visually-saturated age. It explores the role of the material image in bearing witness to historical events and the visual representation of witnesses to collective trauma. In arguing for the agency of the image, this unique collection debates post-traumatic memory, documentary ethics, embodied vision, and the recycling of images. It discusses works by Chris Marker, Errol Morris, Derek Jarman, Doris Salcedo, Gerhard Richter, and Boris Mikhailov, along with images from popular culture, including websites and home movies.

Baseball Without Borders George Gmelch,2006-11-01 A collection of original essays about baseball in other cultures, notably Asia, Europe, the Americas and the Pacific, which explores a wide range of issues for each region.

Divided Lenses Michael Berry,Chiho Sawada,2017-12-31 Divided Lenses: Screen Memories of War in East Asia is the first attempt to explore how the tumultuous years between 1931 and 1953 have been recreated and renegotiated in cinema. This period saw traumatic conflicts such as the Sino-Japanese War, the Pacific War, and the Korean War, and pivotal events such as the Rape of Nanjing, Pearl Harbor, the Battle of Iwo Jima, and the bombings of Hiroshima and Nagasaki, all of which left a lasting imprint on East Asia and the world. By bringing together a variety of specialists in the cinemas of East Asia and offering divergent yet complementary perspectives, the book explores how the legacies of war have been reimagined through the lens of film. This turbulent era opened with the Mukden Incident of 1931, which signaled a new page in Japanese militaristic aggression in East Asia, and culminated with the Korean War (1950–1953), a protracted conflict that broke out in the wake of Japan's post-World War II withdrawal from Korea. Divided Lenses explores the ways in which events of the intervening decades have continued to shape politics and popular culture throughout East Asia and the world. The essays in part I examine historical trends at work in various national cinemas, including

China, Taiwan, Japan, Korea, and the United States. Those in part 2 focus on specific themes present in the cinema portraying this period—such as comfort women in Chinese film, the Nanjing Massacre, or nationalism—and how they have been depicted or renegotiated in contemporary films. Of particular interest are contributions drawing from other forms of screen culture, such as television and video games. Divided Lenses builds on the growing interest in East Asian cinema by examining how these historic conflicts have been imagined, framed, and revisited through the lens of cinema and screen culture. It will interest later generations living in the shadow of these events, as well as students and scholars in the fields of cinema studies, cultural studies, cold war studies, and World War II history.

Baseball Beyond Our Borders George Gmelch,Daniel A. Nathan,2017-03 Baseball Beyond Our Borders celebrates the globalization of the game while highlighting the different histories and cultures of the nations in which the sport is played. This collection of essays tells the story of America’s national pastime as it has spread across the world and undergone instructive, entertaining, and sometimes quirky changes in the process. Covering nineteen countries and a U.S. territory, the contributors show how each country imported baseball, how baseball took hold and developed, how it is organized, played, and followed, and what local and regional traits tell us about the sport’s place in each culture. But what lies in store as baseball’s passport fills up with far-flung stamps? Will the international migration of players homogenize baseball? What role will the World Baseball Classic play? These are just a few of the questions the authors pose.

Inside Japanese Business: A Narrative History 1960-2000 Makota Ohtsu,Tomio Imanari,2015-05-20 This book sheds new light on Japanese management and its social consequences. Since the collapse of the Japanese bubble economy, the once acclaimed Japanese-style management has been under serious criticism both inside and outside Japan, but this is not a new phenomenon: over the last 50 years, evaluation of Japan and Japanese management has fluctuated widely between extreme affirmation and extreme negation. This study is unique because it is a longitudinal analysis that covers 35 years it uses firsthand information from managers in major Japanese corporations; and by involving several of these managers in the research process the views of actual practitioners are made available.

The Grace of Destruction Elena del Río,2016-05-05 For Elena del Río, extreme cinema is not only qualitatively different from the representations of violence we encounter in popular, mainstream cinema; it also constitutes a critique of the socio-moral system that produces (in every sense of the word) such violence. Drawing inspiration from Deleuze's ethics of immanence, Spinoza's ethology of passions and Nietzsche's typology of forces, The Grace of Destruction examines the affective extremities common in much of global, contemporary cinema from the affirmative perspective of vital forces and situations-extremities such as moral/religious oppression, biopolitical violence, the pain involved in gender relations, the event of death and planetary extinction. Her analysis diverges from the current literature on extreme cinema through its selection of films, which include key international examples, and through its foregrounding of relational, affective politics over representations of sexuality and graphic violence. Detailed formal and philosophical analyses of films like The White Ribbon, Dogville, Code Unknown, Battle in Heaven, Sonatine, Fireworks, Dolls, Takeshis', Inland Empire and Melancholia are meant to move us away from the moral appraisal of violence and destruction, and to compose an ethological philosophy of cinema based on Deleuze's idea that, “when truth and judgment crumble, there remain bodies, which are... nothing but forces.”
