How can you then use this moment... ..to make more people buy your product, sign up to your newsletter and click through in your emails -- in essence get more people to take action now? Others will say that it was smart marketing, but you'll know, you were just sharing something you love, sharing your real excitement in your own natural voice. People are going to buy that. You will learn: To strip away everything you've learned about grammar and punctuation which stop natural communication and creativity. Vitale's 21 point checklist for reviewing copy How to involve your customers emotionally The best marketing documents to have out there before you call your customer How to make your ads stand out without resorting to "cute" How to make your words work for you... direct, benefit-oriented and as simple as possible The 26 reasons why people buy

Interiors in the Era of Covid-19 Penny Sparke,Ersi Ioannidou,Pat Kirkham,Stephen Knott,Jana Scholze,2023-01-26 The Covid-19 lockdowns caused people worldwide to be confined to their homes for longer and on a greater scale than ever before. This forced many unprecedented changes to the way we treat domestic space – as relationships shifted between the public and the private worlds, and homes were rapidly adapted to accommodate the additional roles of schools, offices, gyms, restaurants, making-spaces and more. Above all, our understanding of the home as a site to support and enhance the well-being of its inhabitants changed in a variety of novel ways. Interiors in the Era of Covid is a collection of essays which explore the complex ways in which our inside spaces (contemporary and historical) have responded to Covid-19 and other human crises. With case studies ranging from US and Europe to Japan, China, Colombia, and Bangladesh, this is a truly global work which examines wide-ranging subjects from home-working and home technologies, to the impact of lockdown on people's identities, gender roles in the home, and the realities of domestic living with Covid in refugee camps. Exploring the roles played by designers (both amateur and professional) in accommodating changing requirements and anticipating future ones – whether Covid or beyond – this book is a must-read for students and researchers in interior design, architecture, architectural and design history, and anyone interested in the home and the relationships between health and design.
